Primeiramente, liver that the word "poker" can bring to mind different {img}: international tournaments, crowded nightclubs, and talented players. However, poker is essentially a simple game to play and learn.

In Brazil, the gaming market has been growing rapidly, and poker, one of the most popular casino games, is becoming increasingly present on various platforms.

There are many variations of poker played around the world, with slightly different rules between them. However, their essential essence remains the same:

* Knowing the order of poker hands - from the highest pair to the lowest pair;

* Choosing a reliable site. Some of the best online poker sites in Brazil include WPTGlobal, 888poker, PokerStars, and the newest addition, Poker with Friends on Jogos123.

The WPT Action Clock has generally received positive reviews since it debuted at the Season XIV WPT Tournament of Champions. The goal was to speed up play in later stages of a tournament – striking a balance in speeding up play but also offering opportunities for time extensions when players have particularly difficult decisions.

However, as tour events continue to attract bigger and bigger fields, a few changes were added beginning with the WPT Seminole Hard Rock Poker Showdown.

The Action Clock comes into play when a tournament is one full table off the money bubble and continues until a champion is crowned. Each player has 30 seconds to act on a hand, and received four time-extension chips for an extra 30 seconds each. Players reaching the final three tables of the tournament are then reset to a maximum of six time-extension chips, and those at the final table are reset to a maximum of eight chips.

Now, the tour is adjusting the number of time chips players receive based on the number of players who will cash in an event.

“What happened at the Borgata [Winter Poker Open] is that we just had so many people in the money,” WPT executive tour director Matt Savage (pictured) says. “It was always four time extensions to play down to 24. We could have been paying 28 and from 28 down to 24, you got four time chips. At the Borgata, we paid 136, which is great, and you got four down from that to 24. Is that fair?”

Players basically had to play a full day with four time chips because of the increased number of entries. The tour is now trying to adjust for those increases and distributing more chips accordingly.

“We’re giving more time chips based on the number of players paid,” Savage says. “Players brought it up to me and obviously it makes sense that if we’re playing that many more, that it’s not really fair for them to be getting the same amount of time chips.”

Players can now receive as many as 10 time-extension chips when the Action Clock comes into play. Once play reaches 24 players, all other time extension rules remain the same. A full copy of Action Clock rules can be found here.

Here’s a look at the new time chip structure for future tournaments when the Action Clock is put into play:

Number of players in the money	Number of time-extension chips (per player)
25-34 players	Two (2) time-extension chips, per player
35-44 players	Three (3) time-extension chips, per player
45-64 players	Four (4) time-extension chips, per player
65-80 players	Five (5) time-extension chips, per player
81-100 players	Six (6) time-extension chips, per player
101-120 players	Seven (7) time-extension chips, per player
121-140 players	Eight (8) time-extension chips, per player
141-160 players	Nine (9) time-extension chips, per player
161+ players	Ten (10) time-extension chips, per player

Looking to win your way to a World Poker Tour event for your shot at becoming a WPT champion? Play for your chance on ClubWPT, where eligible VIP Members can play for over R\$100,000 in cash and prizes each month, including seats to WPT events, no purchase necessary.

Brote de gripe aviar en ganado lechero en EE.UU.:

preocupación por la propagación a humanos

El brote de gripe aviar en el ganado lechero solo ha afectado hasta ahora a tres trabajadores agrícolas en Estados Unidos, pero la preocupación es que el virus, denominado H5N1, siga siendo benigno si empieza a propagarse entre las personas.

Los síntomas en los trabajadores agrícolas han sido leves, pero estudios en animales sugieren que el virus podría ser más grave en humanos. El virus se ha mostrado promiscuo, ganando rápidamente nuevos huéspedes: aves silvestres y de corral, ratones y osos, gatos y leones marinos.

Posibilidad de transmisión de persona a persona

Lo más importante es que ninguna forma del virus de la gripe aviar parece haberse propagado eficazmente de persona a persona. Pero esto no garantiza que el H5N1 no vaya a adquirir esa capacidad, afirmó Yoshihiro Kawaoka, virólogo y experto en gripe aviar de la Universidad de Wisconsin-Madison.

La preocupación actual es que, a medida que el virus H5N1 siga infectando mamíferos y evolucionando, pueda conservar las mutaciones necesarias para propagarse eficazmente entre las personas, y poner en marcha así otra pandemia.

Prevención y tratamiento

Las vacunas son una mejor apuesta para frenar una pandemia, pero no es probable que haya suficientes dosis disponibles durante muchos meses, como mínimo. Incluso si la producción mundial de vacunas contra la gripe estacional se trasladara por completo a las vacunas contra el H5N1, el número de dosis fabricadas alcanzaría para menos de dos mil millones de personas, suponiendo que se necesitaran dos dosis para cada persona.

Las autoridades anunciaron recientemente que habían tomado medidas para preparar 4,8 millones de dosis que podrían envasarse sin interrumpir la producción de vacunas contra la gripe estacional.

Desde su primera aparición, el H5N1 se ha ramificado en muchas formas, y los científicos han creado una biblioteca de 40 virus candidatos a vacunas. Disponer de ellos ahorra un tiempo crucial, ya que crear un nuevo candidato puede llevar tres meses.
