Netanyahu enfrenta una elección difícil entre la supervivencia de su gobierno y el regreso de rehenes en Gaza

Durante meses, el primer ministro Benjamin Netanyahu de Israel se ha negado a ofrecer un calendario para poner fin a la guerra contra Hamas en Gaza, una reticencia que sus críticos ven como una táctica política. Pero ha sido puesto en el apuro por el anuncio del presidente Biden que establece una propuesta para una tregua.

El Sr. Netanyahu, un conservador, ha estado durante mucho tiempo equilibrando intereses personales, políticos y nacionales competidores. Ahora parece estar enfrentando una elección difícil entre la supervivencia de su gobierno de línea dura y belicista y traer de vuelta a los rehenes retenidos en Gaza mientras se establece a sí mismo e Israel en un nuevo curso alejado del aislamiento internacional en aumento.

Una elección difícil

Los críticos del primer ministro lo han descrito como indeciso y dicen que hay dos Netanyahu. Uno, dicen, funciona pragmáticamente en el pequeño gabinete de guerra que formó con algunos rivales centristas, para darle legitimidad pública. El otro está efectivamente siendo rehén de los miembros de su coalición de gobierno de extrema derecha, que se oponen a cualquier concesión a Hamas y que garantizan su supervivencia política.

El viernes, el Sr. Biden esbozó términos generales que dijo que fueron presentados por Israel a los mediadores estadounidenses, qataríes y egipcios que han estado presionando para un acuerdo para detener los combates y liberar rehenes en Gaza. Los funcionarios israelíes confirmaron que los términos coincidían con una propuesta de alto el fuego que había sido aprobada por el gabinete de guerra israelí pero aún no se había presentado al público israelí.
