Penalty Shoot out Casino Game Strategy

There isn't much strategy in a simple arcade game like Penalty Shoot Out casino. You have five bets to pick from, and it's basically a guessing game since you're aiming to score a goal against the odds.

Penalty Shoot-out is a test of strategy and skill. By taking your time to aim precisely, you can place the ball in such a way that it will be more difficult for the goalkeeper to block. To increase your odds at scoring, target one of the goal's corners. Strategize ahead by anticipating what moves the keeper may make.

Understand the Probabilities of the Game

The only thing you can do is grasp the odds for each of the available bets. The probability of scoring a goal, as well as the premium and vig (the amount wagered minus eventual winnings), is listed in the table below:

BET	PROBABILITY	PAYS	HOUSE EDGE
Upper Left	8.1%	12 to 1	97.2%
Upper Right	8.1%	12 to 1	97.2%
Top	19.2%	5 to 1	96.0%
Lower Left	32.3%	3 to 1	96.9%
Lower Right	32.3%	3 to 1	96.9%

The lowest paying wagers on the top corners, which pay out at 12 to 1, have the highest risk of winning. However, these locations only succeed 8.1 percent of the time. The house advantage on these bets is also the greatest in the game, at 97.2%.

The difference in house edge between the tough Upper corner bets and the much easier scored Lower corner bets is insignificant. When betting on either of the Lower Left or Lower Right options, you'll score a goal 32.3 percent of the time.

Finally, in the Middle bet, you'll win a goal 19.2 percent of the time. With a house edge of 96 percent, this wager is the most conservative in Penalty Shootout casino.

Paylines

In Penalty Shoot-Out, there are no paylines – just goal positions that can give you the chance to pocket a reward! Strike your shot past the keeper and score yourself a payout.

To maximize your payout, you must get the opposing team's end on the multiplier meter. The final stage of this game promises a rewarding prize of up to 30.72x your original bet.

Track your progress with the meter above the goal and identify possible rewards. The winning multiplier begins at 1.92x for the first goal and increases by 2x every time you make a successful shot, granting lucrative prizes:

- 1st goal – 1.92x the stake.
- 2nd goal – 3.84x the stake.
- 3rd goal – 7.68x the stake.
- 4th goal – 15.36x the stake.
- 5th goal – 30.72x the stake.

Bonus game and freespins

Penalty Shoot-Out is a classic instant game that offers players an exciting and fast-paced gaming experience. With no bonus features like free spins, the draw of this popular game lies in its most beloved sport – soccer! As well as providing lots of fun, Penalty Shoot-Out also promises potential high winnings for those lucky enough to score.

When you place a bet, the Collect button is always available and allows you to add any accumulated amount to your account balance. This feature somewhat resembles early cash-out functions from online sportsbooks, enabling players to minimize their losses. They can either complete all five shots cycle or collect their winnings after each goal they score.

When betting on a round, your stake can be magnified to 1.92x for one successful goal, 3.84x for two successes, 7.68x for three achievements, 15.64x if you hit four goals—or an incredible 30.72

times if you manage the grand slam of five in-play targets! For instance; investing R\$500 could net up to R\$15360 should the goalkeeper not stand in your way! After each span players are free to modify their bet amounts at their discretion – though they must remember that any losses incurred will include forfeiting both previous won profits and original outlay too.

Feeling unlucky with your current national team? Not to worry! Simply press the button featuring two crossed flags, and you can switch to one of 24 different teams. Alternatively, click on the Random ball, which will randomly select a spot within the football gate for you – adding an element of surprise. With Penalty Shoot-Out's various options available at your disposal, all that is left is for you to have some fun playing.
