We would like to take this opportunity to introduce you to the Western States Utility Theft Association. This regional group was founded in 1987 as Western States Energy Theft Association (WSETA) with the intent to bring utility companies together from the Western United States. In 2001 the name was changed to Western States Utility Theft Association. Our mission is to identify measures to protect our companies from revenue losses associated with unauthorized use of service. Each year, WSUTA hosts a conference where revenue protection professionals may learn about and share perspectives on the issues faced by our membership. Vendors aligned with our mission proudly display the latest technology and services and provide options for consideration in the pursuit of reducing theft of utility service. Attention Revenue Assurance Professionals! The Western States Utility Theft Association Conference has been scheduled for September 25 - 28, 2024 in Ontario, California. Please go to Conference Information for details. WSUTA consists of officers who are elected by the WSUTA members at the annual conference. Membership in the organization requires only that an interested member be a utility employee whose principle activity involves recovery and/or the protection of revenues. A Board of Advisors made up of former officers provides guidance and assistance in coordinating the annual conference. The utility industry has become very dynamic. The issue of competition among utilities around the world is a reality. Utilities that were once closely regulated or controlled by the government are now becoming deregulated and privately owned. The added value of protecting against the loss of diminishing profits from unauthorized use of the utility's service is becoming a higher priority. The ability to accomplish this objective with the highest efficiency and cost effectiveness is our goal. The Western States Utility Theft Association is a not for profit, professional association comprised of western US utility representatives with a mission of developing and supporting an ongoing effort to combat revenue loss through utility diversion, thereby reducing the unfair financial burden placed on other utility customers and stakeholders. WSUTA Revenue Protection Professional of the Year. We are seeking to recognize revenue protection personnel within the utilities for their outstanding dedication and service in the field of Revenue Protection which have

contributed to the success of your program in your company. WSUTA works closely with the International Utility Revenue Protection Association. IURPA represents a vast resource of remarkable people with valuable information. We congratulate our members and vendors for making WSUTA the success it has become and welcome our new members and vendors to participate in the growth and prosperity of the Western States Utility Theft Association and the International Utilities Revenue Protection Association.

Iran Realiza Ataque Directo a Israel: Un Cambio en su Estrategia Histórica

La tensión entre Irán e Israel alcanzó un nuevo nivel el pasado fin de semana, cuando Irán lanzó un ataque directo sobre Israel, lo que representa un significativo cambio en su histórico método de guerra indirecta. Durante décadas, Irán ha evitado las repercusiones internacionales de sus acciones al utilizar fuerzas proxies. Sin embargo, con tensiones económicas y políticas internas alcanzando límites críticos, el teocrático régimen chiíta de Irán ha elegido un curso de acción diferente, marcando un punto de inflexión para la República Islámica.

El Liderazgo de Irán: Un Futuro Incierto

El líder supremo de Irán, el ayatolá Ali Khamenei, cumplirá 85 años el próximo viernes, y aún no hay un sucesor claro a la vista. Tras la devasta guerra iran-iraquí de los años ochenta, Khamenei promovió por años la "paciencia estratégica" en el enfrentamiento con los principales rivales de Irán, Israel y Estados Unidos, para evitar el combate directo.

Este enfoque llevó a Irán a invertir más en fuerzas milicianas regionales para acosar a Israel, como Hamás en la Franja de Gaza o el grupo militante libanés Hezbollah, y contener a EE. UU., como con las milicias que plantaron artefactos explosivos improvisados letales que causaron la muerte a soldados estadounidenses durante la guerra de Iraq. Esta estrategia también se ha extendido a Yemen, donde el armamento de los rebeldes hutíes por Irán ha empoderado su toma del capital y ha frustrado una coalición liderada por Arabia Saudita en una guerra que continúa hasta el presente.

Un Cambio en la Estrategia de Irán

Sin embargo, el pasado sábado, esta estrategia cambió. Tras días de advertencias, Irán lanzó 170 drones armados, más de 30 cruceros y más de 120 misiles balísticos hacia Israel, según un recuento de Israel. Estos ataques incluyeron los mismos drones armados que Irán suministró a Rusia para su guerra en curso con Ucrania.

A pesar de que Israel y EE. UU. describen que el 99% de estos proyectiles fueron derribados, Irán calificó el ataque como éxito. El ministro de Relaciones Exteriores iraní, Hossein Amirabdollahian, afirmó el lunes que el ataque tenía como objetivo "desalentar, castigar y advertir al régimen sionista". El mismo Khamenei había llamado anteriormente a "castigar" a Israel.

Reacciones y Tensiones Continúan

Un presunto ataque israelí golpeó un anexo al consulado iraní en Damasco el domingo, causando la muerte de al menos 12 personas, entre ellas un comandante superior de la fuerza de élite paramilitar Guardia Revolucionaria de Irán. Durante décadas, Israel y
