About Bang Bang Games

At Bang Bang Games they call themselves a boutique slot studio, and they live up to this definition. It's a small company that creates unique content that stands out. Just a few people are working for the studio, but that's enough to generate thrilling ideas for games and deliver fantastic slots.

Founded in 2024, the

developer doesn't have the urge to supply a large volume of content. Instead, it rolls out a small number of titles a year. With up to 10 people on board, it would be impossible to ensure world-class content and at the same time a high output level.

There isn't much information about Bang Bang Games available as the company doesn't even have its website after three years on the market. But players shouldn't be concerned about its legitimacy. The developer is registered in the UK and got licensed there in 2024. Contributing to the company's trust level is the fact that the studio is a part of the YG Masters program launched by Yggdrasil.

Bang Bang Slots

Its first games

were developed exclusively for Endemol Shine Gaming in 2024. The same year the studio joined YG Masters to expand its reach and gain more exposure. This latter partnership gave Bang Bang Games a significant boost and access to an extensive selection of Yggdrasil's proprietary features such as MultiMax, DoubleMax, Gigablox, etc.

The video

slots feature vibrant artwork and exciting gameplay. They are usually packed with one bonus game and a couple of boosters. The games are translated into over 25 languages and can be played on desktop as well as mobile devices. All Bang Bang video slots share amazing audio-visuals and engaging math, which is always different.

Features

Bang Bang

Games uses an extensive range of features one of which is typically free spins. But it

has some favorite tools. The studio loves Yggdrasil's engines such as Gigablox, MultiMax, DoubleMax. But the team is capable of designing some thrilling features on its own. UltraNudge, for instance, will be enjoyed by gamblers as they get all symbols to nudge down after every win. There are other common features to mention:

Bonus Gamble

adds more thrill as players can risk their free spins in the hope to get a better deal. And they sometimes can take risks several times in a row, significantly increasing the number of free spins. What's even more exciting is that after each successful attempt, the chances of winning the risk game improve in some games.

Bonus Buy. With Bang Bang

Games slot machines it isn't necessary to wait for features to trigger naturally. Many titles offer a shortcut to the bonus game, and multiple options can be offered. So that you can opt for a cheaper version with a basic bag of features or a more expensive and potentially more lucrative option.

Bonus Boost is another way to trigger features. But

this time players pay +25% on the total bet, and bonus activation isn't guaranteed. The money is paid to double the chances of landing free spins.

RTP

At first, RTP used to

vary from 95.5% to 96.6%. However, Bang Bang Game's later releases have RTP within a very tight range and the figure is either 96% or 96.1%. Keep in mind that some games have adjustable RTP, meaning that there are multiple versions with different theoretical returns. Pharaoh's Gaze DoubleMax, for instance, is rolled out in four versions: 86%, 90.5%, 94.1%, and 96.1%.

The studio's early releases have a single RTP,

but its later titles typically have four versions with pretty much similar returns as the one mentioned above. To find a slot's RTP, all you need to do is open the Game Rules file. Close to the bottom of the page, there's the Return to Player section.

Volatility is usually either medium-high or high. But hit frequency varies, creating a different experience every time. It can be quite low like in Shadow Raiders MultiMax (18.32%) or rather high like in Jokrz Wild UltraNudge (31.2%). Both slots are highly volatile, but the latter should drop payouts almost twice more frequently.

There

are no crazy figures in terms of max wins. At press time, the lowest is x7,216 (Jokrz Wild UltraNudge Gigablox) and the highest is x23,500 (Jokrz Wild UltraNudge).

Best Bang

Bang Games Video Slots

You can start with the latest releases and one by one try all the slots. We have an entire collection of free Bang Bang slot machines and they are available instantly to any visitor. So, take time to explore this small but exciting catalog and you'll likely find something that appeals to you. Here are some titles that you can try first.

Jokrz Wild UltraNudge. The slot has a classic theme and modern

gameplay. UltraNudge is an exciting feature that activates nudging in the main and bonus games, and that creates so much more winning opportunities. During free spins nudging is triggered by any win, whereas in the main mode, the combination must include a Wild. Bonus Boost adds another 1/4 of a total bet and improves chances of triggering the feature and awards +3 free spins. When the bonus game gets triggered, there's an opportunity to Gamble it for a higher starting multiplier.

Shadow Raiders MultiMax

invites players onboard a pirate ship. It's a visually appealing game with an engaging combination of features. Similar symbols land on adjacent reels, they disappear and

leave one Wild. Any Wild increases the reel multiplier that can grow and resets at the end of the round and in the case of free spins doesn't reset at all. There are Mystery Prizes, bonus gamble, bonus buy, and bonus boost to spice things up.

Super Cash Drop

Gigablox has multiple player favorite features in one package. Up to 6x6 giant symbols, expanding Wilds with multipliers, and respins with fully expanded locked Wilds. For even more thrill you can buy free spins or trigger them naturally to have expanded Wilds always locked and low-value icons removed.

Where to Play Bang Bang Slots

The

decision to join the YG Masters program was crucial to expanding the studio's reach. Now its content is available to a wide network of online casinos that partner with Yggdrasil. Many top operators offer a great library of content, including Bang Bang Games titles. And they create a fun and hassle-free environment for players internationally. Below are some of them rated and reviewed.

Compare casinos from the

list, and read reviews for more information. They are all legitimate operators with a variety of bonus offers and an extensive selection of payment methods.

Chermoula: a "flavour bomb" of Maghreb cuisine

Chermoula is a marinade that originates from the Maghreb region of North Africa, specifically from Morocco. It is often referred to as the "emblematic marinade of Maghreb cuisine" and its name comes from the Arabic verb *chermel*, which means "to rub or marinate something with a spice mix". The three main ingredients of chermoula are garlic, olive oil, and fresh herbs, making it similar to an Italian salsa verde but with a distinct North African flavor profile.

The herbs

The most important ingredient in chermoula is a combination of coriander and flat-leaf parsley, which are used in equal proportions. The herbs add a unique flavor and depth to the marinade, and can be adjusted to taste. Some recipes call for more coriander, while others use more parsley.

The flavorings

Garlic is a key ingredient in chermoula and can be adjusted to taste, with some recipes calling for just one clove and others using up to a dozen. Cumin is also commonly used and enhances the flavor of the herbs without competing with them. Saffron, on the other hand, is often included but can be difficult to detect in the presence of strong flavors such as garlic and red pepper.

The acid

Not all chermoula recipes include acid, but it can be added for flavor and to help melt the bones of a whole fish when marinating. Fresh lemon juice is the preferred acid, as it provides a cleaner and more refreshing flavor compared to vinegar.

The method

Chermoula can be made by finely chopping the ingredients or using a pestle and mortar to release the oils. The texture of the chermoula can be adjusted based on its intended use, with a coarser texture preferred for a condiment or salsa and a smoother texture preferred for a marinade or rub.

The fish

Chermoula can be used with a variety of fish, including sardines, tuna, and mackerel. It can be

used as a marinade for whole or filleted fish, or as a condiment for grilled or fried fish. It pairs well with lemon and can be used to make a small-scale fish tagine.

Perfect chermoula fish recipe

Ingredients

- 3 plump garlic cloves
- 1 tsp salt
- 1 tsp ground cumin
- ½ tsp sweet paprika
- ½ tsp hot paprika
- 75g fresh coriander
- 25g flat-leaf parsley
- Juice of 1 lemon
- 1 preserved lemon (optional)
- 2 tbsp olive oil
- 4 white fish fillets, scaled and cleaned

Instructions

1. Make a paste with the garlic and salt in a mortar, then stir in the cumin and paprikas.
 2. Finely chop the herbs and add them to the mortar, pounding them to a chunky paste.
 3. Stir in the lemon juice and olive oil (or use a food processor).
 4. If using the preserved lemon, chop it finely and stir it into the chermoula. Taste and adjust the seasoning if necessary.
 5. Brush the fish with chermoula and marinate for at least one hour (up to eight hours if possible).
 6. Grill the fish for two to four minutes on each side until cooked through.
 7. Serve with the remaining chermoula and lemon wedges.
