The Rules of Online Poker

At our site you'll find all the world's most popular poker games, including Texas Hold'em, Omaha and many more.

How Do You Win?

Typically, the winner of each hand of poker is the player that holds the highest ranked hand when all cards are shown at the end of the hand –known as the 'showdown' – or the player that makes the last uncalled bet, thus winning without needing to reach a showdown. Not sure whether a flush beats a straight? Can't remember how to make a full house? You can find all the information you need to know about hand rankings in the table below (click here for more). The strongest hands are in the top row, running from left to right, with the weakest possible hand being simply a high card.

Getting

Started

Poker games typically feature a forced bet, such as the Big Blind and Small Blind in Hold'em and Omaha. These forced bets comprise the starting pot in any given hand of poker, which is the first incentive players have to win the hand. Action arising from the subsequent rounds of betting further increases the size of the pot.

Dealing Cards and Betting Rounds

After any initial cards are dealt, players are usually called upon to act in turn, moving clockwise around the table. Each player can usually take one of the following actions when it is their turn to act:

Check – To

check is to decline the opportunity to open the betting. Players can only check when there is no bet during the current round, and the act of checking passes the action clockwise to the next person in the hand. If all active players check, those players remain in the hand and the round is considered complete.

– To check is to decline the

opportunity to open the betting. Players can only check when there is no bet during the current round, and the act of checking passes the action clockwise to the next person in the hand. If all active players check, those players remain in the hand and the round is considered complete.

Bet – Players may bet if no other players have bet during the current round. Once a bet has been made, other players must ‘call’ by matching the amount bet, in order to remain in the hand.

– Players may bet if no other players have

bet during the current round. Once a bet has been made, other players must ‘call’ by matching the amount bet, in order to remain in the hand. **Fold –** Players who fold forfeit their cards and cannot win or act again during the current hand.

– Players who

fold forfeit their cards and cannot win or act again during the current hand. **Call –**

Players can call if other players have bet during the current round; this requires the calling player to match the highest bet made.

– Players can call if other players have

bet during the current round; this requires the calling player to match the highest bet made. **Raise –** Players may raise if other players have bet during the current round; this requires the raising player to match the highest bet made, and then make a greater one. All subsequent players are required to call the raise or raise again (‘re-raise’) to stay in the hand.

Different variants of poker have different betting rounds. Texas

Hold’em and Omaha are the two most popular poker games in the world and have identical betting structures, with four rounds of betting known as pre-flop, the flop, the turn and the river. The pre-flop betting round begins as soon as all players have received their hole cards, before any community cards have been dealt; betting on the flop occurs after the first three community cards are dealt; on the turn after the fourth community card; and on the river after the fifth and final community card. On each betting round, betting continues until every player has either matched the bets made or folded (if no bets are made, the round is complete when every player has checked). When the betting round is completed, the next dealing/betting round begins, or the hand is complete. Here’s an example of a Texas Hold’em hand after all the cards have been dealt. As you can see, players may use any of their two hole cards with any of the five community cards to make the best five-card hand they can make - in this case, you can use both your hole cards and three of the shared community cards to make a straight.

Showdown

Once the

last bet or raise has been called during the final round of betting, a showdown occurs; the remaining active players must show or ‘declare’ their hands, and the player(s) with the best ranking hand(s) win the pot. Players often show their hands in order, rather than all at the same time. Multiple players can share a single pot, with the pot divided in different ways depending on the game rules and how each player’s hand ranks against their opponents.

Betting Limits

Betting limits refer to the amount players may open and raise. Typically, poker games are of the following types; no limit, pot limit or fixed limit.

No Limit – in poker games with a no limit betting structure, each player can bet or raise by any amount up to and including their full stack (the total number of chips they possess at any given time) in any betting round, whenever it is their turn to act.

Pot Limit – in poker games with a pot limit betting structure, each player can bet or raise by any amount up to and including the size of the total pot at that time.

Fixed Limit – in poker games with a fixed limit betting structure, each player can choose to call, bet or raise, but only by a fixed amount. The fixed amount for any given betting round is set in advance.

For No Limit and Pot Limit games, the 'Stakes' column in the PokerStars lobby indicates the Small Blind and Big Blind in that game, while for Mixed Games, the Stakes listed in the lobby are the betting amounts for Limit games; in Pot Limit and No Limit rounds, the blinds are usually half of the blinds in limit games.

Investigação das Nações Unidas absolve a maioria dos funcionários da UNRWA acusados por Israel

Investigadores das Nações Unidas absolveram, betway es Monday, dez dos dezenove funcionários da agência das Nações Unidas para os refugiados palestinos (UNRWA) que Israel havia acusado de participar do ataque liderado pelo Hamas contra Israel betway es 7 de outubro, informou a ONU betway es Monday.

Nos outros nove casos, os investigadores encontraram evidências de que os funcionários "podem ter participado" do ataque, que desencadeou a guerra no território de Gaza, informou a ONU. Ela disse que eles foram demitidos, "nos interesses da agência".

Conclusão da investigação parece encerrar controvérsia

A conclusão da investigação parece encerrar, pelo menos temporariamente, uma controvérsia

que começou depois que Israel fez as acusações alarmantes betway es janeiro contra a agência das Nações Unidas para os refugiados palestinos, conhecida como UNRWA. As alegações levaram várias nações doadoras a suspender centenas de milhões de dólares betway es financiamento para a agência, ameaçando paralisar suas operações de ajuda betway es Gaza. Com 13 mil funcionários no território betway es conflito, a UNRWA tem sido fundamental nos esforços para fornecer abrigo, alimentos e outros serviços básicos aos gazazes durante nove meses de guerra que deslocou a maioria dos 2,2 milhões de pessoas do território. Dezenas de milhares foram mortos, de acordo com as autoridades de saúde de Gaza.

Maioria dos fundos retomados, mas não os EUA

Nos últimos meses, a maioria das nações doadoras retomou o financiamento para a agência, citando seu papel crítico betway es entregar ajuda a gazazes desesperados, assim como os resultados de uma investigação separada das Nações Unidas sobre a adesão da UNRWA às regras de neutralidade da ONU, divulgada betway es abril. Mas um dos seus maiores financiadores, os Estados Unidos, ainda não o fez. Legisladores dos EUA bloquearam todas as doações por um ano betway es março.

UNRWA condena o ataque

Em um comunicado betway es Monday, o chefe da agência, Philippe Lazzarini, reconheceu os achados dos investigadores e disse que os nove funcionários que foram considerados possivelmente terem participado do ataque "não podem trabalhar para a UNRWA".

"Reitero a condenação da UNRWA do ataque de 7 de outubro na forma mais enérgica possível", disse ele.

Embaixador de Israel critica relatório

O embaixador de Israel nas Nações Unidas, Gilad Erdan, descartou o relatório como "uma vergonha", chamando-o de "pouco e tarde demais". Em uma postagem betway es mídias sociais, o Sr. Erdan acusou os investigadores de ignorar as evidências fornecidas por Israel e exigiu o fechamento da agência.

Prioridade da UNRWA é continuar fornecendo serviços críticos

O Sr. Lazzarini disse que a prioridade da agência é "continuar fornecendo serviços de vida salva e críticos" aos refugiados palestinos betway es Gaza e betway es outros lugares no Oriente Médio, "especialmente diante da guerra betway es andamento, a instabilidade e o risco de escalada regional".

Acusação de envolvimento de funcionários no ataque de outubro

Israel inicialmente acusou 12 funcionários da UNRWA de envolvimento no ataque de 7 de outubro, no qual cerca de 1.200 pessoas foram mortas. Em meses posteriores, sete outros casos foram adicionados.

A investigação não encontrou evidências contra um dos funcionários e evidências insuficientes contra nove outros, disse a ONU betway es Monday.
