Keks Slot Machine

Imagine opening up a book containing Russian fairy tales from the early 20th century – envision the mild pastel colors, the stenciled lines, and the humble imagery.

Keks is designed to be perfectly evocative of that peculiar style, which is fitting given that the company that made this game, Igrosoft, is Russian. Just at a glance, the game sports a gorgeous visual style that would benefit even the finest collection of fairy tales. The game's humble but charming appearance is certainly endearing, but does the gameplay hold a candle to Keks striking visual appearance?

Going Down a Treat

The game isn't designed to have any sort of ostentatious design – the subtle use of colours and imagery are instead meant to reflect the humble origins of the folklore from which it draws its inspiration. The game's icons reflect a number of {img} relevant in many Russian folk tales – a black cat, an accordion, a rolling pin, as well as what appears to be some sort of Kirby knockoff. The game looks to take place inside of a kitchen, complete with a doting grandmother, and basket full of dough. The game's interface is intuitive and designed so that even the newest players can jump right in and start playing without an issue. On top of that, the game plays really smoothly, even on older computers.

Built from Sturdy Stuff

Let's get to the technical side of things. The game features a basic 5x3 reel system, as well as many of the standard features seen in your average Igrosoft games, including 9 pay lines, singular coin denomination, and maximum of 25 coins per line bet.

Don't worry about the low number of paylines – you can bet up to 225 units of currency per spin, the only downside is that there are fewer winning combinations. Of course, that'll probably prove to be of little issue once you see the wins roll in. You can change the paylines by clicking the buttons on the bottom, and the bet max/bet one buttons as well as the pay tables and spin buttons can also be seen too. It doesn't really require much explanation really. There are also wild and scatter symbols in play.

Russian-Inspired Riches

As is the case with most Igrosoft games, Keks lacks a progressive jackpot and free spins. But don't let that discourage you, because there are still several chances to win big. The base jackpot is 5,000 coins – imagine winning that when betting the full amount! There is also a score multiplier present.

In addition, the game offers two bonus rounds. The first is the double or nothing game, which can be triggered by choice any time you score a winning spin. This involves choosing from a set of four cards, where if your highest pick is above what the dealer flashes, you double your winnings, but if it's lower, you lose everything.

#### Up in Smoke

The second bonus game deserves its own section. When you get at least three scatter symbols, you'll trigger the real bonus game. You'll be given the chance to choose from five ovens. Some have food in them, and others have nothing but smoke. If you make a perfect set of selections and choose nothing but ovens containing food, you'll be sent to a mysterious forest. This involves one final test; you are given two baskets to pick from. One has a cake and the other doesn't. If you pick it, you win the game's jackpot. If you don't, you still get all of your accrued winnings, so don't worry about losing everything.

#### Fresh from the Oven

We're surprised Igrosoft isn't a better known developer, as through playing and reviewing their games, we've come to realise that they've actually got some really great video slots games! Keks is no exception – charming, accessible, appealing to both casual and hardcore gamblers alike, and offering tons of ways to win big, Keks gives you a whole host of reasons to play.

Aside from the lack of free spins and a low number of paylines, there really isn't anything we can say about this game that's negative. The use of traditional Russian folklore as its theme was a great choice, and we think it gives the game a very unique flavour that sets it apart from all the other games out there. If you're looking for a good video slots game to play, we highly recommend you give Igrosoft's Keks a try.

Predicting a slot machine's payout is not possible, as modern slot machines use random number generators to determine the outcome of each spin. These random number generators ensure that each spin is independent of the previous one, making it impossible to predict the outcome with certainty.
