French Roulette: a Beginner's Guide to the Best Roulette Wheel

When you play online

casino games for real money, you want the best value and the best possible return.

So

it's vital that you choose the right roulette rules if you want to play online roulette games, or you could miss out.

For some bets, the French Roulette cuts the house edge to

as little as 1.35%, which significantly improves your chances of winning compared to the 5.26% edge in the American version of the game.

What is French Roulette

Online French

Roulette uses the original version of the game, which legend has it, is based on failed experiments to create a perpetual motion machine by scientist Blaise Pascal in the 18th century.

In the mid-19th century, the game was taken across the water to America where they made changes to the wheel to increase the house edge, as well as changes to the playing table and the rules.

This means that the French Roulette table looks different,

has more betting opportunities and delivers a better return to the player.

So, whenever

you have the option, the French Roulette wheel should always be your first choice.

Differences between French and American Roulette

The biggest difference between

the American and either the European or the French Roulette game is the number of zeros on the wheel.

An American Roulette wheel has both zero and double zero, setting the house edge at 5.26%, whereas a European or French Roulette wheel has just one, cutting the house edge in half to just 2.7%.

What's more, the unique rules of the French game

can cut that edge in half again, reducing their take to just 1.35% on even money bets.

The playing tables are subtly different too, with the outside bets on an American or European Roulette table all down one side, while the outside bets are split either side on the French Roulette table.

Even the numbers on the wheel can be different, with

American numbers usually facing out and European or French numbers facing in.

The Basic

Bets in French Roulette

The aim of the game in all styles of Roulette is to predict where the ball lands when the Roulette wheel stops spinning.

The croupier will spin the

wheel one way and set the ball in motion in the other direction, and it will spin until the ball lands in a numbered slot.

There are a number of basic bets you can make on the

outcome, and each bet includes one or more possible numbers. These are grouped into inside and outside bets as follows:

Inside Bets in French Roulette

Bet Description

Payout Straight bet Choosing a single number from the 36 available 35:1 Split bet Choosing two adjacent numbers on the grid 17:1 Street bet Choosing a row of three numbers 11:1 Corner bet Choosing a group of four numbers 8:1 Line bet Choosing two adjacent rows of numbers 5:1

Note: the street and corner bets may also include the zero

Outside Bets in French Roulette

One of the first things you will notice in a French Roulette game is that when it comes to the outside bets, the table is in French.

These bets translate as follows:

Bet Description Payout Column bet Choosing one of the three columns of numbers 2:1 Douzaine = Dozen bet Choosing the Premier (first), Moyenne (second) or Derniere (third) set of 12 2:1 Rouge/Noir = Red/Black bet Choosing any red or black number 1:1 Pair/Impair = Odd/even bet Choosing an odd or even number 1:1 Manque/Passe = Low/high bet Choosing 1-18 or 19-36 1:1

Note: the

Douzaine/Dozen bet is shown as 12P, 12M or 12D.

A Second Chance for Even Money Bets

In the American or European Roulette wheel, if the ball lands in the zero slot, you will lose any even-money bets, such as red/black or odd/even.

When you play on the French Roulette wheel, you don't lose: you get a second chance.

This can happen in one of two ways:

En Prison rule: any losing even-money bet remains on the table and is imprisoned until the next spin. If it is a winner on that spin, the stake is returned to the player.

any losing even-money bet remains on the table and is imprisoned until the next spin. If it is a winner on that spin, the stake is returned to the player. Le Partage rule: any losing even-money bet is split 50:50 between the player and the house, so you only lose half of your stake.

Different casinos play different rules, so it is important to know what the house roulette rules are for even-money bets before you start to play.

Advanced Bets in French Roulette

As you get more experienced with the standard bets, or bored with the same old wagers, you can move on to what are called announced or called bets.

These may seem intimidating at first because of their exotic French names, but they are quite straightforward when you get the hang of them.

The main announced bets in the game of French Roulette are:

Voisins du Zero (neighbours of zero): all numbers on the wheel between 22 and 25. This bet involves nine chips spread between splits, corners and threesomes of these numbers.

all numbers on the wheel between 22 and 25. This bet involves nine chips spread between splits, corners and threesomes of these numbers. Le Tiers du Cylinder (thirds of the wheel): all numbers opposite zero, from 27 to 33. This bet involves six chips placed as splits between these numbers

all numbers opposite zero, from 27 to 33. This bet involves six chips placed as splits between these numbers. **Zero (zero game):** the six numbers either side of zero and the zero itself. This bet is played as three splits and a straight bet on 26

the six numbers either side of zero and the zero itself. This bet is played as three splits and a straight bet on 26. **Orphelins (orphans):** the eight numbers not included in the above bets. This can be played as orphelins en cheval, costing five chips as four splits and a straight bet on 1, or as orphelins en plein, costing eight chips as straight bets on each number

the eight numbers not included in the above bets.

This can be played as orphelins en cheval, costing five chips as four splits and a straight bet on 1, or as orphelins en plein, costing eight chips as straight bets on each number. **Finales:** bets on all the numbers ending in a certain number (eg 6, 16, 26 and 36). Can be placed as either finales en plein (single number) or finales a cheval (either of two numbers). The stake varies according to the number of possibilities.

At the end of the day, whether you have a favorite number at your online casino, or you prefer the coin-toss of an even money bet, French Roulette is by far your best route to the best odds, cutting the house edge by half or even three-quarters.

So, choose your game carefully, place your bets and... vive la France!

betwinner jogo

This means you'll win x dollars for every 1 dollar you bet. For example, a single-number bet offers a payout of 35:1. So, if you win, you'll get your dollar back plus R\$35.

[draw roulette](#)

If you place a R\$5 bet on a single number in roulette and that number hits, you will typically win \$175. This is because the payout for a successful single-number bet (also known as a "straight bet") in American roulette is usually 35 to 1.
