An ace-high straight flush, commonly known as a royal flush, is the best possible hand in many variants of poker.

In poker, players form sets of five playing cards, called hands, according to the rules of the game.[1] Each hand has a rank, which is compared against the ranks of other hands participating in the showdown to decide who wins the pot.[2] In high games, like Texas hold 'em and seven-card stud, the highest-ranking hands win. In low games, like razz, the lowest-ranking hands win. In high-low split games, both the highest-ranking and lowest-ranking hands win, though different rules are used to rank the high and low hands.[3][4]

Each hand belongs to a category determined by the patterns formed by its cards. A hand in a higher-ranking category always ranks higher than a hand in a lower-ranking category. A hand is ranked within its category using the ranks of its cards. Individual cards are ranked, from highest to lowest: A, K, Q, J, 10, 9, 8, 7, 6, 5, 4, 3 and 2.[5] However, aces have the highest rank under ace-to-five high or six-to-ace low rules, or under high rules as part of a five-high straight or straight flush.[6][7] Suits are not ranked, so hands that differ by suit alone are of equal rank.[8]

There are nine categories of hand when using a standard 52-card deck, except under ace-to-five low rules where straights, flushes and straight flushes are not recognized. An additional category, five of a kind, exists when using one or more wild cards. The fewer hands a category contains, the higher its rank.[9] There are $52! / (52 - 5)! = 311,875,200$ $\{\displaystyle \begin{matrix} \frac{52!}{(52-5)!} \end{matrix} = 311,875,200$ ways to deal five cards from the deck but only $52! / (52 - 5)! / 5! = 2,598,960$ $\{\displaystyle \begin{matrix} \frac{52!}{(52-5)!5!} = 2,598,960 \end{matrix}$ distinct hands, because the order in which cards are dealt or arranged in a hand does not matter.[10] Moreover, since hands differing only by suit are of equal rank, there are only 7,462 distinct hand

ranks.[11]

Hand-ranking categories [edit]

* Only possible when using one or more wild

cards ** Category does not exist under ace-to-five low rules

Five of a kind [edit

]

Five of a kind, aces

Five of a kind is a hand that contains five cards of one rank, such as 3 3 3 3 3 ("five of a kind, threes"). It ranks above a straight flush but is only possible when using one or more wild cards, as there are only four cards of each rank in the deck.[6] Five of a kind, aces, A A A A Jkr, becomes possible when a joker is added to the deck as a bug, a form of wild card that may act as a fifth ace.[5] Other wild card rules allow jokers or other designated cards to represent any card in the deck, making it possible to form five of a kind of any rank.[12]

Each five

of a kind is ranked by the rank of its quintuplet. For example, Q Q Q Q Q ranks higher than 6 6 6 6 6.[6][13]

Straight flush [edit]

A jack-high straight flush

A

straight flush is a hand that contains five cards of sequential rank, all of the same suit, such as Q J 10 9 8 (a "queen-high straight flush").[4] It ranks below five of a kind and above four of a kind.[5] Under high rules, an ace can rank either high (as in A K Q J 10, an ace-high straight flush) or low (as in 5 4 3 2 A, a five-high straight flush), but cannot simultaneously rank both high and low (so Q K A 2 3 is an ace-high flush, but not a straight).[6][13] Under deuce-to-seven low rules, an ace always ranks high (so 5 4 3 2 A is an ace-high flush). Under ace-to-six low rules, an ace always ranks low (so A K Q J 10 is a king-high flush).[14] Under ace-to-five low rules, straight flushes are not possible (so 9 8 7 6 5 is a nine-high hand).[7]

Each straight flush is ranked by the rank of its

highest-ranking card. For example, 10 9 8 7 6 ranks higher than 8 7 6 5 4, which ranks higher than 6 5 4 3 2. Straight flush hands that differ by suit alone, such as 7 6 5 4 3 and 7 6 5 4 3, are of equal rank.[6][13]

An ace-high

straight flush, such as A K Q J 10, is called a royal flush or royal straight flush and is the best possible hand in ace-high games when wild cards are not used.[5][15][16] A five-high straight flush, such as 5 4 3 2 A, is called a steel wheel and is both the best low hand and usually the best high hand of the showdown in ace-to-five high-low split games.[4]

Four of a kind [edit]

Four of a kind, fives

Four

of a kind, also known as quads, is a hand that contains four cards of one rank and one card of another rank (the kicker), such as 9 9 9 9 J ("four of a kind, nines"). It ranks below a straight flush and above a full house.[5]

Each four of a kind is ranked

first by the rank of its quadruplet, and then by the rank of its kicker. For example, K K K K 3 ranks higher than 7 7 7 7 Q, which ranks higher than 7 7 7 7 10. Four of a kind hands that differ by suit alone, such as 4 4 4 4 9 and 4 4 4 4 9, are of equal rank.[6][13]

Full house [edit]

A full house, sixes over

kings

A full house, also known as a full boat or a tight or a boat (and originally called a full hand), is a hand that contains three cards of one rank and two cards of another rank, such as 3 3 3 6 6 (a "full house, threes over sixes" or "threes full of sixes" or "threes full").^{[17][18]} It ranks below four of a kind and above a flush.^[5]

Each full house is ranked first by the rank of its triplet, and then by the rank of its pair. For example, 8 8 8 7 7 ranks higher than 4 4 4 9 9, which ranks higher than 4 4 4 5 5. Full house hands that differ by suit alone, such as K K K J J and K K K J J, are of equal rank.^{[6][13]}

Flush [edit]

A jack-high flush

A flush is a hand that contains five cards all of the same suit, not all of sequential rank, such as K 10 7 6 4 (a "king-high flush" or a "king-ten-high flush").^[19] It ranks below a full house and above a straight.^[5] Under ace-to-five low rules, flushes are not possible (so J 8 4 3 2 is a jack-high hand).^[7]

Each flush

is ranked first by the rank of its highest-ranking card, then by the rank of its second highest-ranking card, then by the rank of its third highest-ranking card, then by the rank of its fourth highest-ranking card, and finally by the rank of its lowest-ranking card. For example, K J 9 6 4 ranks higher than Q J 7 6 5, which ranks higher than J 10 9 4 2, which ranks higher than J 10 8 6 3, which ranks higher than J 10 8 4 3, which ranks higher than J 10 8 4 2. Flush hands that differ by suit alone, such as 10 8 7 6 5 and 10 8 7 6 5, are of equal rank.^{[6][13]}

Straight [edit]

A ten-high straight

A straight is a hand that contains five cards of sequential rank, not all of the same suit, such as 7 6 5 4 3 (a "seven-high straight"). It ranks below a flush and above three of a kind.^[5] Under high rules, an ace can rank either high (as in A K Q J 10, an ace-high straight) or low (as in 5 4 3 2 A, a five-high straight), but cannot simultaneously rank both high and low (so Q K A 2 3 is an ace-high hand).^{[6][13]} Under deuce-to-seven low rules, an ace always ranks high (so 5 4 3 2 A is an ace-high hand). Under ace-to-six low rules, an ace always ranks low (so A K Q J 10 is a king-high hand).^[14] Under ace-to-five low rules, straights are not possible (so 10 9 8 7 6 is a ten-high hand).^[7]

Each straight is ranked by the rank of its highest-ranking card. For example, J 10 9 8 7 ranks higher than 10 9 8 7 6, which ranks higher than 6 5 4 3 2. Straight hands that differ by suit alone, such as 9 8 7 6 5 and 9 8 7 6 5, are of equal rank.^{[6][13]}

An ace-high straight, such as A K Q J 10, is called a Broadway straight,^[20] while a five-high straight, such as 5 4 3 2 A, is called a baby straight,^[21] bicycle or wheel and is the best possible hand in ace-to-five low games (where it is a high card hand, not a straight).^{[22][23]}

Three of a kind [edit]

Three of a kind, queens

Three of a kind, also known as trips or a set, is a hand that contains three cards of one rank and two cards of two other ranks (the kickers), such as 2 2 2 K 6 ("three of a kind, twos" or "trip twos" or a "set of twos"). It ranks below a straight and above two pair.^[5]

Each three of a kind is ranked first by the rank of its triplet, then by the rank of its highest-ranking kicker, and finally by the rank of its lowest-ranking kicker. For example, 6 6 6 Q 4 ranks higher than 3 3 3 K 2, which ranks higher than 3 3 3 J 7, which ranks higher than 3 3 3 J 5. Three of a kind hands that differ by suit alone, such as 9 9 9 10 8 and 9 9 9 10 8, are of equal rank.[6][13]

In community card games, such as Texas hold 'em, three of a kind is called a set only when it comprises a pocket pair and a third card on the board.[24]

Two pair [edit]

Two pair, jacks and threes

Two pair is a hand that contains two cards of one rank, two cards of another rank and one card of a third rank (the kicker), such as J J 4 4 9 ("two pair, jacks and fours" or "two pair, jacks over fours" or "jacks up").[17][25] It ranks below three of a kind and above one pair.[5]

Each two pair is ranked first by the rank of its higher-ranking pair, then by the rank of its lower-ranking pair, and finally by the rank of its kicker. For example, 10 10 2 2 K ranks higher than 5 5 4 4 10, which ranks higher than 5 5 3 3 Q, which ranks higher than 5 5 3 3 J. Two pair hands that differ by suit alone, such as K K 7 7 8 and K K 7 7 8, are of equal rank.[6][13]

One pair [edit]

One pair, tens

One pair, or simply a pair, is a hand that contains two cards of one rank and three cards of three other ranks (the kickers), such as 4 4 K 10 5 ("one pair, fours" or a "pair of fours"). It ranks below two pair and above high card.[5]

Each one pair is ranked first by the rank of its pair, then by the rank of its highest-ranking kicker, then by the rank of its second highest-ranking kicker, and finally by the rank of its lowest-ranking kicker. For example, 9 9 Q J 5 ranks higher than 6 6 K 7 4, which ranks higher than 6 6 Q J 2, which ranks higher than 6 6 Q 8 7, which ranks higher than 6 6 Q 8 3. One-pair hands that differ by suit alone, such as 8 8 10 6 5 and 8 8 10 6 5, are of equal rank.[6][13]

High card [edit]

High card, king

High card, also known as no pair or

simply nothing, is a hand that does not fall into any other category, such as K J 8 7 4 ("high card, king" or "king-jack-high" or "king-high").[17][26] Note that under ace-to-five low rules, straights, flushes and straight flushes are not possible, so such hands are instead high card hands.[7] It ranks below one pair.[5]

Each high card

hand is ranked first by the rank of its highest-ranking card, then by the rank of its second highest-ranking card, then by the rank of its third highest-ranking card, then by the rank of its fourth highest-ranking card, and finally by the rank of its lowest-ranking card. For example, K 6 5 3 2 ranks higher than Q J 6 5 3, which ranks higher than Q 10 8 7 4, which ranks higher than Q 10 7 6 4, which ranks higher than Q 10 7 5 4, which ranks higher than Q 10 7 5 2. High card hands that differ by suit alone, such as 10 8 7 6 4 and 10 8 7 6 4, are of equal rank.[6][13]

Under deuce-to-seven low rules, a seven-five-high hand, such as 7

5 4 3 2, is the best possible hand.[27] Under ace-to-six low rules, where aces have

the lowest rank, a six-four-high hand, such as 6 4 3 2 A, is the best possible hand.[28] Under ace-to-five low rules, where aces have the lowest rank and straights, flushes and straight flushes are not possible, a five-high hand, such as 5 4 3 2 A or 5 4 3 2 A, commonly known as a bicycle or wheel, is the best possible hand.[7][22]

Resumo: Troca de Prisioneiros Histórica Involvido Jornalista e Ex-Marinheiro Americano

A mídia pró-Kremlin da Rússia sabe como criar uma realidade alternativa, e a troca de prisioneiros histórica da semana passada não foi diferente.

Em segunda-feira, meios de comunicação estatais russos ofereceram aos espectadores imagens gráficas das prisões do jornalista do Wall Street Journal, Evan Gershkovich, e do ex-fuzileiro naval americano Paul Whelan.

Os locais das filmagens não estão mr jack bet comercial dúvida: Gershkovich foi preso no ano passado no Bukowski Grill, um restaurante de bife na cidade de Yekaterinburg; Whelan foi preso no Metropol Hotel, localizado justamente através da rua do Teatro Bolshoi no centro de Moscou. Mas não leve nada à face value desses {sp}s altamente editados. Sim, vemos Gershkovich sendo detido de forma brusca e empurrado ao chão. E vemos um Whelan acorrentado mr jack bet comercial uma cama de hotel, cercado por oficiais de segurança russos.

No entanto, apesar das alegações do narrador de língua russa, há pouco aqui para apoiar o caso de Moscou de que os dois homens estavam envolvidos mr jack bet comercial espionagem – uma alegação veementemente negada pelo governo dos EUA, as famílias de Whelan e Gershkovich, e seus apoiadores.

O que vemos, mr jack bet comercial vez disso, são exemplos clássicos da arte russa de "PR negro": militarizando os meios de comunicação para atacar indivíduos e arruinar reputações. Os {sp}s de prisão são escassos mr jack bet comercial informações, mas ricos mr jack bet comercial insinuações à medida que Gershkovich e Whelan são mostrados se encontrando com pessoas antes de suas prisões – sugerindo através do poder do cinema B que os dois homens estavam

envolvidos mr jack bet comercial algum tipo de malandragem.

A Rússia tem usado PR negro e kompromat há muito tempo para tornar a vida difícil para diplomatas estrangeiros que ela quer molestar. Em 2009, o Departamento de Estado dos EUA levantou uma comoção sobre um {sp} supostamente falsificado que apareceu mr jack bet comercial um site russo que parecia mostrar um funcionário do Departamento de Estado dos EUA tendo relações sexuais com uma prostituta.

A televisão russa do Estado também adora ampliar um escândalo de espionagem: mr jack bet comercial janeiro de 2006, um canal de televisão do Estado exibiu imagens que apresentavam espões britânicos plantando uma pedra falsa para esconder equipamento eletrônico, um relatório claramente cronometrado para envergonhar o governo britânico.

Mas nos casos de Gershkovich e Whelan, o objetivo do Estado russo era construir um banco de capital humano para trocar por seus agentes valiosos mantidos no exterior. E para uma audiência russa doméstica, as filmagens agora lançadas de suas prisões têm a intenção de enviar uma mensagem de que a Rússia está infiltrada por inimigos estrangeiros – e que seu poderoso estado de segurança onipresente nunca cessa mr jack bet comercial mr jack bet comercial vigilância.

A característica mais assustadora dos {sp}s é a sugestão de encenação. Em ambas as prisões, a filmagem sugere que câmeras escondidas estavam mr jack bet comercial vigor e filmando de vários ângulos, e que as forças de segurança haviam configurado a situação mr jack bet comercial alguma extensão.

Em um comunicado, o Editor-chefe do Wall Street Journal, Almar Latour, e a Editora-chefe do Wall Street Journal, Emma Tucker, condenaram o {sp} de Gershkovich como um tentativa audaz de enquadrar um jornalista que estava fazendo seu trabalho legitimamente.

"Vladimir Putin e seu regime na Rússia estão mr jack bet comercial guerra total contra a imprensa livre", disseram. "Este {sp} é apenas a última evidência de que a Rússia irá parar mr jack bet comercial nada mr jack bet comercial seu esforço metódico para demolir o jornalismo confiável. Evan estava fazendo seu trabalho como jornalista, e qualquer representação mr jack bet comercial contrário é ficção. Jornalismo não é um crime."

Certamente, os implementos do espionagem supostamente descobertos no local da prisão de Gershkovich – um dos {sp}s mostra seus cadernos, canetas e smartphone – reforçam a natureza manipuladora dos {sp}s.

Mas a boa notícia é que Gershkovich está fora da custódia russa e agora pode escrever a conta definitiva e confiável do que aconteceu durante mr jack bet comercial prisão.
