How to play Happy Wheels?

Happy Wheels, the most popular bloody game on the Internet, is finally in Miniplay.

In this bloody adventure, based on ragdoll physics, you will have to choose between a series of unique characters and their crazy means of transport, to reach the goal of each scenario.

In this version, you have at your disposal

Wheelchair

Guy

Segway Guy

Irresponsible Dad

Effective Shopper

But be careful, this won't be a walk

in the park. Hundreds of blades, mines, traps and falls are ready to tear you apart on the way, or at least take a good chunk out of you. Will you be able to accomplish the goals without losing any limbs?

Happy Wheels brings you numerous levels to test your

skills, but if you're a little rusty, the game features one of the largest communities of level creators in browser games. The number of challenges at your disposal is practically infinite.

Have you been inspired and passed a level in an epic way? You'll

be able to relive your best or perhaps most bloodthirsty moments, with the option of loading replays of your level attempts.

Some features:

Over 60 unique and challenging levels

Deadly obstacles: picks, mines, wrecking balls, harpoons and more

Smooth and

realistic physics

Who created the game Happy Wheels?

Happy Wheels was created by

independent game developer Jim Bonnaci in 2006, acting as programmer and game artist.

His inspiration came from other browser games based on ragdoll physics. According to his words, the biggest difficulty he found in the development of the game was to make a game in which the player dies so many times and in such bloody ways, a pleasant experience. In 2024, the game was released for iOS, but it took a little longer for Android (2024). A curious fact is that this video, from the famous Youtuber PewDiePie, with 30 million plays, is one of the most visited you can find inside Youtube. Amazing, isn't it?

Fit your helmet and get your wheelchair ready, reaching the finish line in one piece won't be easy.
