Speed Blackjack 5 Rules and Gameplay Speed

Blackjack is a game variant hosted by a real-life dealer. It uses 8 card decks and accepts 5 up to 7 players simultaneously. Each player and the dealer receive two cards, with the dealer's first card being dealt 5 face-up. In this game, the main goal is to beat the dealer's hands with a hand that is closer to 5 21 and not exceeding it. A set of standard rules are in play with players allowed to double down on 5 the two initial cards and split any pair. If Aces are split, you can receive a single additional card only. 5 The dealer stands on all 17s, whether they are soft or hard. Payouts are standard as well with a natural 5 awarding 3:2 and Insurance paying 2:1.

What makes Speed Blackjack

worthy of the name is 30% to 40% faster gameplay with 5 rounds taking approximately 7 seconds less. As soon as you receive cards, you can make your move within the given 5 time. In case you don't manage to do it, the game has two Autoplay features that will complete your hand.

How 5 to Play Speed Blackjack

The game starts with players placing

main bets and being dealt two cards, as usual, left to 5 right. Once the dealing is done, players can immediately decide whether they will hit, stand, double down or split without 5 waiting for other players to make their moves. That means that players who have been the fastest will first receive 5 the next card or finish the game. The only deviation from the standard rules is the Autoplay feature that will 5 stand for you if

you don't make a move with a hand of more than 12 and hit for you 5 when your hand is worth less than 11.

Besides the main bet, Speed Blackjack offers two standard side bets

- Perfect 5 Pairs and 21+3. While the former pays up to 25:1, the latter can earn you up to 100:1. If there 5 are no free seats at the table, you can use the Bet Behind option and play the game behind those 5 that have joined it.

Speed Blackjack Strategy

The

dealing order does not change the mathematics of the game whose house margin is 5 0.71% for the main bet. Just like in other variants, the house edge of side bets is higher, sitting at 5 4.1% for Perfect Pairs and 3.7% for the 21+3 side bet. When it comes to the perfect strategy that can 5 help you beat the game, we suggest using the basic strategy that will keep the house advantage as low as 5 possible.

Speed Blackjack is a game
