Se você apostar R\$100 nessa equipe para ganhar e Você receberá por voltaR R\$ 240 se essa time ganhar. Descartável!

Type of deceptive play in poker

Slow playing (also called sandbagging or trapping) is a deceptive play in poker where a player bets weakly or passively with a strong holding. It is the opposite of fast playing. A flat call can be a form of slow playing. The objective of slow playing is to lure opponents into a pot who might fold to a raise, or to cause them to bet more strongly than they would if the player had played aggressively (bet or raised). Slow playing sacrifices protection against hands that may improve and risks losing the pot-building value of a bet if the opponent also checks.

David Sklansky defines the following conditions for profitable slow plays:[1]

A

player must have a very strong hand.

The free card or cheap card the player is allowing to his opponents must have good possibilities of making them a second-best hand.

That

same free card must have little chance of giving an opponent a better hand or even giving them a draw to a better hand on the next round with sufficient pot odds to justify a call.

The player must believe that he will drive out opponents by showing aggression, but can win a big pot if the opponents stay in the pot.

The pot must not yet be very large.

Seven-card stud example In a seven-card stud game, Ted's first three cards are all fours. Alice with a king showing bets first, Ted raises and Alice calls.

On the next round, Alice catches another king, and Ted miraculously catches the last

four (making four-of-a-kind). Ted suspects Alice has two pair or three kings, and Alice suspects that Ted has two pair or three fours. Alice bets again, and Ted just flat calls. Ted decides to just call for next round or two, and maybe even check if Alice doesn't bet, rather than raising, for several reasons. Ted's hand is so strong that the chance of getting beaten is negligible, so he doesn't need protection. If Alice just has two pair and Ted acts strongly, Alice may think Ted has three fours and fold if she doesn't improve. By allowing Alice to continue for smaller stakes, Ted hopes that Alice will improve to a very strong (but second best) hand that will induce her to bet, raise, or at least call in the later betting rounds.

Relationship between slow playing and bluffing [ edit ]

Against observant opponents, the frequency of bluffing affects the effectiveness of slow playing, and vice versa. If a player's table image is that of an aggressive bluffer, slow playing is less important because his opponents will be more willing to call his usual bets and raises. Similarly, if a player is perceived as a "trappy" player (uses frequent slow plays), his bluffs are less likely to be respected (i.e., more likely to be called) because his opponents expect him to slow play his strong hands.[2]

Check raising as a slow play [ edit ]

A check-raise is not necessarily a slow play. Often, the purpose of a check-raise is to drive out opponents from a pot, which is the opposite of the goal of a slow play.[1] However, within the context of a single betting round, check-raising can be employed as a slow play.

Draw

poker example Alice, Bob, Carol, and David are playing draw poker. After anteing, Alice starts with a pair of aces, and opens the betting for R\$2. Bob raises an additional R\$2, bringing the bet to R\$4. Carol folds. David calls the R\$4, and Alice puts in an additional R\$2 to match the raise. Drawing three cards, she receives another ace, and a pair of fives. Since her aces-full is almost certain to be unbeatable, it does not need the protection of a bet. Also, Bob earlier raised, and David called a raise, so they likely have strong hands and one of them will bet if Alice doesn't. Finally, since Bob and David earlier showed strength, and they know that Alice knows this, Alice betting into them would be seen as a bold move likely to scare one or both of them off, especially if they weren't as strong as they seem. Alice decides conditions are right for a slow play: Alice checks. As she hoped, Bob bets R\$2. David thinks for a minute, then calls the R\$2. Alice now springs the trap and raises R\$2. Bob calls the additional R\$2, and David (who now realizes that he is probably beaten) folds. Bob reveals three sixes, and surrenders the pot to Alice. If Alice had just bet her hand on the second round, it is likely that Bob would just have called and David may or may not have called, earning Alice R\$2 to R\$4 on the second round. But with the slow play, she earned R\$6.

Even in games (such as California lowball) where the check-raise is not allowed, one can make other sandbagging plays such as just flat calling instead of raising with a very strong hand and then later raising.

Fishing for the overcall [ edit ]

Fishing for the overcall occurs when the last card a player is dealt makes him a very strong hand, an opponent in front of him bets, and there are more opponents yet to act behind him. While the player might normally raise with his hand, just calling may encourage the opponents behind him to overcall when they would have folded to a raise. For this play to be used profitably, one or more conditions like the following must be met:

The original bettor is all-in and therefore has no money to call a raise.

The player is confident that the original bettor was bluffing and would not call a raise.

There are several opponents yet to act. If there is only one opponent yet to act, then getting the overcall would gain no more money than raising and having the initial bettor call.

The opponents are likely to overcall the initial bet, but not a raise. This play sacrifices the profit that might have been made from opponents who would have overcalled a raise.

A common example of fishing for overcalls occurs in High-low split games like Omaha hold 'em. If John is confident that Mary is betting a high hand, then John might flat call with his low hand to fish for overcalls rather than make it more difficult for opponents to call. If John were to raise, he and Mary would gain no profit at all if no other opponents called.[3]

### Comissão Eleitoral da Indonésia oficializa vitória de Prabowo Subianto como presidente eleito

A Comissão Eleitoral da Indonésia oficializou a vitória de Prabowo Subianto como presidente eleito bet 188bet uma cerimônia, após o Tribunal Constitucional rejeitar os recursos de candidatos rivais que questionavam bet 188bet vitória nas eleições.

Prabowo, de 72 anos, um ex-general ligado a denúncias de abusos de direitos humanos, obteve uma grande vitória nas eleições de fevereiro, mas seus dois oponentes alegaram que o voto havia sido comprometido por interferência do Estado e alterações injustas das regras.

"A corrida terminou ... o duro confronto, com debate às vezes acalorado, acabou", disse Prabowo durante a cerimônia de hoje, nos dias que se seguiram ao rejeito dos recursos. "E agora nossa população exige que os líderes políticos trabalhem juntos e cooperem para o bem-estar do povo e para eliminar a pobreza e a corrupção na Indonésia", disse.

#### **Prabowo Subianto Percentagem de votos**

Prabowo Subianto 58,6%

Prabowo venceu 58,6% dos votos nas eleições de fevereiro, mas é uma figura controversa. Ex-genero do ex-presidente Suharto e comandante especial durante seu regime de 32 anos, ele foi acusado de participação bet 188bet abusos de direitos humanos no passado, incluindo

desaparecimentos forçados de ativistas estudantis e tortura durante a era Suharto. Prabowo foi demitido do exército pelas acusações e proibido de entrar nos EUA por duas décadas.

Prabowo admitiu bet 188bet uma entrevista de 2014 ao Al Jazeera que esteve envolvido bet 188bet sequestros, mas disse que atuava sob ordens e que suas ações eram legais.

Nos últimos anos, ele buscou melhorar bet 188bet imagem pública, relançando-se como uma figura "vovô" carinhosa e seus esforços foram reforçados por bet 188bet parceria com o candidato a vice-presidente Gibran Rakabuming Raka, filho do popular presidente bet 188bet exercício Joko Widodo, conhecido como Jokowi.

Jokowi é acusado de interferir na eleição para proteger bet 188bet legacy, o que nega.

Os rivais de Prabowo - o ex-governador de Jacarta, Anies Baswedan e o ex-governador da Java Central, Ganjar Pranowo - both filed cases challenging Prabowo's win.

Alegaram, separadamente, que a interferência do Estado - como a distribuição de subsídios sociais bet 188bet áreas decisivas - beneficiou injustamente a campanha de Prabowo.

Também o queixaram-se de que não era justo Gibran, de 37 anos, ter sido permitido concorrer como candidato a vice-presidente. Sua candidatura foi possível apenas depois que um tribunal, chefiado pelo cunhado de Jokowi, criou uma exceção controversa permitindo que candidatos abaixo da idade exigida de 40 concorressem à presidência ou vice-presidência, desde que tenham anteriormente ocupado um cargo eleito regional - um critério que Gibran cumpria.

O tribunal constitucional rejeitou seus argumentos na segunda-feira. Anies e Ganjar disseram que respeitarão a decisão. Prabowo assumirá o cargo bet 188bet outubro.
