Usability, Look & Feel

Our Betway racing review continues with how does it feel to use one of the best online horse betting sites? You can access links to popular betting sports both down sidebar and a menu across the top of the sportsbook. The Betway horse racing ratings are high because that is one of the specific sections called out in the latter.

The black, green and white colour scheme suits this modern company and its clientele. Daily boosts are advertised in among the races listed in time order. Most Betway racing reviews don't touch on the mobile experience which gives you a streamlined version of the desktop sportsbook. Mobile betting is now big business, so the Betway app is well worth downloading for free if you want to take your betting with you. There is a crisp feel to the site too. Unlike other Betway horse racing reviews, we rate the aesthetic because Timeform picks for all British and Irish races are included above the betting markets.

Gambling Commission and other official bodies abroad. Due to securing these licenses Betway is allowed to operate in the UK, as well as all over Europe. It also has licenses from other countries which helps it to operate in many other states too – you need to go through the license list of Betway before going for it in any country outside Europe since most countries have their licensing bodies. Since the top licensing bodies certify and regulate Betway, you can be sure that you are in safe hands with them. However, there are different auditors for online games.

Fair Play Found in our Betway Reviews

Online games, especially in online games used in the casino, have an RNG or random number generator which keeps it safe and fair. These RNG games need to be tested regularly and certified by third-party auditors who look into these games and test their fairness. The online RNG games of Betway UK is tested by the premier auditor eCOGRA. They are the most trustworthy auditor in the gambling world who not only test whether the games are fair or not but also check whether the RTPs declared are accurate or not.
