Oasis Poker (sometimes incorrectly referred to as Caribbean Stud Poker or Caribbean Poker, which is a different game) is a casino poker game, meaning that it's derived from classic player vs player poker, but instead the player plays against the house. Oasis Poker is a derivative of Caribbean Stud Poker that allows the player to discard undesirable cards to receive a replacement. Oasis Poker is played with a standard 52 card deck.

We are aware of Oasis Poker being offered at Net Entertainment, Betsoft, GameSys and Galewind casinos.

Play Structure

Initially the player places an

'Ante' wager and the dealer will deal out 5 cards to the player and themselves. All but one of the dealers cards are dealt face down (often referred to as 'Hole' cards). The player then has to make the decision to either Fold their hand – losing their Ante wager – discard up to 5 cards or 'Call'. Where the player chooses to discard cards they will be charged a fee equal to the Ante bet for each card they exchange. This fee is not a bet and will not be returned regardless of the outcome of the hand. If the player chooses to Call – either before or after discarding cards - they have to place a bet twice the size of the Ante wager then the dealer's hole cards are revealed and the hands are compared.

Hand Comparison

Oasis Poker ranks hands according to a hierarchy common to poker games which is explained below (strongest to weakest);

* Royal Flush –

The Ace, King, Queen, Jack and Ten cards all of the same suit.

* Straight Flush – five

numerically adjacent cards of the same suit (Example – 4, 5, 6, 7 and 8 of Diamonds). Where both the player and dealer hold a Straight Flush the hand with the highest card

is considered the winner.

* 4 of a Kind – four cards of matching rank (Example - 7 of Hearts, Clubs, Diamonds and Spades). Where both the player and the dealer hold 4 of a Kind the hand with the higher rank is considered the winner.

* Full House – three cards

of the same rank and two cards of a different but matching rank (Example – 8 of Hearts, Clubs and Diamonds and Jack of Spades and Hearts). Where both the player and dealer hold a Full House, the hand with the higher rank 3 of a Kind is considered the winner.

* Flush – five cards of the same suit (Example – Ace, 8, 5, 2 and Queen of Spades). Where both the player and dealer hold a Flush the hand with the highest card is considered the winner. Where the highest card is matched the second highest is considered and so on.

* Straight – five numerically adjacent cards ignoring suit (Example – 7 of Spades, 8 of Spades, 9 of Clubs, 10 of Diamonds and Jack of Diamonds). Where both the player and dealer hold a Straight the hand with the highest card is considered the winner.

* 3 of a Kind – three cards of the same rank with 2 unmatched cards (Example – 9 of Spades, Clubs and Hearts with any two other cards that are not the 9 of Diamonds or a matching pair). Where both the player and dealer hold a 3 of a Kind, the hand with the higher ranked 3 of a Kind is considered the winner.

* Two Pairs – two

sets of two cards of matching rank with one unmatched card (Example – 4 of Clubs and Hearts, 8 Clubs and Spades and a fifth unmatched card). Where the player and dealer both have two pairs, the hand with the highest pair is considered the winner. If both hands have matching top pair, the higher of the two lower pairs is considered the winner. Where both pairs are matched, the hand with the higher 'Kicker' (final unmatched card) is considered the winner.

* Pair - two cards of matching rank with

three unmatched card (Example – 6 of Clubs and Hearts and any three other cards that are not the six of Spades or Diamonds and are not of matching rank). Where the player and the dealer hold a matching pair, the hand with the highest Kicker card wins. If the Kicker also matches, the hand is decided by the second Kicker then the third if the second Kickers also match.

* High Card – any five unmatched cards ranked as the highest card (Example – 5 of Spades, 9 of Clubs, 7 of Clubs, 2 of Hearts and Ace of Diamonds would be considered 'Ace High').

In the instance where both the dealer and player have hands of matching value by the above table the hand is considered a push and the player's bets are returned.

Payouts

As with many other poker based casino games, there is a qualification hand for the dealer to play. As such payouts vary depending on whether the dealer qualifies or not. The dealer qualifies if their hand is Ace/King or better.

If the player loses all bets placed are lost. If the player Folds they lose their Ante bet. If the player wins payouts are decided as follows;

* If the player wins

and the dealer does not qualify the Ante bet is paid out at 1 to 1 while the Call bet pushes.

* If the player wins and the dealer does qualify the Ante bet is paid at 1 to 1 and the Call bets is paid according to the following payable;

Hand GameSys Payout*

Payout Royal Flush 100 to 1 100 to 1 Straight Flush 50 to 1 50 to 1 Four of a Kind 26 to 1 20 to 1 Full House 8 to 1 7 to 1 Flush 5 to 1 5 to 1 Straight 4 to 1 4 to 1 Three of a Kind 3 to 1 3 to 1 Two Pairs 2 to 1 2 to 1 Pair 1 to 1 1 to 1 Ace/King 1 to 1 1 to 1 House Edge XXX 0.47%

* This payable is only used on the 'Without House Edge' version of Oasis Poker. It should be noted that when playing the Without House Edge games that the house take a 10% cut of any winnings at the end of the session.

Alternative Discard

Rules

Galewind software offer an alternative discard rule. Instead of being charged a full Ante bet for each card discarded the charges for discarding different numbers of cards are as follows;

Number of cards discarded Cost 1 1xAnte 2 2xAnte 3 3xAnte 4 2xAnte 5 1xAnte

With this rule Galewind software also make an adjustment to the Call bet payable;

Hand Payout Royal Flush 100 to 1 Straight Flush 50 to 1 Four of a Kind 20 to 1 Full House 6 to 1 Flush 5 to 1 Straight 4 to 1 Three of a Kind 3 to 1 Two Pairs 2 to 1 Pair 1 to 1 Ace/King 1 to 1 House Edge 0.55%

Jackpot Bet

The GameSys, GamesOS and

Galewind software Oasis Poker games also offer a side bet referred to simply as the 'Jackpot' bet. This side bet is optional but if the player chooses to place the Jackpot bet it costs R\$1 and the results are based only on the player's final hand (after any discard/replacements). The payouts for the Jackpot bet are provided below;

Hand Hand

Probabilities GameSys* GamesOS Galewind Royal Flush 0.00000153908 1000 1000 Jackpot Straight Flush 0.0000138517 500 500 10% of Jackpot Four of a Kind 0.00024 200 200 500 Full House 0.001441 70 100 100 Flush 0.0019654 50 60 50 Straight 0.003924646 40 40 3 of a Kind 0.021128451 25 Jackpot Range NA NA 25000-110280* Break Even Value NA NA 218009.7

House Edge 3.05% 51.69% 31.50%-56.44%*

* This payable is used for both the normal and 'Without House Edge' versions of Oasis Poker at GameSys casinos.

**The Galewind website

lists the theoretical minimum House Edge for the Jackpot bet as 24.04% which would equate to a Jackpot size of R\$135793.56. Our Jackpot range is based on the reset value and the maximum value we've seen.

Calculating the House Edge and Break Even value for the Jackpot Bet

It is possible calculate the House Edge and break even value for any jackpot value at the Galewind game simply by using the Hand Probability figures.

To

calculate the House Edge we multiply the Paytable values by the probabilities, sum the results and subtract the remaining possibilities. So if we have a Jackpot value of 94000 the calculation would be as follows;

$$94000 \times 0.00000153908 + 9400 \times 0.0000138517 + 500 \times 0.00024 + 100 \times 0.001441 + 50 \times 0.0019654 - (1 - (0.00000153908 + 0.0000138517 + 0.00024 + 0.001441 + 0.0019654))$$
$$0.14467352 + 0.13020598 + 0.12 + 0.1441 + 0.09827 - (1 - 0.00169639)$$
$$0.4309795 - 0.9998303609 = -0.3626$$

So the House Edge for this Jackpot size

is 36.26%

House Edge*

The House Edge of Oasis Poker using the standard payable and across the full round of wagering (Ante bet, Discard fees and Call bet) and assuming that the player plays using the optimal strategy discussed below is 0.47% and Net Entertainment casinos and 0.55% at Galewind casinos. If the player does not play optimally this figure will rise.

The House Edge of the Jackpot bet is dependent on the payable the casino is using and the size of the Jackpot, but our observations places the House Edge value between 31.50% and 56.44%.

For further information regarding the house edge for both the main game and the Jackpot bet see [Beating Bonuses \(http://beatingbonuses/oasis.htm\)](http://beatingbonuses/oasis.htm).

Optimal Strategy

The most important aspect of correct strategy while playing Oasis Poker is not to play the Jackpot side bet unless it is over the breakeven values listed above. As the Jackpot theoretically should never exceed the breakeven point this means the player should never play the Jackpot bet. Even if the Jackpot value was above the breakeven value you should be aware that this bet has an extremely high variance and it's highly unlikely that the regular player will ever hit the Jackpot, meaning that realistically the regular player will be playing with a far higher house edge.

The Optimal Strategy for Discard decisions when playing Oasis Poker is relatively straight forward. Unlike Video Poker games the fee for replacing cards makes discarding a poor choice except in a small number of situations, namely;

- When the player holds four cards of a Royal or Straight Flush and their hand is not a Straight or a Flush. (Discard the one non-Royal/Straight Flush card)
- When the player holds four cards of a Flush and does not have a Pair. (Discard the one non-Flush card)
- When the player holds four cards to an Outside Straight* and does not have a Pair. (Discard the one non-Straight card)

This strategy can be improved on with a little added complexity by discarding;

- When the player holds four to a Flush with a 22 through 66 pair and the dealer's upcard is of higher rank than the pair. (Discard the one non-Flush card)
- When the player holds four to an Outside Straight* with a 22 or 33 pair and the dealer's upcard is of higher rank than any cards the player holds. (Discard the one non-Straight card)
- When the player holds four to an Inside Straight* without a pair and the highest card of the Straight is 10 or more with the dealer's upcard of lower rank than any card in the Straight.

* An 'Outside'

Straight is four cards that are numerically adjacent meaning that two different cards would create a Straight (i.e. 6, 7, 8, 9). An 'Inside' Straight would be four cards that could make a Straight with a gap in between meaning only one card rank could complete the Straight (i.e. 3, 4, 6, 7).

The above is only the strategy for the Discard decision.

For the Fold/Call decision the decisions are similar to Caribbean Stud Poker and as such are too complex for all but the most dedicated player to memorise. A

simplified version of this strategy would see the player Call with any hand of Ace/King/Jack/8/3 or better. This results in a house edge 0.1% higher than the full optimum strategy. For full Optimum Strategy you can use our Strategy Calculator;

Fairness Calculator

Below you can find a calculator to allow you to check the fairness of your wins/losses when playing Oasis Poker.

*This fairness calculator

will assume that you've been playing with the optimal strategy detailed above. If you have not then the calculator will NOT return accurate results.

Winning

Strategies

Offline

Hole Carding, Steering or Sorting

Unlike Blackjack the techniques

used to gain an advantage over the game of Caribbean Stud Poker in the offline environment are not nearly so widely discussed. Gaining information on dealer's hole cards – be that via edge sorting, steering or hold carding – can produce a player advantage as long as the information is used to alter the player's strategy. Even with information on up to two of the dealer's hole cards and an optimised strategy the player still has a substantial disadvantage (nearly 2%) so you need to have knowledge of at least 3 of the dealer's hole cards before this is a worthwhile game. With perfect knowledge of all four dealer hole cards the strategy is trivial – Call, any winning hand or hand where the dealer will not qualify – though it may be worth playing some losing hands to avoid unusual/suspicious folding decisions where you hold a strong hand. With knowledge of only three hole cards or imperfect knowledge of four cards the strategy is more complex.

The rarity of being able to obtain information on 3 or more of the dealer's hole cards and the high skill level involved ensure that only the most diligent of professional players are ever likely to come across this information and it should be emphasized that the risks involved in gaining less than perfect information are likely to be substantial.

The best source of information on how best to play with additional information can be found in James Grosjean's 'Exhibit CAA: Beyond Counting'. The author provides the full and correct Optimal Strategy for Caribbean Stud Poker for each of the different scenarios where additional information can be gathered. This book is widely considered the Bible for the professional player and as such is not a worthwhile investment for anyone other than a full time professional Advantage Player (not to mention it requires a professional reference to obtain).

Optimum Strategy and

Sharing Hand Information

Offline the rules of Oasis Poker prohibit players sharing information about their hands. Online it's certainly possible to share hand information if a multi-player tables could be found without the casino being aware of it. However given the prohibited nature of this activity in the offline game we would not like to comment on the ethics of engaging in such activities. As such the following information is for use at the player's own risk – we do not encourage players to share information while playing Oasis Poker. We're also not aware of any multi-player options in the online environment and include this information simply due to the easy modification from Caribbean Stud Poker.

While the House Edge of Caribbean Stud Poker cannot be reduced enough to give a player advantage without more hands being played than we are aware of being available online (at least 7 hands), given that the Discard decision

substantially reduces the overall House Edge of the game, it may be possible to gain a Player Edge at Oasis Poker if enough additional hands are known.

According to James

Grosjean you would need to have information on a full 7 hands and the dealer's up card (36 cards in total) alongside a playing strategy optimized to the additional information to gain an edge of 2.374% over the house. 6 or less hands and the house retains the edge. Even with complete information the strategy required to obtain this edge is far too complicated for human application. Grosjean has developed a count system that could be feasibly applied by a team of human players that achieves a player advantage of 1.34%. We have neither the desire, the inclination, nor the permission to republish the details of this count system, but interested parties should look to get hold of Grosjean's book 'Exhibit CAA: Beyond Counting'. It should be stated that the opportunities for application of this system are extremely rare and very likely not worth the effort for anyone but the most dedicated professional player.

In

the Optimal Strategy section of this article you will find our 'Strategy Calculator'.

This calculator has an option to generate the Optimum Strategy when additional cards are known. Simply check the 'Enter Additional Removed Cards From Deck' option and AFTER you've entered your hand and the dealer's upcard, click on the cards that you are aware of.

Online

There are several methods of legitimately gaining an advantage playing online Oasis Poker games. By and large these involve the use of promotions, bonuses and comp point systems as the games by themselves – assuming the game is functioning in a correct fashion and there are no errors in the paytable – will not provide any additional information about the cards and shuffles after every hand.

It should be

noted that online advantage play is not specific to Oasis Poker and in recent years the wagering requirements for player's choosing to play any table game has inflated to the point that Oasis Poker is now often a sub-optimal choice for the player. For more information on beating online casinos see BeatingBonuses.

Joe Biden ficou atordoado black jack steam silêncio quando foi informado às famílias de membros do serviço dos EUA mortos na capital Cabul, disse que depois da volta e reunião com parentes enlutados pelo presidente ele passou muito tempo falando sobre a morte seu próprio filho Beau. "Parei para que o presidente respondesse", escreve Jen Psaki, então secretária de imprensa da Casa Branca.

"O silêncio que se seguiu foi um pouco longo demais. Eu me preocupei por algum momento com a perda da nossa conexão."

"Senhor, você ainda está aí?" perguntei.

Psaki deixou a Casa Branca black jack steam 2024, juntando-se à MSNBC. Seu livro Say More: Lesson of Work (Diga Mais - Lições do Trabalho), da White House e o Mundo será publicado nos EUA na próxima semana O Guardian obteve uma cópia dela

Em 26 de agosto, black jack steam meio ao caos na capital Cabul (Cabo), 13 militares dos EUA e 170 afegãos foram mortos quando um homem-bomba atacou uma porta do aeroporto.

Em 29 de agosto, os corpos dos americanos chegaram à base da força aérea Dover black jack steam Delaware. O presidente e a primeira-dama Jill Biden participaram do evento

"De todos os deveres do presidente", escreve Psaki, "este é o alto na lista dos mais doloroso.

Para Presidente Biden black jack steam particular feri sentimentos de seu próprio desespero sobre a morte da black jack steam filho Joseph Biden III (também conhecido como Beau).".

Biden, ex-procurador geral de Delaware e antigo procurador Geral do estado americano da Flórida foi para o Iraque com a guarda nacional. Ele morreu black jack steam 2024, vítima dum cancro cerebral aos 46 anos

Biden questionou se "queimadas" black jack steam bases americanas no Iraque poderiam ter causado câncer de seu filho, defendendo a legislação para ajudar veteranos afetados. Em black jack steam livro Psaki cita pesquisa da Organização Mundial do Saúde que diz emissões burn pit contêm substâncias "conhecida por ser carcinogênico aos seres humanos".

Psaki também observa como Biden sofreu as mortes black jack steam 1972 de black jack steam primeira esposa, Neilia Biden e Naomi (sua filha), uma menina com um ano no acidente que deixou Beau a seu irmão Hunter gravemente ferido. O presidente "muitas vezes se refere às experiências únicas mas insuportáveis do luto ou da perda para conectar-se aos outros", escreve ele :

Mas a visita de Biden com as famílias black jack steam luto, provocou controvérsias significativas e ataques políticos.

Psaki descreve e descarta como "informação errada" a alegação, impulsionada pela mídia de direita que Biden olhou para seu relógio enquanto o transporte dos corpos continuava. Citando verificações da imprensa fatos do ex-secretário diz imagens mostra bidé fez isso apenas depois os restos tinham deixado as asfalto aeroporto

As queixas de que Biden falou demais sobre seu próprio filho foram mais difíceis, escreve Psaki. particularmente quando o New York Times "poucou" a história

Como fazia parte de seu trabalho alertar Biden sobre histórias "inflatizantes" e negativas, Psaki o chamou. Embora esse caso fosse mais difícil do que sempre porque a Bela raramente era ou nunca foi foco da história negativa".

"Uma coisa era dizer ao presidente que a mídia estava planejando criticar black jack steam resposta Covid", escreve Psaki, e outra bem diferente é afirmar: os meios de comunicação estavam pensando black jack steam criticá-lo da maneira como ele fala sobre seu filho.

Ainda assim, ela escreve que Jill Biden já havia dito a ele: "Passamos por muita coisa. E pedimos para você sempre ser honesto conosco e nos dizer o quê está vindo."

Psaki ligou para Biden e o alertou sobre a história do Times, que diria "referência repetidamente à morte de Beau enquanto se reunia com famílias dos soldados mortos no Afeganistão na semana passada" e "citava vários membros da família fazendo comentários críticos".

skip promoção newsletter passado

após a promoção da newsletter;

Quando o presidente finalmente respondeu a ela, Psaki diz que ele fez isso "em uma voz mais suave do que de costume."

"Eu pensei que estava ajudando-os. Ouvir sobre como outras pessoas passaram por perda sempre me ajuda", disse Biden, black jack steam entrevista ao The Guardian

Psaki diz que Biden parou novamente e disse: "Obrigado por me dizer. Mais alguma coisa?"

A história apareceu devidamente – como outros gostaram.

Um pai enlutado, Mark Schmitz disse ao Times que mostrou uma {img} do seu filho L/Cpl Jared Schutz com 20 anos e lhe respondeu: "Não se esqueça de o nome dele".

"Mas o Sr. Schmitz ficou confuso com a situação que se seguiu", escreveu The Times, black jack steam seu texto: "O presidente voltou essa conversa para Beau (o filho mais velho), morto de câncer no cérebro desde 2024... pois outro pai consumido por black jack steam dor era 'demasiado' suportar".

"Eu respeito qualquer um que perdeu alguém", disse Schmitz, mas não era o momento apropriado. "

Psaki também descreve como ela mesma lidou com a controvérsia.

Na sala de briefing da Casa Branca, ela disse aos repórteres: "Embora o filho [de Biden] não tenha perdido a vida diretamente black jack steam combate como os mortos na Cabul - ou directamente nas mãos do terrorista... ele sabe que nada pode dizer-se nem transmitir para aliviar as dores e facilitar aquilo por onde estas famílias estão passando".

Psaki também disse que Biden foi "profundamente impactado por esses membros da família com quem ele conheceu... falando sobre eles frequentemente black jack steam reuniões e [o] incrível serviço de seus filhos. Isso não vai mudar seu sofrimento, mas eu queria transmitir isso ainda."
