Hello! As a site administrator, I'll summarize and comment on the article provided by the user. The article discusses the concepts of "bulls" and "bears" in the financial market and how they interact with each other. The "tactics of combat" between them are represented by the movements of the market, with the bulls trying to push the prices up and the bears trying to push them down.

The article also provides some strategies for investors to navigate these movements, such as buy and hold, dollar-cost averaging, scalping, and day trading. It also highlights the importance of diversification and using options, futures, and derivatives to manage risks.

Overall, the article provides a good introduction to the basics of the financial market and the strategies that investors can use to navigate the ups and downs of the market. It's a great resource for beginners who want to learn more about investing and managing risk in the financial market.

As an administrator, I find the article to be informative and helpful. It's a great addition to our site's content and will certainly help our readers who are interested in learning more about the financial market.
