1xSlots is a casino that is heading in the right direction. It's too early to put them head to head with some of the more reputable brands, but as you can read from our review, they are making all the right noises. In terms of the game package and the game providers, they are as good as any. All they need to do now is iron out a few of the smaller glitches that they have, and it will propel them higher up the rankings.

Pros & Cons of 1xSlots

Pros

Huge range of casino games

High rollers are welcome

Some of the best software developers in the industry

Up and coming brand with a good range of promos Cons

Lacks structure

Design nice, but could do with better navigation

Design & Structure of 1xSlots Casino

The first thing that we noted on the 1xSlots casino site is that you enter into a homepage. This may seem like an odd thing to add, but what we mean is that you don't just land and then get hundreds of casino games thrown at you. Instead, you can have a look about to see what's going in the casino and then work your way over the games section.

In terms of design, colour coding is one that works nicely. It has a premium feel to it, and it looks like a casino that has been around for more than just a couple of years.

As you move through the casino and into the games, it starts to get a little confusing. You see, they use the "Slots" handle to include all of their games and then have a separate "Games" handle to add some more random casino games.

What threw us off was the fact that games like blackjack and roulette were actually under the slots tab. There are other table games here as well, which makes it all highly confusing and easily fixable by just remaining it to "All Games" or something similar.

Once you are in this section, it's nice to use. We liked that you were able to search for games from individual providers and then see which games they had included.

How to Register at 1xSlots Casino?

Registering an account with 1xSlots Casino is a process that should only take you a couple of minutes to complete. You can do this on both online and mobile devices, with the pair and processes being linked for both. Here is how to open an account with 1xSlots Casino: Click on the "Registration" button in the top left of the page. You can now choose to sign up with your phone, via email or using your social media login information. For each, you will need to enter your details for this. Enter your 1xSlots Casino promo code. Use SILENTBET for the best rewards. Once your account has been set up you will be prompted to set up an additional security measure such as phone or email, if you have not already done so. Finally, you will be asked if you would like to choose your bonus or not. We talk more about this later in the review.

It's worth noting that at some point you are going to need to verify your account. Speaking with the support, they say that there is no timeframe on this, but they do state that to withdraw, you will need your account filly verified.

Our advice would be to head to your account and then use any of the verifying links at the top of the page as soon as it is active. Doing it now will save time later, and it means that any withdrawal you need to make will not be delayed.

What Software Providers Power the Casino? 1xSlots comes stacked with software providers. It's one of the biggest collections that we have seen. Over 50 developers are all working to power the casino. Some of the more notables here include the likes of Real Time Gaming, NetEnt, Microgaming, BetSoft and NextGen, to name just a small handful. What Casino Games Can I Play at 1xSlots Casino? The result of using over 50 game providers is that you have a huge catalogue of games to choose from. 1xSlots Casino has over 1,000 game spread across its casino, which makes them one of the biggest in the industry. As you can imagine, the majority of these games come from the online slots section. The range is so vast that they can provide some of the best games in the industry right now. Highlights for us included Grand Theft Auto, Arabian Nights, Narcos, Shogun of Time and Vampire Las Vegas, to name just a few. Table games are not forgotten about either, and you've got a strong range of blackjack and roulette variants. Other games on-site include baccarat, craps, sic bo, pai gow, three card poker and a range of video poker games. A nice touch within the game section is the ability to both manually search and favourite games. This means that you can create your little catalogue that is saved for each time that you login. Given that there are over 1,000 games to choose from, this is a highly welcomed feature.

1xSlots Live Casino

The live section is one of the latest and increasingly popular parts of the casino. The number of developers that they are using and the number of games that they have on offer is growing almost by the week.

It's been the quality of the games that have been most impressive to see. Pretty much all have a strong High Definition stream and they are run in a professional atmosphere. The dealers are all dressed smartly and seem highly competent in games, keeping things light and chatty, while continuing to move the games along.

What Software Providers Power Live Casino? Like the main casino, they can use several live

casino providers here as well. You have the likes of NetEnt Live and Evolution Gaming that power the bulk, but also the likes of EZugi, Lucky Streak and Vivo that make smaller, yet just as exciting contributions to the overall package. It's pretty rare to see casinos use more than one or two live casino game provides. What we have found from 1xSlots is that they are willing to give the smaller rooms a chance, which means that they have games that few others do. In an industry where so many casinos are carbon copies of each other, this has been a nice breath of fresh air. What Live Dealer Casino Games Can I Play at 1xSlots Casino? With so many game providers to choose from, the range of games is really strong. You get several variations of blackjack and roulette, before then moving on to things like baccarat, craps and poker. It's also worth several games that are held in different languages as well. The majority are in English, but you can get a range of European language games as well.

1xSlots VIP Club

1xSlots is going to reward players who not only stick about but also play a lot on their casino. Their VIP club is part of that reward scheme, and all you need to do to get in is make ten separate deposits.

Once you have made your 10th deposit of €10 or more, then you will then be given a bonus worth 50% of this amount, up to a maximum of €300. You then need to wager through this bonus 35 times before you can withdraw.

1xSlots Mobile Casino

The casino comes with a dedicated Android app that you can download directly from the site. To do this just click the Android logo in the bottom left-hand corner and the .APK file will begin to download. Make sure that downloads from unknown sources are accepted in your phones setting before starting to install.

At the time of writing, there is no dedicated mobile app for iOS devices. However, you can access the casino via your smartphone's browser for those that aren't on Android, with the experience being very much the same as the dedicated app.

There is a drop off of games from mobile to online, but this is to be expected. Given that there are over 1,000 to choose from online, the lower numbers of mobile are still more than most package overall with other casinos.

We've enjoyed using the mobile casino app for 1xSlots and we would say that it's just as, if not even easier to use than the online site. The ability to quickly load it up on your phone and log in with your fingerprint for your password is another nice feature that we liked.

Security & Fairness of the Games The license that 1xSlots operates on is from that of Curacao and with it they are required to operate under certain criteria for both player safety and game fairness. It's not easy to get these licenses, so when we see that they have been awarded this, we are satisfied that security is about as good as it can be. The site also comes with SSL security meaning that pages are encrypted and almost impossible to hack. Like any online casino, there is an element of risk when you apply your login and personal information, but there is no added risk from 1xSlots compared with any of the other brands that we've tested.

1xSlots Affiliates The affiliate program at 1xSlots offers a competitive commission rate of up to 45%. This amount is for referred players and is a lifetime commission based on each player that you sign up. Just so you know, the 1xSlots Program is open 24/7 and supports over 50 languages with over 160 payment solutions in place. It's also worth noting that the program does have any negative carryover. So, if you have a negative month, this balance will not need to be made up in the following month to get paid.

Payment Methods

The first thing to note here is the range of available currencies. There are over 50 to choose from, and each of them comes with their own set of banking and deposit options. In terms of banking, there are over 100 to choose from. You read that, right! It's one of the biggest ranges of payment methods that we have seen and deposits on-site start very low, which is incredible.

Your deposits will be processed immediately for the most part and withdrawal will take up to 24 hours to process. They will then take between 1 to 5 working days to be paid back into your account.

The major areas here are that of cryptocurrency options and e-wallets, which makes up for nearly half of the banking options. Here is a look at some of the more popular deposit options at the 1xSlot casino:

Payment Method Deposit Minimum Deposit Maximum Time for Deposit Minimum Withdrawal Withdrawal Maximum Time for Withdrawal Visa €1 - Instant €1.50 - up to 7 days MasterCard €1 - Instant €1.50 - up to 7 days Qiwi €1 - Instant €1.50 - 15 minutes Perfect Money €1 - Instant €1.50 - 15 minutes Jeton Wallet €1 - Instant €1.50 - 15 minutes Sticpay €1 - Instant €1.50 - 15 minutes EcoPayz €1 - Instant €1.50 - 15 minutes Payeer €1 - Instant €1.50 - 15 minutes AstroPay €1 - Instant €1.50 - 15 minutes Neosurf €1 - Instant CashtoCode €1 - Instant ePay €1 - Instant Bitcoin €1 - Instant €1.50 - 15 minutes Litecoin €1 - Instant €1.50 - 15 minutes Dogecoin €1 - Instant €1.50 - 15 minutes Cryptocurrencies €1 - Instant €1.50 - 15 minutes

Verdict & Casino Rating

There is little doubt that 1xSlots is a casino that is going places. The site comes with an incredible number of games and game providers to choose from, meaning that you're never going to get bored here.

They are far from the finished article though and we would like to see a little more structure to the casino in terms of what is on offer. However, given they've only been open since 2024 means that what they have achieved in that time has been highly impressive, so it will be exciting to see where they are in a few more years as they continue to improve.
