Viver na Faixa de Gaza: Uma Perspectiva Profunda e Desafiadora

Living in the Gaza Strip has given me a deep and often challenging perspective on life. I am a person who rarely feels fear, but the things we are seeing and hearing are so terrifying. Even at night, we have to look for a safe place to sleep, in case our house falls on our heads. In the Gaza Strip, all places are unsafe. No place is far from bombing, and death is always nearby.

I was born and always lived in the Gaza Strip, but I had to leave my home in October 2024. Currently, I am living in Gaza East with my family. We are seven people in one room and another family of seven in another room. We try to stay as close together as possible. We sleep together.

We don't have water in our house and food supplies are almost exhausted. Flour is expensive and scarce, so sometimes we use animal feed to cook. I feel sad for my sisters because they are not getting the nutrition they need. They are children and their bodies are growing, so they get tired very quickly.

Viver em uma Zona de Conflito

For young people like us, living in a conflict zone has an impact that can last our entire lives. Everything here is chaos - everything we see and hear, and even where we live. This restricts our access to education, work, and a safe environment.

Many children are traumatized by witnessing violence and losing loved ones, and this can have long-term psychological effects. In addition, the economic collapse and lack of infrastructure make it difficult for young people to plan for a stable future or visualize a normal life. We face so many barriers to our dreams and aspirations, even simple ones like traveling, which is difficult: there are checkpoints, humiliating security checks, and long journeys to get visas, which are mostly rejected. This makes me want to ask people in the West and Israel a question: "Are we not human like you?" And the answer? Well, no, there is no answer.

Sobrevivência e Sonhos

To survive in this harsh reality, young people like us adopt various survival strategies. We live day by day, finding small pleasures and personal passions. Creating personal worlds and engaging in activities we love provides a temporary escape and a sense of normalcy. Maintaining hopes and dreams is a crucial part of survival. Despite the dark circumstances, these dreams give us a reason to resist and push forward, even when the future seems uncertain. There are so many things I still want to do. I want to be a photographer. I also write. I am sure that one day there will be a book written by me for the world to see.

If I survive, I will see the world. I will see everything I have read about. I am a very curious person, I want to know everything about the world outside my country. I want to live normally. I try to see things optimistically. If the war ended, I could go out and feel safe again, even though I am not sure if that is possible, or if I will still be alive after the war. But one of the things I would like to do is not feel that our cause is marginalized and that everyone is ignoring it.
