## No se permite enseñar el libro "All Boys Aren't Blue" en Washington Corrections Center

On a Monday night in the afternoon, just after six, Alicia Williams waits for the last stragglers to fill her restricted classroom at the Washington Corrections Center. Her students have braved the autumn weather of western Washington to get here and enter the room still damp from the wind, their khaki uniforms speckled with raindrops.

There is no time. Instead of the lesson she had planned, Williams will have to rely on notes and explanations on the spot. She just found out that she is not allowed to teach the book that her class was supposed to discuss that night.

The course is English 233, children's literature. The text of controversy is "*All Boys Aren't Blue*", a book recommended for adolescents 16 and older.

More information: Republicans will do whatever it takes to ban books, even saying they cause addiction to pornography | Arwa Mahdawi

For many Americans, the idea of book banning is nothing new. It used to be just images of more oppressive societies: black and white filmstrips of book burnings, photos of McCarthy throwing books and pamphlets, political speeches now considered laughably trivial.

But in recent years, books have become a flashpoint in public discourse and the banning and censoring of books in the education system have become a trend.

Groups like the Moms for Liberty organization have targeted school libraries, looking for books on race or LGBTQ+ issues and pushing for their removal.

Conservatives have spent a lot of time on the supposed dangers of certain books and have convinced a large number of Americans that the theory of critical race theory, a course of study at the university level, is being taught widely in schools across the United States.

There have been fights and fistfights at parent and teacher meetings and seizures in school sessions in the city and in election debates. Book bans in schools increased 33% between 2021 and 2024, according to the Freedom to Read Foundation, a defense organization of the First Amendment.

Authors whose books have been targeted include Margaret Atwood, Toni Morrison, William

Faulkner y James Joyce.

Pocas personas son conscientes, sin embargo, de que la prohibición de libros es una práctica amplia y arraigada
