PokerEdge Software

The interface is user-friendly and all its features are simple to understand. The tool delivers several features to the user and all information is displayed in real-time. An interesting feature about Poker Edge 5 is that it has the ability of identifying soft ring tables. In addition, the tool identifies players according to their style of play and you will be able to see the fish, tight aggressive and loose aggressive players. With the help of Poker Edge, a player is able to sharpen his or her gaming skills and it provides detailed analysis of your previous hands played and outline how to solve the leaks.

The Genuine System

Professional poker players use profiling software to choose the best table to play. Profiling software helps you to find easily tables with the most weak players and gives all the information regarding your opponents. The main difference between poker odds calculators and profiling software is that you already have your database and information over your opponents collected before the game starts, calculators can do this only at your game.

Poker Player Stats

Directly on Your Table! Poker Edge was originally developed years ago and is now one of the oldest and best online poker profiling tool on the market. However, if you give poker-edge a try you see how simple can poker be, with smart icons you see how good the table is and make better decisions before you start to play online poker.

Poker-Edge 5

With this too, users are able to create a profile and share it with other players and you have the ability to detect leaks in your game play. Poker Edge 5 has a huge database and the tool is useful for both the professional and novice poker players. Poker Edge 5 is available as free trial to players who need to check how the software performs before considering purchase. For a short time you can get an exclusive 3 month free licence.
