by Jason Green of Predictem

There are 36 numbers on a Roulette wheel and there are many bets that you can make, one of which is the 19-36 bet. There are inside bets that you can make and outside bets that you can make when playing Roulette. The inside bets are the 36 numbers on the wheel, 1-36, and the outside bets are ones such as odd, even, red, black, column bets, 1-18, and 19-36 to name just a few.

There are separate boxes on the Roulette table and one of those boxes is 19-36. If you bet in this box, you are basically betting that when the wheel is spun that the ball will rest on a number that is between 19 and 36. If you bet on the 19-36 box and the ball does rest on a number from 19 to 36, you will win that bet and be paid out 1 to 1. So, if you bet R\$20 and it hits, you will win R\$40. A lot of people think that this is a bet with a 50% chance of hitting, but with the zero or zeros that is not the case. The European version of Roulette only has one zero while the American version has two zeros. The zero or zeros is how the house has an edge. Hint: it is a good idea to play the European version of Roulette, as it has lower house odds. You can find many Internet casinos that have European Roulette.

PLAY ONLINE ROULETTE FOR REAL MONEY AND RECEIVER A VERY GENEROUS SIGN UP BONUS AT 5DIMES CASINO

One of the most important things to understand is that online roulette is a game of chance, so there is no sure-fire way to guarantee a win. However, if you follow some simple tips and strategies, you can improve your odds of winning and have more fun while playing.
