Spread-Bet Roulette

Introduction

Spread-Bet is a set of side bets in

roulette by Cammegh, a maker of 7 gaming equipment, including roulette tables and signs.

The outcome is based on the sum of two electronic spins, as shown 7 to the player on the  
electronic game display.

Rules

Spread-Bet is a set of seven side bets that can be added

to 7 a standard roulette game. Following are the rules.

In addition to the standard

roulette spin, two random outcomes will be drawn 7 electronically and displayed to the

player virtually on the scoreboard in the form of two concentric roulette wheels. The

two 7 virtual spins will be on the same kind of roulette wheel as the physical spin. In

other words, the same 7 number of zeroes will be used. There are seven bets to choose

from, which will win according to the sum 7 of the two virtual spins. These betting

spaces will be placed in the area for outside bets. The win of 7 the Spread-Bets shall be

based on the sum of the two virtual spins. Both the zero and double-zero shall count 7 as

zero for purposes of this sum. The seven different Spread-Bets cover various ranges

from 0 to 72. Different versions 7 are available to the casino operator, which are shown

in the analysis section of this page.

Single-Zero Wheel Analysis

The following four

7 tables show the four sets of bets available to casino operators for single-zero wheels. Each table shows the seven bets 7 available, what a win pays (on a "to one" basis), the number of winning combinations, probability of winning, and expected 7 return to the player.
