With a 7 free online roulette game, you can learn the rules of the game and explore betting strategies without any risk. You 7 don't need to download an app or sign up to get started. Just click on your favourite NetEnt roulette game 7 on this page, place your bets and wait to see where the ball lands in the wheel. There are also 7 many more tips on how to play roulette online in the following guide!

How to start playing
online NetEnt roulette for 7 free
Roulette rules are very simple and everyone can learn them. A small ball is thrown into the wheel, and it 7 stops in one of the pockets. If the number matches the one on the bet zone you placed your stake 7 on, you win. Since you don't invest any money in free roulette, you can learn the exact betting rules,

strategies, 7 and variations without any risk of losing money.

Popular strategies

Ever

since roulette existed, people have tried to use strategies or systems 7 to increase their winning odds. However, Roulette is purely a game of chance, so these attempts are not successful. However, 7 you can look at the whole matter from a different angle. By using intelligent betting strategies, you can try to 7 reduce your losses, and this is exactly what the best-known roulette strategies deal with. And this is exactly why it 7 is perfect to use a free roulette simulator. You can discover all the strategies, experiment with them at no risk, 7 and then use them to play real money roulette at reputable online casinos. Here are the best online roulette systems 7 and how they work.

Martingale System

The Martingale strategy is probably the best-known roulette strategy. You just place even money bets and 7 try to make up for the loss by doubling the bet if you lose. If you win, you keep the 7 payout and start again with the original bet. The drawback of this roulette strategy, however, is that due to limited 7 funds and table limits, you cannot double down at will on losses. Even if you place a relatively small bet, 7 you will quickly reach high numbers in a series of losses and can still only take the original bet amount 7 as a profit.

D'Alembert System

D'Alembert roulette

strategy is a system that is particularly beginner-friendly. Here you choose a bet that you 7 either progress with or return with. If you win outright, you collect the payout. If you lose, you increase the 7 stake by a certain amount, and if you win, you decrease it by that amount. You follow this system until 7 you get back to the single bet and win right away. Then you can start again from the beginning.

The best 7 way to try out the

D'Alembert strategy is by playing free online roulette. With the simulator, you have all the 7 time you need to test whether this system is suitable for you. Even though there is no guarantee, the risk 7 is lower with this method because the progression is not as high as with Martingale.

Fibonacci System

The Fibonacci method is derived 7 from a scientific sequence of numbers used to observe the reproduction rate of mice. However, it can also be used 7 for roulette games online. The basic principle of Fibonacci is to always add the last two numbers. For online roulette, 7 this means that you lose less with this betting strategy, but in the event of a losing streak, it takes 7 longer to make up for it.

The first time you play, you bet a specific stake. With a win, the roulette 7 player starts again from the beginning. If you lose, you bet that amount again the next time (1+0). The next 7 time you lose, you bet twice the stake (1+1) and after the third loss, you bet five times the stake 7 (2+3), then eight times the stake and so on. If you write down the Fibonacci number sequence (1-1-2-3-5-8-13-21 etc.), it's 7 easy to follow it. For winnings, it is the other way around. Since this strategy is not so easy, you 7 should play free games and practice until you have mastered this system.

Odds

and bet zones in free roulette and real 7 money games

When playing free roulette online,

you can understand the different types of roulette bets relatively quickly. They are divided 7 into inside and outside bets, depending on where the chips are placed on the table.

Inside bets

These bets are placed directly on the number field. Depending on their likelihood of winning, there is a different payout ratio in each case. Inside bets win less often than outside bets, but the payout is higher if they win. Inside bets involve betting on either individual numbers or small-number groups.

Straight up

bet or classic bet is when you place the stake on a single number (including zero/double zero). Winnings are paid at 35:1.

In a split bet, you place your bet on two

adjacent numbers. To do this, you move the chip to the line that connects these two numbers. If you win, you receive a 17:1 payout.

In a street bet, you place a bet on

three numbers. To do so, you place a chip on the side line that connects the number fields. If one of them wins, the payout is 11:1.

With corner or four-way bets, you bet

on four adjacent numbers. To do so, you put the stake on the cross that connects the corresponding number fields. This type of bet wins 8:1.

A six-line bet is also called

Transversal Simple. Here, you bet on two adjacent rows of 3 numbers each. You place the stake on the side of the number field on the cross between the two rows. If you win, you receive a 5:1 payout.

Outside bets

Outside bets are placed outside the number

field. They have higher winning odds, but the payout is therefore lower. There are 5 different types of these bets and in the event of a win, they are awarded as follows:

Column bets can be made for 12 numbers at the bottom of the roulette grid. The payout is 2:1.

Dozen bets payout at a 2:1 ratio. You can bet on groups of twelve (1-12, 13-24, 25-36).

Red/black bets cover all number fields (except zero and double zero) on the roulette wheel. Since the odds of winning are relatively high here, the payout ratio in case of a win is 1:1.

Even/odd bets can be made on all numbers except zero and double zero. If you win, the payout is 1:1.

High/low bets cover the 18 lowest (1-18)

and highest numbers (19-36) respectively. Again, the payout ratio is 1:1.

NetEnt

Roulette Bonuses
