Slot Machine

With over 300 options, slot games, or slot machines, are the most popular on Casino Bodog. You can play from a prepayment converted into credits for the spins. These machines randomly generate combinations of symbols that may or may not be winners. If you are lucky and hit the predicted combinations, you can earn cash prizes - which are usually multi-million prizes!

Blackjack

BlackJack or 21 is a simple game, without many rules and that gives you the chance to win in just a few minutes at the table. The most played versions are: Single Deck Blackjack, Double Deck Blackjack, European Blackjack and Classic Blackjack. In this game, luck and fun go hand in hand. Try to get the most points in a round, but without going over 21. Example: if the player has an ace and a 10 card, adding up to 21 points, he has what we call a Blackjack - and luck. Choose your favorite version of BlackJack, improve your skills and increase your chances of winning!

Baccarat

Baccarat is similar to BlackJack, but much easier to play. In this game, the player does not need to add the values of the cards. The croupier does that. Multiple betting possibilities, more chances to win. To play, the player must bet on the players, on the banker or even on the tie. To win, you have to guess who will be able to get as close to nine points as possible with the cards in hand. It's so simple that bets start from USD 1. Interact with the dealer, have fun with other players and leave the table with more money than you got in!

Jackpot

Jackpot is a very high cash prize offered by slot machines in land-based and online casinos, and even at card tables. Take the big luck. Normally, the jackpot amount is accumulated and increases with each game played with no winners. The value can also come from the direct collection of the commission charged by the administration of the game. Jackpots increase until someone wins. The Jackpot works like a game saver, attracting new players and retaining old players with the chance of a big prize.
