conteúdo:

In the game of roulette, betting on either 0 or 00 (if you are playing American roulette) pays out at 35/1. If you are playing American roulette and do a "row bet", this means that you are betting on either 0 or 00. If the ball falls on either 0 or 00, you will receive a 17/1 payout.

[super spin roulette como jogar](#)

If you bet on 0 or 00 on an American wheel, and your bet hits, you'll get a payout of 35 to 1. If you place a row bet (betting on both 0 and 00), and your bet hits, you'll get a payout of 17 to 1.

French Roulette: a Beginner's Guide to the Best Roulette Wheel

When you play online

casino games for real money, you want the best value and the best possible return.

So

it's vital that you choose the right roulette rules if you want to play online roulette games, or you could miss out.

For some bets, the French Roulette cuts the house edge to

as little as 1.35%, which significantly improves your chances of winning compared to the 5.26% edge in the American version of the game.

What is French Roulette

Online French

Roulette uses the original version of the game, which legend has it, is based on failed experiments to create a perpetual motion machine by scientist Blaise Pascal in the 18th century.

In the mid-19th century, the game was taken across the water to America where they made changes to the wheel to increase the house edge, as well as changes to the playing table and the rules.

This means that the French Roulette table looks different,

has more betting opportunities and delivers a better return to the player.

So, whenever

you have the option, the French Roulette wheel should always be your first choice.

## Differences between French and American Roulette

The biggest difference between

the American and either the European or the French Roulette game is the number of zeros on the wheel.

An American Roulette wheel has both zero and double zero, setting the house edge at 5.26%, whereas a European or French Roulette wheel has just one, cutting the house edge in half to just 2.7%.

What's more, the unique rules of the French game

can cut that edge in half again, reducing their take to just 1.35% on even money bets.

The playing tables are subtly different too, with the outside bets on an American or European Roulette table all down one side, while the outside bets are split either side on the French Roulette table.

Even the numbers on the wheel can be different, with

American numbers usually facing out and European or French numbers facing in.

## The Basic

### Bets in French Roulette

The aim of the game in all styles of Roulette is to predict

where the ball lands when the Roulette wheel stops spinning.

The croupier will spin the

wheel one way and set the ball in motion in the other direction, and it will spin until the ball lands in a numbered slot.

There are a number of basic bets you can make on the

outcome, and each bet includes one or more possible numbers. These are grouped into inside and outside bets as follows:

### Inside Bets in French Roulette

#### Bet Description

Payout Straight bet Choosing a single number from the 36 available 35:1 Split bet

Choosing two adjacent numbers on the grid 17:1 Street bet Choosing a row of three

numbers 11:1 Corner bet Choosing a group of four numbers 8:1 Line bet Choosing two adjacent rows of numbers 5:1

Note: the street and corner bets may also include the zero

### Outside Bets in French Roulette

One of the first things you will notice in a

French Roulette game is that when it comes to the outside bets, the table is in French.

These bets translate as follows:

Bet Description Payout Column bet Choosing

one of the three columns of numbers 2:1 Douzaine = Dozen bet Choosing the Premier

(first), Moyenne (second) or Derniere (third) set of 12 2:1 Rouge/Noir = Red/Black bet

Choosing any red or black number 1:1 Pair/Impair = Odd/even bet Choosing an odd or even

number 1:1 Manque/Passe = Low/high bet Choosing 1-18 or 19-36 1:1

Note: the

Douzaine/Dozen bet is shown as 12P, 12M or 12D.

### A Second Chance for Even Money Bets

In

the American or European Roulette wheel, if the ball lands in the zero slot, you will lose any even-money bets, such as red/black or odd/even.

When you play on the French

Roulette wheel, you don't lose: you get a second chance.

This can happen in one of two

ways:

En Prison rule: any losing even-money bet remains on the table and is imprisoned until the next spin. If it is a winner on that spin, the stake is returned to the player.

any losing even-money bet remains on the table and is imprisoned until the next spin. If it is a winner on that spin, the stake is returned to the player. Le Partage rule: any losing even-money bet is split 50:50 between the player and the house, so you only lose half of your stake.

Different casinos play different rules, so it is important to know what the house roulette rules are for even-money bets before you start to play.

Advanced Bets in French Roulette

As you get more experienced with the standard bets, or bored with the same old wagers, you can move on to what are called announced or called bets.

These may seem intimidating at first because of their exotic

French names, but they are quite straightforward when you get the hang of them.

The

main announced bets in the game of French Roulette are:

Voisins du Zero (neighbours of zero): all numbers on the wheel between 22 and 25. This bet involves nine chips spread between splits, corners and threesomes of these numbers.

all numbers on the wheel

between 22 and 25. This bet involves nine chips spread between splits, corners and threesomes of these numbers. Le Tiers du Cylinder (thirds of the wheel): all numbers opposite zero, from 27 to 33. This bet involves six chips placed as splits between these numbers

all numbers opposite zero, from 27 to 33. This bet involves six chips

placed as splits between these numbers Jue Zero (zero game): the six numbers either side of zero and the zero itself. This bet is played as three splits and a straight bet on 26

the six numbers either side of zero and the zero itself. This bet is played as

three splits and a straight bet on 26 Orphelins (orphans): the eight numbers not included in the above bets. This can be played as orphelins en cheval, costing five chips as four splits and a straight bet on 1, or as orphelins en plein, costing eight chips as straight bets on each number

the eight numbers not included in the above bets.

This can be played as orphelins en cheval, costing five chips as four splits and a straight bet on 1, or as orphelins en plein, costing eight chips as straight bets on

each number Finales: bets on all the numbers ending in a certain number (eg 6,16,26 and 36). Can be placed as either finales en plein (single number) or finales a cheval (either of two numbers). The stake varies according to the number of possibilities.

At

the end of the day, whether you have a favorite number at your online casino, or you prefer the coin-toss of an even money bet, French Roulette is by far your best route to the best odds, cutting the house edge by half or even three-quarters.

So, choose your

game carefully, place your bets and... vive la France!

## **Mondo Duplantis vence a Karsten Warholm en carrera de 100 metros**

No contento con batir el récord mundial de salto con pértiga en tres ocasiones en el espacio de cinco meses, Mondo Duplantis corrió 100 metros en solo 10.37 segundos para derrotar a Karsten Warholm en una carrera de exhibición el miércoles.

El evento, que tuvo lugar en el Estadio Letzigrund en Zurich, Suiza, junto al encuentro de la Diamond League, vio a Warholm marcar un tiempo de 10.47 segundos, lo que significa que ambos atletas registraron sus mejores marcas personales. Increíblemente, también significó que tanto Duplantis de Suecia como Warholm de Noruega habrían calificado desde la ronda preliminar de los 100m en los Juegos Olímpicos de París.

"Estoy bastante encendido. ¿Cómo no podría estarlo?", dijo Duplantis en la línea de meta. "¡Deja de jugar conmigo!"

"Tengo que darle crédito a Mondo. Me derrotó hoy, justo y derecho, así que fue una gran carrera", concedió Warholm. "Salió de los bloques tan rápido. Salió realmente afilado."

Observados por saltadores de pértiga como Sam Kendricks, corredores de vallas de 110 metros como Hansle Parchment y saltadores de altura como Yaroslava Mahuchikh, Duplantis tuvo un buen comienzo y mantuvo a raya un ataque de Warholm para llevarse la victoria. El sueco incluso logró girar y mirar fijamente a su oponente cuando cruzó la línea de meta.

La pareja competirá en sus eventos habituales el jueves, y se espera que Warholm salga con una camiseta de Suecia después de que Duplantis se la entregara después de la carrera.

El noruego es el actual poseedor del récord mundial en los 400 metros vallas, habiendo ganado el oro en Tokio 2024 con un tiempo de 45.94 segundos. El estadounidense Rai Benjamin se vengó en París el mes pasado, su tiempo de 46.46 segundos limitó a Warholm a una medalla de plata.

Mientras tanto, Duplantis ha establecido 10 récords mundiales en el salto con pértiga, comenzando con una altura de 6.17m en 2024 y concluyendo, por ahora, con 6.25m en París 2024 y 6.26m en la Liga de Diamante en Polonia menos de tres semanas después.

El atleta de 24 años ha corrido previamente los 100m en 10.57 segundos mientras estaba en la escuela secundaria, según Olympics.com. También ha expresado el deseo de competir en relevos de sprint para su país junto al salto con pértiga.

"Me habría encantado hacer eso", dijo. "Y me encantaría ser parte de romper el récord sueco".
