One common method is the use of optical sensors to scan the bill for specific security features, such as watermarks, security threads, and color-shifting inks. The machines may also use magnetic and infrared sensors to detect the magnetic properties and infrared marks present on legitimate currency.

Many fruit machines have a 'hold' button. This lets you pause certain reels during play, increasing the chances of winning. For example, if you had two lemons in a row, you could hit 'hold' and continue spinning the remaining reel in the hope of getting another lemon. Some fruit machines also have a 'cancel' button.
