By Sean Chaffin

The WPT Action Clock has generally received positive reviews since it debuted at the Season XIV WPT Tournament of Champions. The goal was to speed up play in later stages of a tournament – striking a balance in speeding up play but also offering opportunities for time extensions when players have particularly difficult decisions.

However, as tour events continue to attract bigger and bigger fields, a few changes were added beginning with the WPT Seminole Hard Rock Poker Showdown.

The Action Clock comes into play when a tournament is one full table off the money bubble and continues until a champion is crowned. Each player has 30 seconds to act on a hand, and received four time-extension chips for an extra 30 seconds each. Players reaching the final three tables of the tournament are then reset to a maximum of six time-extension chips, and those at the final table are reset to a maximum of eight chips.
