A free bet is a wager you can make without using your own money. Online sports betting sites offer free bets to encourage new customers to sign up. You choose the sport, game, and bet you

want to make, just like you would with a real money wager.

Went to showdown (WTSD) and Won money at showdown (W\$SD) are two inversely correlated indicators in online poker which can be used to read your opponents' behavior after the flop. As the percentage of hands a player goes to showdown with (WTSD) increases, the percentage of the hands he actually wins (W\$SD) goes down (more hands=less quality). Use these poker HUD stats to figure out the probable strength of an opponent's holding after the flop.

If you play against somebody with a high WTSD you should be relentlessly value betting – your opponent is a calling station and will pay off your good hands. Conversely when you are against a player with low WTSD and high W\$SD and he bets you strongly on the river – fold your marginal hands without thinking twice.

Both

indicators converge relatively slowly and I wouldn't put much trust in them before I have at least 500 hands on a player.

Your own WTSD will vary according to your style, but optimal range is considered to be between 25 and 35. Opponents with WTSD at 20 and below should be bluffed non-stop and the 40+ you should definitely bet for value. Have in mind that for shorter tables this HUD stat will be slightly higher.

W\$SD is around

50-60% for most players. It will be higher for tighter players and lower for looser ones. Don't forget that it actually shows the % of won pots but not how much money is won – a player win W\$SD above 50 is not necessarily a winning one.

Examples using

WTSD

/For sake of simplicity we'll assume all opponents have stacks of about 100BB/

Full ring table, we are UTG (under the gun – first to act) and we hold AKo. We make a raise of 4xBB and everyone folds to the BB who calls. The flop comes 5 6 K of different suits, obviously a great flop for us. The BB checks. Do we check or bet?

Let's look at the stats.

a) VPIP=15 / PFR=8 / WTSD=21

We can't win much by betting here

– the opponent will most likely fold. There is no danger of overpairs, flush or likely straight draws, so we should check and give him a chance to improve to the second best hand or bluff his money away.

It is a good idea also to look up the villain's Fold to

C-Bet percentage – sometimes players insist on defending against C-Betting to an irrational degree and if such is the case, you can make a small bet on the flop (let's say 1/3-1/2 of the pot), have it called, check the turn and over-bet the river making it look like a bluff.

b) VPIP=28 / PFR=5 / WTSD=44

This is a good place to value bet –

your opponent is loose and passive. To bet about half the pot seems correct – you don't want to chase him away here.

Examples using both WTSD and W\$SD

/For sake of simplicity

we'll assume all opponents have stacks of about 100BB/

Let's consider a situation

similar to the previous one.

Once again, we are UTG at a full ring table and we hold

AKo. We make a raise of 4xBB and everyone folds to the BB who calls. Flop comes 5 6 K of different suits. The BB checks, we bet half the pot, he calls. The turn is a 9 of

the forth suit, which removes the possibility of a flush but completes a straight. He checks, we bet 2/3 the pot and the opponent again just calls. On the river comes a 10 and the opponent bets the size of the pot, thus giving us 2 to 1 on a call. What do we do?

a) VPIP=15 / PFR=8 / WTSD=21, W\$SD=68

Well, statistically we are beaten. Our hand

is basically a bluff catcher at this point and this guy doesn't seem to bluff on the river. Fold and save yourself some money.

b) VPIP=28 / PFR=5 / WTSD=44, W\$SD=32

As far

as the betting sequence went, we have a marginal hand at best. However our opponent is exactly the kind of loose-weak player to call in such a situation. The pot odds of 2/1 and his losing record from similar situations should make this a call with positive expectancy.

### Recuperada pintura de Francis Bacon en Madrid: valorada en €5m

La policía de Madrid ha recuperado un retrato de Francis Bacon, valorado en €5m (£4.3m), que era una de las cinco obras del famoso y prolífico artista que fueron robadas de la casa del sujeto del cuadro hace casi una década.

Las pinturas, cuyo valor total se ha estimado en €25m, desaparecieron en 2024 después de un robo en la casa de Madrid de José Capelo, un banquero español y amigo cercano de Bacon que

posó para el pintor.

Tres de las pinturas fueron encontradas en 2024, y la Policía Nacional anunció el jueves que se había recuperado una cuarta – el Estudio para retrato de José Capelo de 1989 de Bacon.

"Nuestras investigaciones condujeron al arresto de dos personas en Madrid en febrero que habían recibido propiedad robada – dos de las pinturas robadas", dijo la fuerza en un comunicado.

"Como resultado de esos arrestos y otras acciones policiales, se encontró una de las pinturas faltantes en una propiedad de Madrid."

## Arrestan a 16 personas en relación con el robo

La Policía Nacional dijo que 16 personas habían sido arrestadas en relación con el robo, incluidas aquellas acusadas de haber cometido el robo hace nueve años. También dijo que se centraba en los ciudadanos españoles con vínculos con grupos criminales del este de Europa.

"La investigación seguirá abierta mientras nos esforcemos por recuperar la última pintura y arrestar a quienes la posean", agregó el comunicado.

## El legado de Francis Bacon

Bacon, quien murió en Madrid en 1992 a la edad de 82 años, es uno de los artistas más highly regarded and sought-after del siglo XX. Sus imágenes viscerales, violentas de papas, crucifixiones y rostros y cuerpos retorcidos, agonizantes continúan fascinando y generar cantidades enormes en subastas.

En 2008, su Tríptico 1974-77 fue vendido a un comprador anónimo por £26.3m – entonces un récord europeo para un artista posteriores a la guerra. Cinco años después, un retrato triple de Bacon's amigo y par Lucian Freud fue vendido por R\$142m (£89m), considerablemente superando los R\$119m (£74m) pagados por El Grito de Munch en 2012.

<b>Año</b>	<b>Pintura</b>	<b>Precio (£)</b>
2008	Tríptico 1974-77	26.3m
2013	Retrato triple de Lucian Freud	89m

Más recientemente, uno de los retratos de Bacon de su amante y musa George Dyer – descrito como "el primer retrato monumental de panel único del artista en aparecer en subasta en una década" – se vendió en una subasta por R\$27.7m.

Pero el artista, quien fue interpretado por Derek Jacobi en la película de 1998 Amor es el Diablo, es igualmente famoso por su bebida, juego, sus relaciones turbulentas, su famosamente desordenado estudio, y por el brindis mordaz a menudo atribuido a él: "Champán para mis amigos reales, dolor real para mis amigos falsos".
