When playing Texas Hold 'Em Poker, Omaha Hold 'Em Poker, or any game that involves chips as currency, it's vital to know what each chip is worth. Unless you are at a casino, most chipsets are unmarked.

While there is no official rule for how chip values are assigned, there are common standards used for most poker events. A complete basic set of poker chips used in private poker games or other gambling games is usually comprised of white, red, blue, green, and black chips. Larger, high-stakes tournaments may use chipsets with many more colors.

Whatever value system you use, make sure all your participants understand the denominations and values of each type of chip. A good way to do this is to write down and post the denominations so that everyone can see them. Marking the chips themselves by writing the denominations on them is generally discouraged.

Basic Poker Chip Colors and Standard Values

White, R\$1

Pink R\$2.50 (rare for poker; sometimes used in black-jack)

Red, R\$5

Blue, R\$10

Green, R\$25

Black, R\$100

Yellow,R\$1000 (sometimes burgundy or gray)  
Light Blue,R\$2000  
Brown,R\$5000

There are some variations to these denominations (e.g., green is occasionally played as R\$20).

#### When Hosting a Poker Event

If you are hosting a poker event with up to 10 players, experts suggest that you have about 500 chips in three or four basic colors. In the event that you are hosting a larger game involving up to 30 people, a collection of 1,000 chips in four or five colors is recommended.

If you are putting together a set of chips to run your own games, it is recommended that you keep the number of different colors fairly low, and assemble your collection so that you have the most chips in the lowest denomination with progressively smaller numbers of chips as the denominations climb. For example, if you are assembling a set of four chip values of R\$1,R\$5,R\$10, and R\$25, the number of chips by ratio should be 4:3:2:1. For a set of 500 poker chips, for example, you should have 200, 150, 100, and 50 chips in white, red, blue and green, respectively.

#### Casino Chips

Casinos usually have custom-designed chips with the monetary value and the name of the casino printed or engraved on the face. The chips may be multi-colored and stylized with patterns. The color-coding may follow the values noted above, or individual gambling areas or casinos may have their own unique color-coding systems.

#### Atlanta Casinos

Most casinos follow the basic primary color-coding values for white, pink, red, green, and black chips, with the addition of yellow chips at R\$20, and blue chips valued at R\$10.

#### Las Vegas

These casinos also follow the basic primary color coding but also add R\$20 chips. The poker room at the Wynn casino also includes brown chips valued at R\$2 and peach chips valued at R\$3.

#### California

There are no legal mandates on gaming chip colors in California, but there is a common color coding used in most organized games:

\$1: Usually blue, but varies

\$2: Green

\$3: Red

\$5: Yellow

\$10:

Brown

\$20: Black

\$25: Purple

\$100: White (sometimes oversize)

\$500: Brown, gray (often oversize)

High-Value Casino Denominations

Chip values above R\$5,000 are rarely seen by

the public in casinos, since such high-stake games generally are private affairs. For very high-stakes games, casinos may use rectangular plaques that are about the size of a playing card. In casinos where high-stakes gambling is allowed in public areas, there may be plaques in denominations of R\$5,000, R\$10,000, R\$25,000, and higher. These casinos are mainly found in Nevada and Atlantic City.

History of Poker Chips

Gambling games

through history have always made use of some form of marker to represent cash or other forms of currency. Standardized betting chips like the type we now know came into use during the early 1800s.

Saloons and gaming houses in the West used engraved pieces of bone, ivory, or clay as chips in their house-run games. These early chips were easy to copy, though, so by the 1880s, commercial companies were commissioned to manufacture customized clay chips for gaming venues. These chips were carefully stylized to make them particular to a betting establishment, and therefore hard to forge.

In modern

casinos, the chips are custom designed and manufactured, and many still contain a large percentage of clay in their composite material. Some casinos use ceramic chips. Weight, texture, design, and color are very carefully controlled, making them harder to counterfeit than paper currency. Some casinos even embed their gambling markers with microchips, making them virtually impossible to copy.

**Vivienne Westwood: Vestido de tafetán de Christie's subasta la guardarropa personal de la diseñadora**

Un vestido de tafetán de la colección 3 Escala de Vivienne Westwood de 1999, con una envergadura similar a la de una aeronave ligera, es una de las 3 piezas más impresionantes que saldrán a la venta en Christie's en junio, parte de una subasta de la guardarropa personal 3 de Dame Vivienne Westwood.

La prenda pertenece a la colección Escala de 1999 y, aunque es espectacular, solo es una pequeña muestra de las más de 200 prendas de moda, joyas y accesorios que lucía la difunta diseñadora, activista y musa 3 del punk en ceremonias de premios a lo largo de las décadas.

## Una colección sin precedentes

Adrian Hume-Sayer, director de colecciones de 3 Christie's, dijo: "Esta subasta es única y sin precedentes; la guardarropa personal de arguably Britain's greatest ever fashion designer es 3 increíble. Es una especie de una vez en la vida."

Las piezas han sido seleccionadas por Andreas Kronthaler, esposo de más 3 de 30 años de Westwood, así como socio de diseño y director creativo de la marca Vivienne Westwood. Discutió la 3 idea de organizarlo con Westwood en las últimas semanas antes de su fallecimiento a los 81 años, en 2024.

## Desde las 3 tempranas colecciones de Westwood

La prenda más antigua data de la colección otoño/invierno 1983-84 de Westwood, Brujas, inspirada en parte en 3 los dibujos de temática de Keith Haring. La prenda naval presenta una falda con una lámina transparente colocada estratégicamente por 3 debajo de la línea de las bragas.

## Activismo y moda

Otra prenda, de la colección de propaganda de primavera/verano 2005-06 de Westwood, 3 impresa con lemas como "NINSDOL", que la diseñadora dijo que significaba nacionalismo idolatrado, distracción sin parar y organización de la 3 mentira, y "¿Quién coño necesita arte?"

Las prendas excéntricas y antiestablecimiento de Westwood, lucidas por figuras como 3 Pharrell Williams y Theresa May, encontraron en la diseñadora misma su mayor y más encantadora musa. La gran mayoría de 3 las prendas que saldrán a la venta son looks completos como los lucía Westwood misma, no prendas individuales.

El desgaste y 3 la personalidad son parte de la "tormenta perfecta" de la subasta, donde algunas prendas incluso siguen teniendo insignias, "botones y 3 alfileres y cosas así", según Hume-Sayer.
