Football league season

The 2016 Campeonato Paulista de Futebol Profissional da Primeira Divisão - Série A1 was the 115th season of São Paulo's top professional football league.

Format [ edit ]

In the first stage the twenty teams are drawn, with seeding, into four groups of five teams each, with each team playing once against the fifteen clubs from the other three groups.

After each team has played fifteen matches, the top two teams of each group qualify for the quarter-final stage.

After the completion of the first stage, the six clubs with the lowest number of points, regardless of the group, will be relegated to the Campeonato Paulista Série A2.

If the four clubs with the lowest number of points are from the same group, the best third-placed club from the other groups will qualify for the quarter-final stage.

Quarter-finals and semi-finals are played in a single match, with the best placed first stage team playing at home.

The finals are played in a two-legged home and away fixture, with the best placed first stage team playing the second leg at home.

In case of a draw in any knockout stage, the match will be decided by a penalty shoot-out.

Tiebreakers [ edit ]

The teams are ranked according to points (3 points for a win, 1 point for a draw, 0 points for a loss).

If two or more teams are equal on points on completion of the group matches, the following criteria are applied to determine the rankings:

Higher number of wins; Superior goal difference; Higher number of goals scored; Fewest red cards received; Fewest yellow cards received; Draw in the headquarters of the FPF.

Retirar dinheiro

"Multiplayer" redirects here. For other multiplayer games, see Game § Multiplayer

A multiplayer video game is a video game in which more than one person can play in the same game environment at the same time, either locally on the same computing system (couch co-op), on different computing systems via a local area network, or via a wide area network, most commonly the Internet (e.g. World of Warcraft, Call of Duty, DayZ). Multiplayer games usually

require players to share a single game system or use networking technology to play together over a greater distance; players may compete against one or more human contestants, work cooperatively with a human partner to achieve a common goal, or supervise other players' activity. Due to multiplayer games allowing players to interact with other individuals, they provide an element of social communication absent from single-player games.

History [ edit ]

Some of the earliest video games were two-player games, including early sports games (such as 1958's Tennis For Two and 1972's Pong), early shooter games such as Spacewar! (1962)[1] and early racing video games such as Astro Race (1973).[2] The first examples of multiplayer real-time games were developed on the PLATO system about 1973. Multi-user games developed on this system included 1973's Empire and 1974's Spasim; the latter was an early first-person shooter. Other early video games included turn-based multiplayer modes, popular in tabletop arcade machines. In such games, play is alternated at some point (often after the loss of a life). All players' scores are often displayed onscreen so players can see their relative standing.

Danielle Bunten Berry created some of the first multiplayer video games, such as her debut, Wheeler Dealers (1978) and her most notable work, M.U.L.E. (1983).

Gauntlet (1985) and Quartet (1986) introduced co-operative 4-player gaming to the arcades. The games had broader consoles to allow for four sets of controls.
