In this article we explain all you need to know about Bwin Cash Out including a step-by-step guide on how to use the feature as well as the key terms you should know about.

Bwin provide Cash Out betting options for punters, allowing them to have more control over their betting experience and risking less.

What Is Bwin Cash Out?

Bwin Cash Out enables punters to collect their winnings before the outcome of a single or multi bet is not yet determined. This allows you to reduce risks, as well as take full control over your game. The 'Cash Out' amount is calculated based on the current odds and is subject to change depending on when you chose to accept a 'Cash Out'. Bwin offers two different scenarios to further explain the Cash Out option:

You

place a EUR 10 live bet on the Spanish national team to win against Italy at odds of 2.40.

– Scenario 1: after 30 minutes, Spain scores a goal and takes the lead (1:0).

Since this increases the likelihood of your bet being won, we offer Cash Out of EUR 18.

You have the option to either take a sure EUR 18 or wait until the end of the game, hoping Spain will still be in the lead then.

– Scenario 2: after 30 minutes, Italy

scores a goal and takes the lead (0:1). Since it seems more likely now that your bet

will be lost, we offer an Cash Out of EUR 6. You can now take EUR 6 to make sure that not all your stake is lost or hope that the run of play will change.

The Cash Out

option can be found in the “My bets” section of the bet slip.
