Safest Casinos A list of safe online casinos for roulette Greg Walker  
Greg Walker 11 Dec  
2024

When you're playing roulette online 5 for real money you don't want to have to worry about safety. There's nothing more frustrating than wondering if the 5 last spin of the wheel was legit or not.

I decided to put this quick guide together to cover as much 5 as

I can about safety, security and reliability in online roulette as I could. So the next time you're betting 5 big on an evens bet (you know, like when you stick everything you've got on red) you can do it 5 knowing that result of the spin will be honest.

My

favorite casinos for reliability and safety.

These are my personal favorite places 5 to

play roulette online. I have absolutely no worries about the reliability of the results

and the safety of my 5 money at these online casinos.

I've played at each one and can

testify to their dependability.

Rank Casino Rating Payment Methods Payout 5 Time Links No  
casinos available :(

What makes a roulette casino "safe"?

There are a couple of things

that contribute to overall 5 safety:

Game fairness — Reliable results that aren't rigged

or fixed. Money safety — Secure deposit and withdrawal methods.

1. Game fairness.

We've

5 all questioned the results of games when things go our way.

Did the dealer get

suspiciously lucky after making 21 with 5 a starting hand of 15 when we stuck on 20 in  
blackjack?

Did I go for far too long without hitting 5 any sort of win on that slot  
machine?

Was it a bit unusual for the result to be red five times 5 in a row when I was  
betting on black in roulette?

And in some cases, the games aren't always fair.

However,

those 5 cases of confirmed unfair games are extremely rare. Although, there have been  
times where an unlucky streak at some casinos 5 has felt too unlucky to be true, but I  
obviously can't prove it. Instead I just don't play there any 5 more (and I don't  
recommend them on this site).

Impressively, the online roulette casinos listed on this

page are the ones 5 that I've never questioned the reliability of. I can just spin the  
wheel and enjoy the results, rather than quietly 5 become frustrated by the nagging  
thought of "is this roulette wheel fair?"

2. Money safety.

Unfortunately, online

casinos are often seen in 5 a bad light by those that are not familiar with gambling  
online. For example, if you mentioned online casino gambling 5 to your Grandma you could  
be sure that she'd try and warn you about all the "risks", despite never even 5 having  
clicked on a casino website in her life.

The fact of the matter is that the vast

majority of online 5 casinos are actually upstanding and trustworthy. In fact, I'd feel  
safer depositing and playing roulette online for real money at 5 a casino like Ignition  
than I would buying lotto tickets from a convenience store. I've never been  
shortchanged by Ignition.

There 5 are a few lesser-known casinos out there that I'd be

skeptical about, so that's why I wouldn't list them on 5 this site. As a general rule of  
thumb though, stick with the big companies and brands that you recognize and 5 you'll be  
fine.

I've deposited and withdrawn thousands of dollars from the casinos listed here

and I've not once had a 5 problem, and nor do I expect to. If anything changes, I'll  
update this page.

CasinoMeister is an excellent forum made by 5 player advocates for

discussing the safety of different online casinos. It's worth browsing around if you  
get the chance.

The safest 5 bet in roulette.

If you're playing European roulette, all

the bets are as safe as each other.

Each and every kind of 5 bet in European roulette has the exact same house edge of 2.70% , so it doesn't matter where or how 5 you bet as the probability of winning or losing stays the same.

Sure, you could bet on both red and

black 5 for an almost guaranteed return, but that doesn't make it "safe". You're still losing 2.70% of that bet over the 5 long run (on the odd occasion green rolls in and you lose both bets), so it's no "safer" than placing 5 a straight bet on 36, even though it feels riskier to bet on less-likely outcomes.

It also doesn't matter if you're 5 placing

multiple bets either. One single bet has the same house edge as a bunch of random bets all over 5 the table. So even if you have absolutely no strategy you're not actually making any mistakes or worsening your odds 5 of winning.

Tip: If you want to place a bet

with the highest probability of success, then place an even-money bet 5 (e.g. red/black, even/odd or high/low). These all come in 48.6% of the time.

The only "unsafe" bet is

the five number 5 bet in American roulette.

Betting on 0, 00, 1, 2, 3 in American

roulette has the worst house edge of any 5 type of bet in roulette of 7.89% . This is 1.5x worse than any other bet in American roulette and 5 3x worse than any bet in European roulette.

So overall, if you want to place the safest bets in roulette, just

5 play European roulette (or French roulette) and bet wherever you like. Avoid the games with higher house edges like American 5 roulette ( 5.26% ) or Mini roulette ( 7.69% ).

How do you know if a roulette wheel is safe?

You don't. 5 Not from just looking at it

or from having a few spins anyway.

And that's why it can be scary to 5 play at an online

casino. But at the same time, how can you be sure that the roulette wheel at 5 your local casino isn't rigged in some way? How do you know that next week's lotto draw is 100% fair?

Again, 5 you don't. But you can be sure that if the results weren't 100% fair you would hear about it.

It's the 5 same thing for the online casinos. The big sites like

Ignition Casino service thousands of players, so if the results 5 were questionable you could be sure that they would be investigated. And it's not like it would be hard to 5 check either; just keep spinning the wheel and track the results to see if they line up with the mathematical 5 probability of roulette results.

So as it is in life, you can't

really be sure about anything. However, at the big 5 online casinos I'm so confident that they're fair and trustworthy I'd bet money on it. (Pun intended)

Test for yourself.

If

you 5 get really bored you could just track the results yourself and see if they line up with the expected results.

For 5 example, lets say you're spinning a European roulette

wheel and want to track the number of times red/black appears. In 5 a perfect world, over 37 spins you would expect to see black 18 times, red 18 times, and green 1 5 time.

Probability isn't perfect though, so you'd have to do hundreds of thousands of trials to obtain a reliable trend. But 5 on average, your results should look like

this:

Red Black Green 48.64% 48.64% 0.027%

How many trials/spins would allow for

accurate results? 5 I'm not sure exactly, but we're talking thousands before the results converged on the expected results. It's connected to standard 5 deviation.

Some bets in American Roulette have an even higher house edge than the 5.26% average. For example, a bet on the Five Numbers (0, 00, 1, 2, 3) carries a house edge of 7.89%. Outside bets in roulette carry the lowest risk. They cover more numbers yet the payouts are lower (1/1 for Red, Black, Odd, Even, 1 18, 19 36).
