There are countless reasons for the success of this classic casino table game. One of its defining

characteristics is that there's something in it for every kind of player imaginable.

For starters, every spin is a chance to play the game in a completely different way. Then, there's

the dynamic gameplay, which is further enhanced by the social element that comes with sharing

the roulette table with other players.

Above all, roulette is an extremely exciting casino game, full of anticipation and expectation, in which you can win truly huge amounts of money!

Play online mobile roulette for real money

Digital technology opened the way for many new takes on online roulette. Most of these games can be played directly from a browser on your desktop or mobile device.

There are several free roulette games online, including the demos you can play on the LadyLucks review pages. But of course, it's always more interesting to play for real money at online casinos, since it's the only way to enjoy the thrill of the full experience. Not to mention that it's the only way to win money by playing the game.

Live roulette games recreate the experience of playing at land-based casinos, complete with live dealers and fully immersive environments.

Types of roulette: European, French & American

The fundamental principles of the roulette game remain the same across all types: you bet on the outcome of the spin of the wheel, which is defined by the number on which the ball lands. This said, there are some differences which affect your chances of winning.

European roulette

European roulette is the most popular and well-known variation of the game. It's also the one most widely available at online casinos. This game has 37 numbers from 0 to 36, which puts the house edge at 2.7%.

French roulette

French roulette version is similar to the European, with the addition of the en prison (in prison) rule. This rule means that when the ball lands on zero, players who made even-money bets (red/black, odd/even, 1-18/19-36) get half of their money back, in what is called La Partage (the split).

American roulette

American roulette has an extra double-0 pocket, which brings the total number count up to 38.

This brings the house edge up to 5.26%. The numbers have a different layout on the roulette wheel, which impacts the possible bet types and combinations. Given the high house edge, American roulette is really not for people who don't like high risks.

That said, if you play with Atlantic City rules, the half-back rule from French roulette applies when the ball lands on 0 or 00, which brings the house edge down to 2.63%.

Live roulette

The best thing about playing live roulette online is that you can live the full casino experience from the comfort of your own home. Live roulette games have professional dealers in studios that recreate the setting of a casino, which creates a fully immersive environment. What's more, you can interact with the dealers and share the experience with other players through live chat.

Mobile roulette

There's nothing as comfortable and practical as playing roulette with a mobile phone or tablet. All the best games are available to play on Android and iOS (iPhone/iPad) devices. And the best casino sites are all completely optimised to play directly from a browser, without downloading any apps or software.

Roulette: rules and bets

Winning at the roulette table is as simple as guessing the number, or a type of number, on which the ball will land at the end of the spin, but there are still some basic and specific rules to know.

A good roulette strategy goes beyond increasing your chances of winning. The most important thing about betting strategies is that they help you to keep a cool head, making for a more fun and entertaining experience at the table.

There are several types of bets that you can make. Each one carries its own risks and rewards, so it's important to understand them in order to maximise winning bets and minimise losses. We'll take a quick look at the most popular ways to bet, but there are many more that we'll cover in a more detailed article.

Straight up bets

Straight up bets on a single number have the lowest odds of winning, which is why they pay the most: 35x your wager. This means that a bet of £10 on a winning number will yield £3500.

Outside bets

Outside bets take place on the outer perimeter of the table. These bets cover pre-defined sets of numbers (columns and dozens) or types of number (odd/even, red/black).

Bet Description	Pay	Columns
12 numbers on a vertical column	2:1	Dozens
12 consecutive numbers	2:1	High/Low
Any number between 1-18 or 19-36	1:1	Odd/Even
Odd or even number	1:1	Red/Black
Pocket colour	1:1	

It's worth noting that the high/low, odd/even and red/black bets do not have 50/50 odds, because the 0 pocket is green and gives the house a higher edge.

Inside bets

Inside bets take place in the grid of numbers. It's possible to bet on as many numbers as you like, which increases your chances of winning but decreases the payoff. There are several predefined combinations, from simple splits to traditional call bets.

Bet Description	Pay	Straight up
1 number	35:1	Split
2 adjacent numbers	17:1	Street
3 adjacent numbers (row)	11:1	Corner
4 adjacent numbers (square)	8:1	Basket/First four
0, 1, 2, 3 (European roulette)	6:1	Five-number bet
0, 00, 1, 2 & 3 (American roulette)	6:1	Line
6 numbers (two rows)	5:1	Snake bet
1, 5, 9, 12, 14, 16, 19, 23, 27, 30, 32, & 34	2:1	

Call bets

Call bets are only available in European and French roulette. They are predefined sets of numbers that were traditionally "called out" at roulette tables in land-based casinos, to keep things simple.

The best online roulette games let you make call bets using the game controls. The terms we use are original French names, which is a testament to the strength of the tradition.

Bet	Numbers	Chips
Jeu zéro (zero game)	12, 35, 3, 26, 0, 32, 15	4
Voisins du zéro (neighbours of zero)	0, 2, 19, 21, 22, 25, 3, 4, 26, 28, 29, 32, 35, 7, 12, 15, 18	9
Tiers du cylindre (third of the wheel)	27, 13, 36, 11, 30, 8, 23, 10, 5, 24, 16, 33	6
Orphelins (orphans)	17, 34, 6, 1, 20, 14, 41, 9

Martingale and other roulette strategies

There are several mathematical strategies to win at roulette. They are all based on the idea that, if the roulette spins an infinite number of times, the ball will eventually land on the desired number or number type (e.g., colour). This would theoretically allow players to recoup their losses and turn a profit.

The most well-known example is the Martingale system. This method has players bet on a binary outcome, such as red/black or odd/even, and doubling their bet every time they lose. Assuming a bankroll that allows for infinite spins, players would eventually turn a huge profit on the sum of all the bets. This is extremely risky, as it's very easy to end up chasing losses and quickly burning through a bankroll.

Be careful! These roulette strategies and methods are forbidden at casinos. Any players caught using them will lose all their money and see themselves banned from the sites.

Online casinos have very strict terms and conditions (T&Cs). Digital technology allows them to easily detect players who break the T&Cs. We strongly urge you to refrain from using forbidden table game strategies, as it can have very serious consequences.

But if you want to go further, there are some excellent books on how to become a roulette expert.

Roulette tournaments: How do they work?

Roulette tournaments pit players against each other instead of against the house. They take place at land-based casinos more frequently than online. These events are tailored for more experienced players, since the intense competition requires a cool head and a strategic approach. Players pay an entry fee and receive the same amount of chips to play for a predefined amount of time or spins. Usually, only the top player takes a prize, even if several contenders win more money during play. The prizes and rules are specific to each casino and tournament, so it's important to read them carefully.
