The M-Concept was introduced by Dan Harrington in his book "Harrington on Hold'em – Volume II: The Endgame". Dan Harrington is a well known professional poker player and two times World Series of Poker bracelet winner, including winning the WSOP Main Event of 1995. The M-Concept/Zone System lets you determine the status you're in when playing a poker tournament. According to your calculated (effective) M, you can find yourself in one of the predefined zones, where different strategies apply.

Theoretically, the M gives you an estimation of how many orbits you will last without contributing any chips into a pot, except for paying the necessary blinds and antes.

The poker M-Calculator below the content shows you exactly where you stand in a tourney, according to several factors and the results display your M, your effective M (which comes in effect with less than 10 players at a table) and the zone you're in.

The criteria to calculate your M is as follows:

$$M = \frac{\text{Stack}}{\text{BB} + \text{SB} + (\text{Ante} * \text{Players})}$$

Comparable playing concepts exist, but professional poker players tend to lean towards the M-Concept more than the others.

The assassination of Ismail Haniyeh, one of the main leaders of Hamas in the capital of Iran, threatens to aggravate the tensions in the Middle East and could even lead to a possibility of travel in the negotiations to end the war and for Gaza.

Haniyeh was assassinated when he was in Teheran with other high-ranking officials of the "Axis of Resistance" - which includes Hamas in Gaza, Hezbollah in Lebanon and the Houthis in Yemen - to assist in the election of the new president of Iran.

The Iranian state media blamed the assassination on Israel. The death of Haniyeh, a political leader of the militant group who occupied a key position in its negotiations and high-level diplomacy. The Israeli army did not do

This is what we know:

The attack occurred at a tense moment

Haniyeh was assassinated less than a day after Israel launched an attack against the commander of Hezbollah in a suburb of Beirut and in retaliation for a bombing of the Fin De Semaine poker game. A city controlled by the Jewish state in which 12 children and adolescents were killed.

The assassination in Teheran leaves Israel exposed to possible reprisals from two fronts: Hamas and Hezbollah for their actions against its leaders, and Iran for the assassination on its border... Before the attacks, it was expected that Israel and Hamas would reach a point of agreement to access a ceasefire in Gaza and that you could make 10 months with the December of miles of deaths that have provoked a crisis that is becoming increasingly deep in the conflict.

He was one of the negotiators in the talks that are being held between Israel and Hamas where they act as mediators. Egypt, Qatar and the United States (in order to end the Gaza war and the exchange of captives taken in the attack directed by Hamas against Israel).

The place of the death, in the capital of Iran

Haniyeh led the political faction of Hamas from exile in Qatar, where he was found since 2024. Israel maintains informal relations with Qatar and has not attacked its leaders of Hamas in that country.

For Iran, the fact of having failed to protect its ally in Teheran is a serious violation of its security. Haniyeh had met on Tuesday with Ayatollah Ali Khamenei (the supreme leader of Iraq), a point before his destiny!

Iran will celebrate at the first hour of Wednesday an emergency meeting of the Supreme Council of National Security in the residence of the supreme leader. The Iranian state television, which reflects the opinion of the supreme leader and the government, said that the

The assassination would put the conversation at high risk

At the end of last week, officials had affirmed that they were making progress in the negotiations between Israel and Hamas. It has taken a month to achieve a ceasefire in the Gaza war (in spite of the persistent discrepancies on various issues).
