[gratis roulette](#)

Some bets in American Roulette have an even higher house edge than the 5.26% average. For example, a bet on the Five Numbers (0, 00, 1, 2, 3) carries a house edge of 7.89%. Outside bets in roulette carry the lowest risk. They cover more numbers yet the payouts are lower (1/1 for Red, Black, Odd, Even, 1 18, 19 36).

**Sophie Hunter: a defender of the magnificent salt marshes**

Salt marshes, those desolate wastelands of old novels, are often overlooked and undervalued. However, theatre-maker and opera director Sophie Hunter aims to change this perception with her new performance installation, *Salt of the Earth*. This installation highlights the importance of salt marshes as crucial carbon-sequestering coastal guardians that provide natural flood defenses and biodiverse habitats.

The performance, which may tour globally, will also fund a salt marsh PhD at the University of Padova.

## **The story of Lot's wife reimagined**

In *Salt of the Earth*, Hunter reimagines the story of Lot's wife, giving her a name, Erith, and a new agency. Erith chooses to look, stay, and pay attention to the marshes she loves, rather than forgetting and moving on. This act of potential sacrifice is at the heart of the installation.

The 45-minute installation, which will premiere in a former salt warehouse in Venice, features a monologue by Lot's wife, an installation film, and a choral climax. It asks the audience to consider the importance of bearing witness and paying attention to the natural world.

## **Personal connection and environmental activism**

Hunter's attention to salt marshes is rooted in her childhood holidays on the estuaries of the Isle of Wight. When she visited Venice, she was drawn to the vast lagoon surrounding the ancient city and its salt marshes. With more than three-quarters of the salt marsh already destroyed due to development, Hunter aims to raise awareness and inspire action through her artistic interventions.

The performance is part of a larger partnership with local activists in Venice, including We Are Here Venice and The Tidal Garden. It will also fund a salt marsh PhD at the University of Padova. Hunter plans to take the installation on a global tour to connect with other local charities and communities close to salt marshes around the world.

## **Female scientists and environmentalists as inspirations**

Hunter finds inspiration in female scientists and environmentalists, such as Rachel Carson, Sylvia Earle, and South American Indigenous activist Nemonte Nenquimo. Their work and activism highlight the importance of the natural world and the need for protection and preservation.

Ultimately, Hunter aims to create works that help people rediscover the natural world, fostering a sense of wonder and connection that lasts a lifetime.
