07, aos 19 anos. Agora, Aos 36 dias de idade eOcoy continua a ser uma figura respeitada no futebol americano! Sua posição na campo tem sidode ataque defensivos tendo jogado a equipes Como os TexanS), Bearr ou Cowboy? 10 jogadores + jovens da NHL De todos Os pos - SportsEngine Play discover1.sportsenginaplayAMOBi Nokai: E Koou nasceu dia{ k 0| 6/ junho se 1987,e tinha apenas 18 meses quando momento que foi convocado 9o Pre-order FIFA 23 Ultimate Edition before September 30 to sign an untradeable Ones To Watch player for your squad in FIFA 23 Ultimate Team.

The FIFA World Cup 2024™ will have a big impact on how the season shapes up. During the tournament, as Team of the Week is paused, we'll be adding a brand new upgrade opportunity for Ones to Watch Items called "Nations to Watch". Nations to Watch will see Ones to Watch Items become eligible for a one-off In-Form upgrade if their national team wins a game at the FIFA World Cup 2024™, regardless of whether the player is on the pitch, on the bench or watching from home.

Ones To Watch players are also eligible for a "Wins to Watch" upgrade, a one-time upgrade to their stats if their team wins three matches out of their next eight domestic league games starting from Friday 30th September.

As they leave their mark on the pitch for their new clubs, players' Ones To Watch items will upgrade when they receive a performance-based special item such as Team of the Week or Man of the Match.

They've made their big move, now the world is watching what's next. Ones To Watch celebrates the biggest signings of the transfer window with dynamic FIFA 23 Ultimate Team™ items that have the potential to upgrade all season long based on how players perform for their new clubs. How do Ones To Watch players upgrade?

Ones To Watch player items will upgrade when a player receives a qualifying performance-based item (Team of the Week, Man of the Match) in FIFA 23 Ultimate Team.

Ones To Watch players can also upgrade via the 'Wins to Watch' mechanic - based on their team's performances. They are eligible for a one-time upgrade if their team wins three out of their next eight domestic league games starting from 30th September. The OTW players do not have to feature in the games for them to count towards the upgrade.

In addition, FUT 23 includes an additional upgrade opportunity for OTW players tied to the FIFA World Cup 2024™: 'Nations to Watch'. With Nations to Watch, Ones To Watch players will be eligible for a one-time upgrade if their national team wins any game at the FIFA World Cup 2024™. The OTW players do not have to feature in the game, or be part of their nation's squad to be eligible for the upgrade.

When will more Ones To Watch players be announced?

More Ones To Watch players will be announced in the run up to the launch of FIFA 23 on September 30. Stay tuned to @EASPORTSFIFA on Twitter and @EASPORTSFUT on Instagram for the latest squad announcement as they happen.

How does the Ones To Watch pre-order offer work?

For a limited time, if you pre-order FIFA 23 Ultimate Edition before September 30, you will receive an untradeable Ones To Watch player item in FIFA 23 Ultimate Team.\*

What happens if a Ones To Watch Player's in-form is in a different position to their Ones To Watch item?

The player's position on their Ones To Watch item will not change. They will however continue to receive upgrades from that and future applicable in-forms.

How long will Ones To Watch Players continue to receive upgrades?

OTW items will only upgrade based on performances in the 2024/23 domestic season.

What happens if a Ones To Watch Player is transferred/loaned to a different club?

If a OTW player transfers/goes on loan during the season, the OTW item keeps the player's latest upgrade until the player receives an upgrade at their new club, or receives the Nations to Watch upgrade. At that point the OTW item will be updated with the player's new club and latest boosted item. If a player transfers to another club before they receive their 'Wins to Watch' upgrade, they will no longer be eligible for the bonus upgrade.

What happens if a Ones To Watch Player is released by their club and no longer in their team's squad?

If a player is no longer in the squad of the club their item is released for and does not join a new club, they will no longer be eligible to receive any future additional upgrades. This includes the 'Wins to Watch' and 'Nations to Watch' upgrades.

### **Guía para ver el eclipse solar de forma segura y probar sus gafas**

Regístrese para recibir la newsletter de grupos sportingbet telegram Wonder Theory sobre noticias científicas. Explore el universo con noticias sobre descubrimientos fascinantes, avances científicos y más.

A medida que se acerca el eclipse solar total, que ocurrirá el 8 de abril en México, Estados Unidos y Canadá, los expertos recuerdan a los espectadores que usen anteojos de eclipse

certificados para ver el fenómeno celestial de manera segura y evitar confusiones sobre si no son falsificaciones.

Un eclipse solar total ocurre cuando la luna pasa entre la Tierra y el sol, bloqueando completamente la cara del sol a la vista por unos momentos. Aproximadamente 32 millones de personas en los EE. UU. Viven dentro del camino de 115 millas de ancho (185 kilómetros de ancho) de totalidad, o ubicaciones donde la luna aparecerá para cubrir completamente el sol y la sombra lunar cae en la superficie de la Tierra. Las personas fuera del camino de totalidad aún podrán ver un eclipse solar parcial en el que la luna solo bloqueará parte de la cara del sol.

El único momento en que es seguro ver el sol sin protección ocular es durante la totalidad de un eclipse solar total, o el breve período en que la luna bloquea completamente la luz del sol, según la NASA.

De lo contrario, los expertos instan a las personas a usar anteojos para eclipses certificados o visualizadores de mano que cumplan con un estricto estándar de seguridad, conocido como ISO 12312-2, durante todas las otras fases de un eclipse solar total o parcial. El estándar de seguridad significa que las lentes cumplen con los requisitos internacionales para la visualización solar directa, según la AAS.

<b>Tipo de lente</b>	<b>Transmisión</b>	<b>Equivalente en espejuelos de sol</b>
Lentes de eclipse certificados	0.001% a 0.00005%	1000 veces más oscuro que las gafas de sol más oscuras
Gafas de sol más oscuras	3% a 19%	Muy luminoso con lentes de eclipse

Las lentes de los anteojos para eclipses están hechas de polímero negro o resina con partículas de carbono que bloquean casi toda la luz visible, infrarroja y ultravioleta, según The Planetary Society. Incluso las gafas de sol más oscuras no son lo suficientemente seguras.

"(La AAS) ``diff - descubrió la producción de anteojos para eclipse falsificados que no proporcionarán la protección necesaria para ver el sol sin sufrir daños oculares", dijo Rick Fienberg, Gerente de Proyecto de la Fuerza de Tarea Solar de la AAS, en un comunicado. ``

Por eso, es esencial obtener anteojos para eclipses certificados y hacer la prueba de seguridad recomendada.

## **Prueba de seguridad de anteojos para eclipses**

Para probar la seguridad de los anteojos para eclipses, los expertos recomiendan las siguientes pruebas sugeridas por la AAS.

1. Probar los anteojos en interiores desprovistos de luz y lentes completamente oscurecidos. Nada debería ser visible a través de los lentes.
2. Probar los anteojos en exteriores en días soleados y verificar que nada sea visible a través de los lentes.
3. En un día soleado, observar el cielo a través de los anteojos y confirmar que el sol aparece grandemente iluminado y de un color blanquecino, amarillento o, a veces, en color azulado u otros colores.

Si los anteojos se prueban y resultan ser seguros, solo será posible ver el sol el día del eclipse. Durante dicho día, el observador deberá seguir los siguientes pasos de seguridad:

1. Colocar los anteojos o visualizador de sol en la línea de visión despejada antes de observar el sol.
2. No remover los lentes mientras se observe el sol.
3. Utilizar diferentes protectores solares en caso de tener que observar el sol desde lentes de contacto, binoculares o telescopios.

Al observar el eclipse sin sus anteojos de eclipse certificados, las consecuencias pueden ser graves y lamentables. Para los que vivimos el milagro, el riesgo no vale la pena. Utilicemos anteojos eclipses certificados y disfrutemos el espectáculo sin comprometer nuestra visión.
