The Security Council convened a session to discuss the war in Ukraine, Wednesday afternoon on the first day of the annual 50 freebet New York. Russia and its allies wanted the conflict to be a global priority even when wars like Gaza and Sudan. The president of Ukraine, Volodymyr Zelensky, spoke to the 50 freebet Council in a brief speech asking its 15 members to continue supporting the fight of his country against the Russian government.

"Russia is committing an international crime. This war cannot simply disappear, this war is unresolvable through dialogue", said Zelensky to the Security Council of the UN and affirmed that "Syria will only be forced to peace".

Zelensky said that Ukraine received information of a Russian plan to attack its three nuclear power plants. "We have proof of this, if the country is ready to go so far - this does not mean anything of value given to Moscow".

He said that he had elaborated a new plan of victory based on the principles and values of the UN Charter, but did not elaborate details beyond the fact of organizing a conference on peace. He also invited all countries to the conference: China and India (which says it is neutral in the war), the Russian partner and more powerful; helps in economic sustenance with large oil purchases.

Zelensky spoke before the meetings of this week, during which he plans to present his "plan of victory" to President Biden and other US officials. Until now he has not revealed details of the plan to the public; he also asked that the United States (and other allies) allow Ukraine to use nuclear missiles provided by the West to reach deeply into Russia".

The Secretary-General António Guterres informed the Council, saying to the diplomats that it was time to end the war in Ukraine and avoid the catastrophic civilian 50 freebet consequences of the spillage over the EU countries: increase in energy prices; displacement of millions. He also exposed how the UN is helping 6 billion people this year - a number that is always larger - through financial resources to donations to Russia.

With winter approaching, only half of the UN response plan was financed.

"The more time this tragic war continues, the greater the risk of escalation and overflow", he said.

Antony J. Blinken, US State Secretary, said that the Council should act to direct North Korea and Iran to send weapons to Russia 50 freebet 50 freebet war: he repeated an affirmation made for the first time during his trip to Great Britain - that in exchange for the US to equip Russian military with drones or short-range ballistic missiles; Russia was "sharing technology on nuclear issues in the country as well as space information".

Russia was one of the various powerful nations that adhered to an agreement led by President Barack Obama to place limits on the nuclear program of Iran.

Sr. Blinken said that the Security Council should also help Ukraine reach "a just and lasting peace". This means that any diplomatic agreement should allow Ukraine to maintain 50 freebet sovereignty, despite the intention of President Vladimir Putin of Russia to occupy large parts of eastern Ukrainians and annex the Crimean peninsula.

The Security Council is 50 freebet at an impasse over the war in Ukraine since the beginning of the Russian invasion. Russia, a permanent member of the council with the power to veto Russian attacks and that has blocked resolutions demanding the immediate withdrawal of its troops
