Poki Games is a free online gaming website with over 5 crore players a month. It offers a wide variety of games, including popular mobile titles such as Subway Surfer, Temple Run, and Candy Crush Saga. So, if you're looking to pass the time by playing simple games on the web, here are some of the best Poki games you can enjoy on any device of your choice, be it a smartphone, laptop, or PC.

Poki Games for boys

Subway

Surfers

Subway Surfers is an endless runner game first made for mobile phone's portrait screen. You can choose from different characters but the default character is named Jake. You play as Jake and you have to evade a police officer and his dog. You also have to dodge trains, trams, and other obstacles. You also get to collect coins, power-ups, special gears, etc while you are running.

How to play

Press Arrow Up to

jump, Arrow down to duck down

Press the left and right arrow keys to move to that side.

Press the Space key to activate the hoverboard.

Run as much as you can and

collect as many coins and power-ups as you can.

Candy Crush Saga

Candy Crush Saga is a

game you or even your parents must have been addicted to at some point. It is a simple tile-matching puzzle game wherein you have to match the same coloured candies to crush them. The more you match, the more you crush, and the more levels you win.

This game is

present on Poki.co.in, a Poki alternative.

How to play

You have to hold the mouse or trackpad cursor to choose a candy, then move it up/down/left/right to place it where you feel there is a match.

Sometimes, you have to try to zoom out and see the entire board to see if there's a chance of crushing multiple candies by matching a single group of candies. That gets you more points in one go.

Angry Birds

Angry Birds is a

game that propelled to so much success at one point that it got a movie based on its characters. Here you get to play as different birds, but primarily a red angry bird.

The birds are trying to protect the green-coloured pigs from eating up their eggs. So, the birds have to be slingshotted to a distance where the pigs are. You just have to ensure the slingshot is pulled and positioned in such a manner that the bird hits the pigs.

This game is present on Poki.co.in, a Poki alternative.

How to play

You press and

hold the cursor of the mouse or touchpad to control the slingshot.

You pull it as much

and in the direction that you feel would take the bird to the pigs. A dotted line shows the route the bird would take.

Super Mario and Sonic

Although we couldn't find the

original Super Mario game on Poki, we managed to find a clone called Super Mario and Sonic on Poki.co.in. You can play as Super Mario or Sonic but both are centered around the Mario game's gameplay mechanics. You run, jump and hit, collecting coins, and evading all valleys until you reach the flagmast.

This game is present on Poki.co.in, a Poki alternative.

How to play

Press the Arrow up to jump.

Press the Arrow left and right to move in that direction

Don't haste and fall into the valley or hit the turtles.

Master Chess

Chess is a universal game and the reason I picked this one is for the game graphics. You can play player vs player or player vs the CPU. You get 10 seconds to make a move. That time element adds more seriousness to the game.

How to

play

Click the chess piece you want to move.

Click where you want to move it. Of

course, you have to stick to the chess rules. You can't move them wherever you want.

Moto X3M

Press Arrow up to accelerate, Arrow down to hit the brake.

Press the

right arrow to slant forward and the left arrow to slant backwards.

leap over crevices and Arrow down to duck down from hindrances on the path.

and forth and hit it over the net. The game continues until one of the players fails to return the ball or hits it out of bounds.

How to play

Press X to hit or Z to smash the ball.

Move using W to jump, A to move backwards and D to move forward.

Football

Press X to hit the ball.

Press Z to hit a super shot.

Jump by
pressing W

Move forward using D and backwards using A.

Super Tunnel Rush

A car racing

game with a cyberpunk theme and physics-defying stunts. Accelerate but try not to fall off the track and also avoid hitting the obstacles on the way. To speed up, collect the green-coloured power-ups on the way.

How to play

Press A/D or Arrow Left/Right to move in that respective direction.

Avoid the obstacles.

Trivia

Test your knowledge in this

game. There are 3 modes:

Classic mode wherein you spin the wheel and wherever the dial lands, that will be the topic you play. So, it would be just random.

Challenge mode

lets you choose the topic and you have to answer all questions without fail.

In the

Party mode, you can compete with others.

How to play

Use the trackpad or mouse to spin the wheel or choose the topic and select the answer.

Getting Set Up

So, now the essentials are in the bag you're ready to begin thinking about the finer details of your home poker tournament. Let's take a look at everything you need to keep the tournament moving, from setting blind levels and starting stakes to poker chip distribution and tournament structure.

Stakes

Setting stakes in a home poker tournament boils down to how much the players want to play for. Ideally you want a buy-in that players will be comfortable paying for (and if rebuys or add-ons are going to be available, that should also be a factor).

Setting buy-ins too high may put off some of your invited players who are seeing your poker home game as more of a fun activity than the chance to win some prize money. Likewise, setting the buy-ins too low will probably put off players who are attracted by the opportunity to win some extra cash. It's a balancing act that depends on the players who will be playing, so bear that in mind and, however much you choose to play for, make sure everyone knows the details in advance.
