What is one of the first things you see when you walk into a casino? A roulette table!

That's because roulette is one of the most played casino games in the world and every reputable casino has a roulette table. However, over time most casino games have shifted online. So, has roulette maintained its high standards of popularity?

Certainly! No other casino game can compare with the excitement of watching the roulette wheel spin to see if the ball will land on the bet of your choice! Today, you can find various versions of roulette to play online and in physical casinos. One of these is American roulette.

Today, King Casino will explain American roulette so you know what to expect whether you play casino games online or in physical casinos!

What

Is American Roulette?

You might already know that there are 3 popular variations of this classic game of chance. These are the European roulette, French roulette, and American roulette. The American variation gained popularity amongst roulette players in the US, and today, it's played online worldwide.

Minor differences exist in all 3

variations, but the game's objective remains the same – you have to guess which number the ball will stop at! Remember, there is an equal chance of the ball dropping on any number, as roulette is a fair game of chance.

American Roulette Rules

Now, let's

discuss the rules you should know before trying your hand at a game of American live roulette. First, you should know that different chips are used in American roulette compared to other casino games. Once you've selected your table and exchanged your cash for roulette chips, you are ready to place your bet and play.

These bets are placed on

the roulette table, where you will find all the betting options visualised. It's important to note that players can put their chips on a single bet or various bets. Once all players have placed bets, the roulette wheel is spun.

One important thing to

note is that bets can be removed, moderated, or even placed after the wheel is spun. However, once the dealer cuts off all bets by shouting 'no more bets', all betting at the roulette table is stopped.

Now, all players will wait for the ball to drop into one of the numbered pockets on the wheel. The dealer then announces the winning number and marks it using a marker. The players with the winning bets are paid after this process, and the losing bets are swept off the table. Some additional rules to remember when playing American roulette are:

Always place your bet on the dedicated betting spot on the roulette table.

A table limit is set, and the roulette bets cannot exceed this limit.

You cannot place roulette bets once the dealer closes the betting session.

Only

the dealer is allowed to pay the winner and touch the chips of the players with the losing bets.

Never touch the marker of the winning number during any roulette session.

The pay table decides the payouts made for different types of winning bets.

American Roulette Wheel Layout

Getting confused when you look at the American roulette wheel? Let's take a look into the roulette wheel explained! As you can see, the American roulette wheel has 38 pockets that range from 0 to 36, with the additional 00 number (not included in other variations).

18 of these pockets are coloured black, while 18 of them are red. The 0 and 00 are marked in green to avoid any confusion. All 38 numbers (including 0 and 00) are arranged on the wheel so that there's an equal probability for the ball to settle on any of them.

The sequence of numbers on the American roulette wheel goes like this:

0, 28, 9, 26, 30, 11, 7, 20, 32, 17, 5, 22, 34,
15, 3, 24, 36, 13, 1, 00, 27, 10, 25, 29, 12, 8, 19, 31, 18, 6, 21, 33, 16, 4, 23, 35,
14, 2.

Bet On

Odd/Even

Betting on odd/even numbers means that players can place a bet that contains either all the odd numbers or the even numbers on the roulette wheel. The payout for this bet is also 1 to 1.

Segurança apertada

Outra razão importante para a duração das eleições é a segurança. As forças de segurança federal são implantadas ao lado da polícia estadual para prevenir violência e garantir que funcionários eleitorais e máquinas de votação estejam seguros.
