For the episode of Justified, see Cash Game (Justified)

Cash game

Cash games, also sometimes referred to as ring games or live action games, are poker games played with "real" chips and money at stake, often with no predetermined end time, with players able to enter and leave as they see fit. In contrast, a poker tournament is played with tournament chips worth nothing outside the tournament, with a definite end condition (usually, only one player left), and a specific roster of competitors.

Rules [edit]

Players may freely buy into or cash out of a cash game between hands.[1] However, it is normally prohibited for a player to remove a portion of his or her chips from the table. This is known as "going south".[2] For example, if a player buys in for R\$100, then wins R\$100 (for a total stack of R\$200), the player may not remove the original R\$100 buy-in while remaining seated. He would have to forfeit his seat, possibly wait to rejoin the game, and buy in again for R\$100; however, many cardrooms prohibit the practice of buying in again unless a certain time period has elapsed before the player rejoins. Similarly, cash games are played for table stakes. If a player attempts to put additional money onto the table (from his/her wallet) in the middle of a hand, he may not do so until the conclusion of said hand.

In "no limit" poker cash games, some cardrooms have a maximum buy-in for cash games. In limit poker games, there is seldom a maximum buy-in because betting limits already limit the amount a player can wager on each hand.

In a casino, a rake is usually taken from a pot if a flop is shown and the pot reaches certain values.[3] Some games take a time rake instead of a pot rake. In these games players pay a seat charge every half-hour.

Ring games [edit]

While the terms "ring game" and "cash game" are often considered synonymous in common usage, opinion differs on the true definition of "ring game". For example, in the glossary of Doyle Brunson's Super System 2, a ring game is defined as "A game with a player in every seat, that is, a full game—as opposed to a shorthanded game".[4] As such, the term "cash game" may be considered a more precise depiction of the kind of game commonly found in most casinos or home venues; that is, a non-tournament game played for actual money (or chips representing actual money), without regard for the number of players seated at the table at any given time.

Comparison with tournament games [edit]

Tournaments and cash games have different basic strategies. One difference between tournaments and cash games is that the blind/ante structure of tournaments increases periodically over the course of the tournament, whereas the blind/ante structure of cash games remains constant. Another difference between the tournaments and cash games is that a tournament sticks with a predetermined style of poker, and cash game players, depending on house rules, may have the option of playing other types of card games. Some online cash games offer a variety of choices limited only by the game software.

Other differences between cash games and tournament poker are that, in cash games sometimes straddles and chops are allowed. A live straddle is a dark bet of two big blinds by the player first to act, who is then entitled to bet again if the bet is not raised. A chop is an agreement between the players in the blinds to retract their blind bets if no one else has bet. A chop prevents the casino from taking a rake from the pot. Also, cash games sometimes allow players to reduce the element of luck (often called "variance", especially by professional players) by splitting large all-in pots. Since online platforms can instantly calculate each player's pot equity at the time they go all-in, some online cash games allow such pots to be split based on this equity. Players who opt for such an arrangement will receive a share of the pot based on his or her odds of winning (from the time all players still in the pot exposed their cards) once all of the cards have been dealt. An alternative method of reducing variance, used both online and in live games, is to run the board multiple times to ensure that the person with the best odds of winning gets the largest share of the pot more often.

Examples [edit]

An example of a cash game is broadcast on the United States subscription-based streaming service PokerGO as High Stakes Poker. The Bellagio casino's "Big Game" is a high-stakes permanent cash game, featuring a wide variety of rotating poker games with and without limits.[5]

El auge de la música con un sonido oscuro, minimalista y synth-heavy

Por alguna razón, existe un gran apetito en este momento por la música que abraza un sonido oscuro, minimalista, con una fuerte presencia de sintetizadores y a menudo de baja fidelidad, que recuerda a una fiesta en un squat ametista-cargado en la Berlín occidental de la década de 1980.

El éxito de I Like the Way You Kiss Me

Tomemos, por ejemplo, I Like the Way You Kiss Me, del músico británico-chipriota Artemas Diamandis, quien actúa como Artemas. Este breve estallido de synth-pop congelado y pulsante, que describe una aventura amorosa objetificada y emocionalmente desconectada, ha destacado en las listas de éxitos junto a Sabrina Carpenter, Kendrick Lamar y las hordas de guitarras acústicas estrujadas con sentimiento.

¿Qué es el darkwave?

Una lista oficial de reproducción de Spotify de artistas que incluyen a Artemas, Mareux, Boy Harsher, Ekkstacy, ThxSoMch, Twin Tribes, the KVB, Molchat Doma y Pastel Ghost, junto con grupos más antiguos como the Cure y Depeche Mode, han sido agrupados bajo la etiqueta de

darkwave. Pero, aunque es sin duda uno de los géneros más populares del mundo en este momento, nadie puede ponerse de acuerdo en qué es exactamente o si encajan en él.

Una mezcla de new wave y sonidos más oscuros

Helpfully, a new 60-track compilation album *No Songs Tomorrow: Darkwave, Ethereal Rock and Coldwave 1981-1990*, has arrived to provide some historical context. Featuring the likes of the Cure, Dead Can Dance, Cocteau Twins, In the Nursery, and Twice a Man, it shows that even in its original form, darkwave has always been a blurred genre. Simply speaking it's an exercise in opposites: taking new wave, keeping it uptempo, but inverting it to something more minor key, introspective, alienated and, well, dark.
