The main game is played with a wheel and colored pockets with alternating black and red. The total number of pockets in European Roulette is 37 (numbered 1 to 36) and a green pocket marked "0". The game is very similar to a real-world casino table. The difference is that it is offered in the comfort of your home. This table game can be played on a personal computer or mobile phone. The goal is simplified to just choosing the number on which the ball will settle.

Graphics and Sound

There isn't exactly much you can do graphically with a roulette table, but we've definitely tried our best! The table is crisp and clear, with delightful green felt. Ambient music is also played in the background – not too obtrusive, but enough to make you feel like you're in a land-based casino. NetEnt Games tend to go the extra mile for your enjoyment after all!

Betting Rules

When it comes to placing bets, Digital European Roulette is incredibly easy to get to grips with. There's a large payout table on the side of the wheel where you can see the different bet options (see below). Bets can range widely, but it will depend on the bet type you place as to what your odds are, and how much you can win. Changing your bets is super easy – just use the buttons at the base of the racetrack/paytable and then click on the number you wish to place the bet on. As with live roulette tables, you'll be given a specific time when you can place the bets, after which, all bets will be suspended while the wheel spins and the ball bounces along.
