Face cards each count as 10, Aces count as 1 or 11, all others count at face value. An Ace with any 10, Jack, Queen, or King is a Blackjack. If you have a Blackjack, the dealer pays you one-and-a-half times your bet unless the dealer also has a Blackjack, in which case it's a push and neither wins.

Deal one up card to each player, followed by a down card to the dealer. Then deal a second up card to each player, followed by the dealer's up card. Make sure the cards are laid out diagonally so that both numbers on each card are visible. This makes it easy for both the player and the dealer to read the cards.
