Advantages and Disadvantages of Sports Betting with Apple

Pay Apple is one of the world's biggest companies, founded by Steve Jobs, Steve Wozniak

and Ronald Wayne. The company began as Microsoft's main computing rival but since then

have evolved into the world's leading brand for mobile phones, with the iPhone emerging

in 2007. In that vein, Apple Pay betting companies are a relatively recent addition to

the market of available payment methods. Advantages The obvious advantage of using

Apple Pay betting sites is the speed of making your deposit. By far the fastest method

of depositing is through e-wallets such as Apple Pay and Google Pay, as you don't even

have to enter a password if your finger or face identification is set up. This means

that your money will be transferred within seconds, a real positive if you are looking

to bet in-play and need to deposit quickly so that the odds do not change. Now there

really is no need for the user to use the long-winded bank transfer payment method

again! Furthermore, paying at betting companies with Apple Pay is extremely safe and

secure, being protected with face or finger identification. This means that nobody can

access your Apple Pay account. Next, the payments are to be made directly from your iOS

smartphone or another device, so if you do not have your wallet on you, you can still bet on the go. Finally, there are no deposit or withdrawal fees at bookmakers accepting Apple Pay. A nice advantage as this means you can deposit as much as you want without worrying about little fees. Disadvantages Like many new payment methods, a disadvantage is a fact that you may struggle to find bookmakers who currently accept Apple Pay methods. Ewallets such as Skrill and Neteller are more widely accepted in the gambling world but we believe that in the upcoming years more and more bookmakers will accept the Apple Pay payment method. Luckily, we have put together a list above to cut out the middleman and show you the best websites that accept Apple Pay! Similarly, some bookmakers do not allow withdrawals through Apple Pay. However, the two suggested above in 888sport and William Hill do allow withdrawals through this method, as long as you have previously deposited with Apple Pay. Depositing and Withdrawing with Apple Pay at Sportsbooks As one of the advantages of Apple Pay was the quick deposit times, this will be instant, taking seconds for the money to appear on your account. However, there is no option to withdraw with this method. Apple Pay do not charge a fee. This makes it a worthy payment method ahead of e-wallets such as Webmoney, who charge a 0.8% fee on each deposit. You can choose your own limits for Apple Pay when depositing, with the maximum varying depending on each website. Advantages Limitations Convenient payment method No fees Well-protected by biometric data Instant transactions Low recognition Doesn't support withdrawals
