If you have ever played a Blackjack game accepting more than one player, you know the  
drill. The dealing order is always the same – left to right. One of the latest game  
variants launched by Evolution Gaming in January 2024 changes the way we have played  
Blackjack ever since. Called Speed Blackjack, the game provides all players at the  
table with an opportunity to make their decisions when they are ready to do it. Let's  
take a closer look at the Evolution product that allows you to make your moves without  
waiting for other players to complete theirs.

Speed Blackjack Rules and Gameplay

Speed

Blackjack is a game variant hosted by a real-life dealer. It uses 8 card decks and  
accepts up to 7 players simultaneously. Each player and the dealer receive two cards,  
with the dealer's first card being dealt face-up. In this game, the main goal is to  
beat the dealer's hands with a hand that is closer to 21 and not exceeding it. A set of  
standard rules are in play with players allowed to double down on the two initial cards  
and split any pair. If Aces are split, you can receive a single additional card only.

The dealer stands on all 17s, whether they are soft or hard. Payouts are standard as  
well with a natural awarding 3:2 and Insurance paying 2:1.

What makes Speed Blackjack

worthy of the name is 30% to 40% faster gameplay with rounds taking approximately 7  
seconds less. As soon as you receive cards, you can make your move within the given  
time. In case you don't manage to do it, the game has two Autoplay features that will  
complete your hand.

How to Play Speed Blackjack

The game starts with players placing  
main bets and being dealt two cards, as usual, left to right. Once the dealing is done,  
players can immediately decide whether they will hit, stand, double down or split  
without waiting for other players to make their moves. That means that players who have  
been the fastest will first receive the next card or finish the game. The only  
deviation from the standard rules is the Autoplay feature that will stand for you if  
you don't make a move with a hand of more than 12 and hit for you when your hand is  
worth less than 11.

Besides the main bet, Speed Blackjack offers two standard side bets – Perfect Pairs and 21+3. While the former pays up to 25:1, the latter can earn you up to 100:1. If there are no free seats at the table, you can use the Bet Behind option and play the game behind those that have joined it.

Speed Blackjack Strategy

The

dealing order does not change the mathematics of the game whose house margin is 0.71% for the main bet. Just like in other variants, the house edge of side bets is higher, sitting at 4.1% for Perfect Pairs and 3.7% for the 21+3 side bet. When it comes to the perfect strategy that can help you beat the game, we suggest using the basic strategy that will keep the house advantage as low as possible.

Speed Blackjack is a game

variant that is undoubtedly more suitable for experienced players who don't want to lose time waiting for other players to complete their moves. If you are a Blackjack newbie, make sure to hone your skills before you give this Evolution product a try!
