If you are a German speaker and you are looking for high quality European Roulette action then you have come to the right place. Live Deutsches Roulette is a classic game of European Roulette, but the croupier runs the game in German. You will find all of the features you need, such as a Racetrack betting area, and will find yourself immersed in the action thanks to the multiple camera angles and the high definition video streams. While enjoying the game, you can chat to the croupier and your fellow players in German.

Game Flow

Live Deutsches Roulette follows the standard European Roulette rules. The game features the spinning wheel that has been divided into 37 numbered segments, and you need to bet on which segment the ball will come to rest on.

There are two betting areas, a standard one and a Racetrack, as well as various shortcuts to place different kinds of bets. You need to place your chips on the relevant segments during the betting time and then the croupier will release the ball into the wheel. Once the ball has stopped, winning bets are paid out and you can place your chips for the next round.

Bets Explained

There are a huge number of different bets in Roulette. The game has been designed to allow for great flexibility when betting. The numbers do not run sequentially around the wheel and they have been coloured red and black, other than zero, which is green. Furthermore, the betting areas have a very specific layout. Thanks to this, in addition to individual numbers you can also bet on groups of numbers. The group may be numbers that share a characteristic, such as all the red or odd numbers, or it may be a group as formed by the layout of the betting areas.

Roulette bets are divided into inside and outside bets. The inside bets are:

Straight – A bet on an individual number

Street – A bet on a row of three numbers on the betting area

Split – A bet on two adjacent numbers

Corner – A bet on four numbers that form a square on the betting area

Line – A bet on two streets covering six numbers

Trio – A bet on three numbers including 0

The outside bets are:

Column Bet – A bet on a column of 12 numbers on the betting area

Dozen Bet – A bet on a set of 12 numbers, 1 – 12, 13 – 24 or 25 – 36.

Red/Black – A bet on all the red or all the black numbers

Even/Odd – A bet on all the even or all the odd numbers

Low/High Bet: A bet on whether the ball will land on a low or high number (1 – 18 or 19 – 36).

There is a Racetrack betting area that is used to place specific betting patterns:

Voisins du Zero: A bet on the numbers next to 0 on the wheel, it includes all of the numbers between 22 and 25.

Tier: A bet on the area of the wheel opposite to 0, this bet covers roughly a third of the wheel, the numbers between 33 and 27.

Orphelins: A bet on the numbers 17, 34, 6, 1, 20, 14, 31 and 9.

Zero: A bet on seven numbers surrounding zero on the wheel

You can also place neighbour bets, a bet on a number and its neighbours on the wheel. You can set the amount of neighbouring numbers to be between 0 and 9.

Special Features

Live Deutsches Roulette offers many special features to enhance your experience. If you have favourite bets that you often use then you can save them and place them with one click rather than having to reposition chips all the time. Those interested in statistics can view the results of the last 50 to 500 rounds together with hot and cold areas of the wheel. If you want to just sit back and watch then you can use the auto play function to set a bet for up to 100 rounds. Finally, you have the choice of three different views, 3D, which will give you the impression of sitting at the table, Classic, which shows you the stream, the chat, the betting areas, and the statistics simultaneously, and Immersive, which features multiple camera angles that the game cycles through to show you the relevant action.

Payouts

Live Deutsches Roulette offers the standard Roulette payouts. Straight Up bets pay 35:1, Split bets pay 17:1, Street bets pay 11:1, Corner bets pay 8:1, Line bets pay 5:1, Column and Dozen bets pay 2:1, and Red/Black, Even/Odd, and 1-18/19-36 pay 1:1.

Maxime Vachier-Lagrave vence el CrunchLabs Masters y gana R\$300,000 dólares

El gran maestro francés Maxime Vachier-Lagrave ganó el torneo CrunchLabs Masters, parte del

Champions Tour con un premio total de £1.7m, después de derrotar a su compatriota Alireza Firouzja en la final. Vachier-Lagrave eliminó previamente al número 1 del mundo, Magnus Carlsen, y derrotó a Firouzja dos veces en la final con un marcador de 2.5-0.5 y 3-2.

Carlsen, cuya madre falleció recientemente a la edad de 61 años, perdió 2.5-1.5 contra Vachier-Lagrave en las semifinales. Vachier-Lagrave ha eliminado a Carlsen en tres ocasiones en las dos temporadas del Champions Tour. El francés dijo que su estilo podría ser un problema para el ex campeón del mundo: "Puedo ver todas esas pequeñas tácticas ingeniosas, mientras que Magnus pierde una o dos en un juego, y eso puede resultar costoso... en ese sentido, podría ser una peor coincidencia para él que otros jugadores."

Estos resultados representan una impresionante remontada para Vachier-Lagrave, quien estuvo a punto de convertirse en el desafiante de Carlsen en 2024, pero desde entonces ha bajado en las clasificaciones mundiales de la FIDE y actualmente se encuentra incluso fuera del top 20 en juegos clásicos.

Caruana v Firouzja

1 c4 c6 2 Nf3 d5 3 g3 Bg4 4 Ne5 Bf5 5 Qb3 Qb6 6 cxd5 Qxb3 7 axb3 Be4? Cayendo en la trampa de apertura de Blancas. **7...Bxb1 8 Rxb1 cxd5** es igual. **8 dxc6 Bxh1??** El negro debería conformarse con perder un peón por **Nxc6**. **9 Rxa7! 1-0** El segundo sacrificio de torre. Si **9...Rxa7 10 c7** y el peón se convierte en dama por **cx8=Q+** o por **c8=Q+**, mientras que en otro caso **10 Rxa8** gana. Hubo un aguijón en la cola, ya que Firouzja se recuperó y derrotó a Caruana 3-2 antes de llegar a la final.

El Champions Tour se convierte en prioridad para muchos grandes maestros

El Champions Tour tiene cuatro eventos abiertos a todos los grandes maestros, además de un torneo de clasificación para otros titulares internacionales, culminando con una final en persona programada para mediados de diciembre. Premios numerosos y sustanciales han convertido al Tour en una prioridad para muchos GM, por lo que los torneos de clasificación siempre son intensos, con el límite de tiempo rápido de 10 minutos por jugador por juego, más un incremento de dos segundos por movimiento, lo que agrega tensión.

Es un excelente deporte espectáculo gratuito, con acción continua, comentarios informativos y visuales útiles en el sitio web de chess.com, donde acaba de comenzar el próximo gran evento, el Speed Chess Championship con un premio de R\$175,000 dólares.

Carlsen estará en acción esta tarde (3pm Viernes 26 de Julio) cuando se enfrente al GM Tuan Minh Le de Vietnam en la ronda de 16. Sus tres horas de juego incluirán 90 minutos de 5 minutos+1 segundo de ajedrez relámpago, 60 minutos de 3+1 de ajedrez relámpago y 30 minutos de 1+1 de ajedrez bullet.
