Slot Review

This masterpiece is a true testament to the studio's incredible talent.

Presented to the gambling community in 2024, it remains a strong player favorite and has no issues competing with fresher hits that only get bigger, louder, and more volatile. An older brother to Reactoonz 2, Gigantoonz, and Dr.Toonz, it is the only one in the family reaching the status of a timeless hit. Others weren't so lucky to draw massive crowds.

Playing Reactoonz demo version would demonstrate why so many fellow slot enthusiasts choose it over more recent releases. The game shows consistently great performance landing in our top 100 for 3 consecutive years in 2024, 2024, and 2024. It's a great achievement as the list is based on real money data and is packed with iconic titles.

Reactoonz RTP & Volatility

You don't have to wait for a bonus round to land some decent size wins. All the fun takes place in the base game. It can be quite slow at times and then suddenly the energy level blasts through the roof with so much crazy stuff going on. That's what the slot's high volatility is all about: making the game highly unpredictable. Reactoonz demo is there to introduce you to the gameplay.

Play'n GO is known for implementing flexible RTP. All of its releases have multiple settings, and operators have the opportunity to pick. The studio is open about it and it's your job to check if the one you are about to play has an acceptable return level.

You definitely wouldn't like to spin the version with the lowest RTP as it offers 84.51% whereas the highest figure is 96.51%. It takes some learning to find the

RTP value of a Play'n GO title. There's some code inspection required. It isn't rocket science and takes just a few steps to remember. But it would be so much easier to have the value specified in the game files. The easiest way is to contact casino support.

How to Win

Launch Reactoonz free play to check the Paytable as it tells everything about payouts. To land a payout the rule is similar for all symbols: there should be a cluster of 5 similar aliens. As long as they are connected horizontally or vertically, they are considered a cluster, and after paying out winning symbols disappear giving way to other icons to possibly form new clusters.

Wins are quite

frequent, you generally won't have long losing streaks and have at least one smallest payout that is generally around 10 times smaller than your wager. But when the slot is ready to rock and roll, wins just keep coming from all directions.

Bonus Features

It

takes the help of the exciting Quantum features and eventually the awakening of Gargantoon to land the most impressive payouts. If enough winning symbols get collected during a single spin, the slot releases Quantum features that throw wilds, destroy low-paying icons, or transform them into higher-paying ones.

Check out Reactoonz demo

for more details or simply jump right into testing to see what these features are all about. The latter is a more exciting option, and it would be impossible to form an opinion about the slot without giving it a few test spins. For the most part, you'll be enjoying one or a couple of features in the same spin and have a great time without landing massive payouts.

Reactoonz Symbols and Paytable

It's a world of aliens of

various shapes and forms. One-eyed ones are the least valuable and you'll be paid more for aliens with two eyes. A purple two-eyed creature pays the most, but there's that famous Gargantoon who wakes up only on special occasions and is initially a 3x3 wild and then turns into two 2x2 and finally into 9 individual wilds. A set of special feature symbols are also present. Explore all the icons during Reactoonz free play.
