roulette, (from French: “small wheel”), gambling game in which players bet on which red or black numbered compartment of a revolving wheel a small ball (spun in the opposite direction) will come to rest within. Bets are placed on a table marked to correspond with the compartments of the wheel. It is played in casinos worldwide. Roulette is a banking game, and all bets are placed against the bank—that is, the house, or the proprietor of the game. As a big-time betting game, it has had its popularity superseded in the United States and the Caribbean islands by others, notably craps, blackjack, and poker. Fanciful stories about the origin of roulette include its invention by the 17th-century French mathematician Blaise Pascal, by a French monk, and by the Chinese, from whom it was supposedly transmitted to France by Dominican monks. In reality, roulette was derived in France in the early 18th century from the older games hoca and portique, and it is first mentioned under its current name in 1716 in Bordeaux. Following several modifications, roulette achieved its present layout and wheel structure about 1790, after which it rapidly gained status as the leading game in the casinos and gambling houses of Europe. During the years 1836 to 1933, roulette was banned in France.

Equipment The roulette table is composed of two sections, the wheel itself and the betting layout, better known as the roulette layout. There are two styles of roulette tables. One has a single betting layout with the roulette wheel at one end, and the other has two layouts with the wheel in the centre. The wheel spins horizontally. Heading the layout design, which is printed on green baize, is a space containing the figure 0 (European style) or the figures 0 and 00 (American style, although such wheels were used also in Europe during the 18th and 19th centuries). The main portion of the design is composed of 36 consecutively numbered rectangular spaces, alternately coloured red and black and arranged in three columns of 12 spaces each, beginning with 1 at the top and concluding with 36 at the bottom. Directly below the numbers are three blank spaces (on some layouts these are marked “2 to 1” and are located on the players’ side of the table). On either side of these or along one side of the columns are rectangular spaces marked “1st 12,” “2nd 12,” and “3rd 12” on American-style layouts. On European-style layouts these terms are “12p” (première), “12m” (milieu), and “12d” (dernière douzaine). Six more spaces are marked “red” (rouge), “black” (noir), “even” (pair), “odd” (impair), “1–18” (low, or manque), and “19–36” (high, or passe). The roulette wheel consists of a solid wooden disk slightly convex in shape. Around its rim are metal partitions known as separators or frets, and the compartments or pockets between these are called canoes by roulette croupiers. Thirty-six of these compartments, painted alternately red and black, are numbered nonconsecutively from 1 to 36. On European-style wheels a 37th compartment, painted green, carries the sign 0, and on American wheels two green compartments on opposite sides of the wheel carry the signs 0 and 00. The wheel, its spindle perfectly balanced, spins smoothly in an almost frictionless manner. The standard roulette table employs up to 10 sets of wheel checks (usually called chips). Each set is differently coloured; each traditionally consists of 300 chips; and there is one set for each player. The chips usually have a

single basic value, although some casinos also sell chips of lesser value. The colour of the chips indicates the player, not the value of the chips. If a player wishes to buy chips of slightly higher value, the croupier places a marker indicating that value on top of the table's stack of chips of the colour corresponding to the chips purchased. Most casinos also have high-value chips that can be wagered at any gaming table. Unlike roulette chips, these have their numbered values printed on them. **Bets** It is possible to place the following bets in roulette: (1) straight, or single-number (*en plein*), in which the chips are placed squarely on one number of the layout, including 0 (and also 00 on American layouts), so that the chips do not touch any of the lines enclosing the number; a winning single-number bet pays 35 to 1 (for each unit bet, a winning player receives his original bet and 35 matching units); (2) split, or 2-number (*à cheval*), in which the chips are placed on any line separating any two numbers; if either wins, payoff odds are 17 to 1; (3) street, or 3-number (*transversale pleine*), in which the chips are placed on the outside line of the layout, betting the three numbers opposite the chips; payoff odds on any of the three numbers are 11 to 1; (4) square, quarter, corner, or 4-number (*en carré*), in which the chips are placed on the intersection of the lines between any four numbers; payoff odds are 8 to 1; (5) line, or 6-number (*sixaine* or *transversale six*), in which the chips are placed on the intersection of the sideline and a line between two "streets"; payoff odds are 5 to 1; (6) column (*colonne*), or 12-number, in which the chips are placed on one of the three blank spaces (some layouts have three squares, marked "1st," "2nd," and "3rd") at the bottom of the layout, thus betting the 12 numbers above the space; payoff odds are 2 to 1; (7) dozens (*douzaine*), or 12-number, in which the chips are placed on one of the spaces of the layout marked "12," betting the numbers 1–12, 13–24, or 25–36; payoff odds are 2 to 1; (8) low-number or high-number, in which the chips are placed on the layout space marked "1–18" (*manque*) or on the space marked "19–36" (*passee*); payoff is even money; (9) black or red, in which the chips are placed on a space of the layout marked "black" (*noir*) or on a space marked "red" (*rouge*; some layouts have a large black or red diamond-shaped design instead of the words); payoff is even money; (10) odd-number or even-number, in which the chips are placed on the space of the layout marked "odd" (*impair*) or on the space marked "even" (*pair*); payoff is even money. On layouts with a single zero (European style), the 0 may be included in a 2-number bet with any adjoining number, in a 3-number bet with 1 and 2 or with 2 and 3, and in a 4-number bet with 1, 2, and 3 at the regular odds for these bets. With the American-style 0 and 00, a 5-number line bet also is possible, the player placing his chips on the corner intersection of the line separating the 1, 2, 3 from the 0 and 00, with payoff odds of 6 to 1.

## **genshin roulette**

A 365bet Roulette é um popular jogo de casino oferecido no site de apostas esportivas online {nn}.

A palavra "roleta" vem do francês "roulette", que significa "pequena roda". O jogo consiste genshin roulette genshin roulette uma roda giratório com 37 ou 38 numerados cachos ou compartimentos (dependendo se é roulette europeia ou americana), onde os jogadores colocam apostas genshin roulette genshin roulette um tapete verde comum com caixas para apostas.

### **A história da roleta: origens e evolução**

Embora genshin roulette origem exata seja desconhecida, a roleta era popular na Itália como um jogo de azar simples no século XVII.

O jogo atualizado foi introduzido no final do século XVIII genshin roulette genshin roulette Paris e mudou com o tempo. Ele chegou aos Estados Unidos genshin roulette genshin roulette meados do século XIX e introduziu o "double zero" para aumentar a vantagem da casa.

## 3. genshin roulette :senhas de poker

### Cómo se configuran los cinco mejores

**Novak Djokovic** El campeón defensor está un poco disperso por todas partes, derrotado en 1 Monte Carlo por Casper Ruud y en Roma por Alejandro Tabilo. Aunque los slams son diferentes y nadie se sorprendería 1 de ver otra victoria milagrosa, por el momento al menos el chivo parece vulnerable.

**Jannik Sinner** Después de su monumental victoria en 1 Melbourne, Sinner habría sentido confianza en hacer algo en París, solo para que un problema de cadera amenazara su participación. 1 Tal vez aún no se mueva lo suficientemente bien como para vencer a los mejores

en tierra batida, pero con 1 los pies plantados nadie golpea la pelota con tanta limpieza.

**Carlos Alcaraz** Perdió ante Andrey Rublev en Madrid y no ha competido 1 desde entonces, después de lastimarse el antebrazo derecho en la práctica. Pero si se recupera a tiempo, tiene una gran 1 oportunidad y habrá aprendido mucho el año pasado, cuando la presión de una semifinal contra Djokovic fue demasiado para que 1 lo manejara.

Un Carlos Alcaraz enfermo fue superado por Novak Djokovic 1 en las semifinales del año pasado. ¿Podrá ir más lejos esta vez?

**Alexander Zverev** Su drive y segundo servicio socavan 1 un revés destructivo y primer envío, lo que lo hace poco probable como campeón. Pero nunca se sabe porque, a 1 pesar de su incapacidad para ganar cuando realmente lo necesita y un juicio por abuso doméstico que comienza durante el 1 torneo, sigue convencido de su propia magnificencia.

**Daniil Medvedev** Un gran mover para un hombre tan largo, pero en ninguna parte cerca 1 de un gran movimiento lo suficientemente bueno como para ganar en tierra batida, como lo demuestran sus recientes derrotas ante 1 Karen Khachanov y Tommy Paul. Aunque sigue siendo lo suficientemente bueno como para vencer a cualquiera en su mejor día, 1 una salida temprana parece más probable que una carrera profunda.

## Mejor esperanza en casa

**Giovanni Mpetshi Perricard** Ugo Humbert está teniendo 1 una gran temporada, pero su juego ofensivo no se adapta a Roland Garros. Mpetshi Perricard, por otro lado, a pesar 1 de tener solo 20 años, ha ganado tres Challengers este año, ha llegado profundo en Lyon y su imponente marco 1 de 6 pies 8 pulgadas le permite golpear la pelota con tanta fuerza que roza la crueldad.

## Mejor esperanza 1 británica

**Jack Draper** El juego de poder zurdo de Draper, aunque mejor en canchas duras y césped, es desagradable de enfrentar en 1 cualquier superficie. Agregar a Wayne Ferreira a su equipo en etapa de prueba, principalmente para ayudar con el lado mental 1 de las cosas, podría darle el enfoque que necesita para pasar de pretender a contender.

## Mejor esperanza americana

Tommy Paul brilla en las superficies lentas, a diferencia de muchos de 1 sus compatriotas.

**Tommy Paul** No hay mucha competencia, el contingente estadounidense prefiriendo generalmente las canchas duras y el césped. Pero 1 Paul se desempeña mejor en superficies lentas, perdiendo estrechamente en las semifinales de Roma después de una carrera en la 1 que venció a Daniil Medvedev y Hubert Hurkacz, y a los 27 debería estar en la cima de su juego. después de la promoción del boletín

## Gran nombre más probable de caer temprano

**Daniil 1 Medvedev** Dado sus dificultades con la forma y la aptitud física, los mejores jugadores clasificados todos se ven vulnerables. Pero la 1 superficie lenta reduce el impacto del servicio de Medvedev mientras que su deseo de golpear bolas planas es mucho menos 1 efectivo en tierra batida que en otras superficies, los intercambios más largos y lentos exigiendo mayor variedad de cortes y 1 giros.

## Outsider con mejor oportunidad de gloria

**Rafael Nadal** No se ría: con 32 semillas, esto es una ranura difícil de 1 llenar con las opciones ovbias - los chilenos Nicolás Jarry y Alejandro Tabilo en el 16 y 24, respectivamente. Lo 1 que nos deja con el, bueno, campeón de 14 veces, quien se enfrenta a Zverev en la primera ronda y 1 llega a París sin forma de la que hablar ... pero con pedigrí razonable.

## Uno para ver

**Stanislav Wawrinka** A los 1 39 años, el campeón de 2024 sigue siendo una delicia, su juego ofensivo gracias a una voluntad de atacar todo 1 y un revés que pertenece al Louvre. Nadie ha jugado tan brillantemente con regularidad (habiendo llegado al campo luciendo como 1 si acabaran de salir del club) y si nada más, su partido de primera ronda con Andy Murray debería ser 1 un golpe.
