Dragon Games

Fantastical Beasts

Do you like dragons? Do you like games? Then you're on the right page! Dragons have been appearing in many types of games for a long time. But what is a dragon in the first place? They are mythical monsters with scales, razor-sharp teeth, and enormous wings. This is why they are so great – they're gigantic flying lizards. Oh, and did we mention that they breathe fire?! Nobody really knows where the myth of these legendary beasts first originated from, but the word first appeared as early as the 13th century! Dragons appear slightly differently in many mythological tales from all over the world, including:

Ancient Greek myth – in the myth of Jason, the golden fleece he seeks is hidden in a forest, guarded by a dragon, who he must slay to complete his quest.

, who he must slay to complete his quest. Chinese mythology – the popular story of the Zuo Zhuan tells the tale of a man called Dongfu, who could understand the will of dragons. He loved them very much, and raised them himself, in service of his Emperor.

. He loved them very much, and raised them himself, in service of his Emperor. Japanese legends – in Japan, dragons are often depicted as water deities, appearing by rivers and other bodies of water, and are depicted differently. They have no wings and have long, snakelike bodies.

are often depicted as water deities, appearing by rivers and other bodies of water, and are depicted differently. They have no wings and have long, snakelike bodies. Norse tales – there is a dragon in Norse myth who bites at the roots of the world tree, and also a great serpent who encircles the entire mortal plane in the sea.

### Widely Loved

If you ask someone what their favorite fantasy creature is, most people will probably say that dragons are at the top of their list. (Sorry, unicorns! You are very cute, but you just aren't quite as cool!) This is why they appear so much in gaming. Playing as a dragon is very appealing for a few reasons:

With their scorching breath, dragons are powerful and dangerous beasts. It feels very powerful to have a built-in flamethrower in your character's throat!

are and beasts. It feels very powerful to have a built-in flamethrower in your character's throat!

Who hasn't tried to fly at some point in their lives? Flying is the ultimate fantasy, which is why dragons are fun to play as. They can swoop and soar with ease, even though they are enormous! is the ultimate fantasy, which is why are fun to play as. They can swoop and soar with ease, even though they are enormous! Most dragons in video-games are much larger than humans are (apart from Spyro !) so playing as a dragon feels like seeing the world as a giant or a dinosaur! Playing a dragon gives you a completely different perspective.

in are much larger than humans are (apart from !) so playing as a feels like seeing the world as a or a dinosaur! Playing a gives you a completely different perspective. Appearance isn't everything, but it is a good reason for why it is so much fun to play as a dragon in a game. Most of the time, they are armored with hundreds of reptilian scales, like the ones that snakes and lizards have, but much bigger. They're also likely to have horns and reptilian eyes. They also come in all of the colors of the rainbow, like purple, red and green, and even in some colors which the rainbow doesn't have, like gold and silver.

When you take all of this on board, who wouldn't want to play a game as a dragon for a few hours? They're some of the coolest characters to play!

### Character Types

These mythical creatures work perfectly as video-game characters, and have been appearing in games for a long time in lots of different ways. Here are just a few of them:

As the main character – in games like the fun 3D platformer, *Spyro the Dragon*, the player controls the dragon throughout the game, and the story centers around their character. This character first appeared in 1998 on the original PlayStation.

The final boss – dragons, with their fire-breathing and hard scales, would be very difficult to beat in a fight! That's why they are often the final boss of a video-game, like in *Minecraft*, or in table-top games, like *Dungeons and Dragons*, which first got published all the way back in 1974!

– , with their fire-breathing and hard scales, would be very difficult to beat in a fight! That's why they are often the of a video-game, like in , or in table-top games, like , which first got published all the way back in 1974! Travel companion - who wouldn't want to sit on a dragon's back and be flown around? No more being stuck in the car at a red light! In video-games like *Panzer Dragoon*, your scaly beast doubles as your friend on the road, as you direct it to soar and weave as you take out opponents.

back and be flown around? No more being stuck in the car at a red light! In like , your scaly beast doubles as your friend on the road, as you direct it to soar and weave as you take out opponents.

As a friend – dragons aren't always center-stage in video-games, but sometimes are there to help players on their way. You can tame dragons in *Skyrim* to ride on, and in the *Pokémon* games you can capture a Charizard – a strong, dragonlike creature who is very likely to win the player battles.

As you can see, it's not as if the great winged beasts have been underrepresented in the past.

But it's only in recent years that dragons have found favor with modern gamers. This is because of the HBO fantasy drama *Game of Thrones*, which reached the height of its popularity and resulted

in the resurgence of swords and sorcery. Fantasy is back, and it's bigger and better than ever. Thanks to Game of Thrones, fantasy is cool again, and dragons are definitely the coolest part of it.

### GamePix & Dragons

GamePix plays host to some of the very best games featuring these fire-breathing titans, all of which run on any web browser with a stable internet connection. They can also be played on any device using either touch controls or a mouse and keyboard. There is a wide range of dragon games to provide hours of gameplay, which focus on all of the incredible things that make the idea of being a dragon for a few hours so appealing. Some of our games task you with scorching enemies while other, more child-friendly platformers have you leaping and flying around. We even have modern takes on the classic Dungeons and Dragons RPG formula. Whether you're more of a Spyro or a Drogon, GamePix has the dragon games that will have you soaring and scorching with glee.

# Certified Copy: Una película que te hace cuestionar la realidad y el arte

Aquellos que buscan una película relajante y con ramalazos filosóficos, no necesitan seguir buscando, Certified Copy es la indicada. El director iraní Abbas Kiarostami nos transporta a través de los callejones de la Toscana y de los conejos filosóficos, haciéndonos cuestionar el valor de los originales frente a las copias. Es como despertarse de un sueño, donde el mundo se percibe con una lógica diferente y hermosa durante un breve instante.

Aunque Certified Copy sea la primera película de Kiarostami fuera de Irán, su estilo realista y claro sigue siendo cautivador, tal como en Taste of Cherry en 1997 y Where is the Friend's House? una década antes. Renombrado por imbuir narrativas simples con complejidad inescrutable, Kiarostami crea este enigma cinematográfico de una manera sencilla, aunque las cosas puedan parecer de otra manera al principio.

## El valor de lo original frente a la copia

Comenzamos con una conferencia dada por James Miller (William Shimell), un escritor inglés engreído y exitoso, quien ha viajado a Toscana para promocionar su libro más reciente, también titulado Certified Copy. James cuestiona por qué el valor de una obra de arte original debe ser superior al de una copia, si la copia es tan buena o incluso mejor. ¿Por qué la belleza y el valor de un objeto o incluso una persona, dependen de cómo se perciben?

Durante la conferencia, una mujer francesa (la encantadora Juliette Binoche) se sienta en la primera fila. Whispea al organizador del evento y le pasa una nota, quizás su tarjeta. Dispara miradas furtivas a su hijo de 11 años que se muestra inquieto a un lado. No pasa mucho tiempo antes de que se levante y abandone la sala.

Más tarde, James se encuentra caminando por escaleras de piedra hasta la tienda de antigüedades de la mujer en el sótano. Se saludan como desconocidos y pronto emprenden un viaje sin rumbo por el campo, durante el cual la naturaleza de su relación y sus vidas comienzan a cambiar sutil y lentamente. El nombre de la mujer nunca es revelado.

La pareja pasa la película paseando por paisajes idílicos, entrando y saliendo de iglesias, cafeterías y patios soleados. Hablan y hablan y hablan - sobre arte, cultura, amor: todas las cosas importantes. Sus conversaciones comparten ADN con los largos diálogos escénicos de Jesse y Céline en la trilogía soñadora Before de Richard Linklater y las disertaciones cómicas de Rob Brydon y Steve Coogan en la serie Trip - todos los cuales capturan el deleite del paseo, con un amigo o un amante, a través de hermosos pueblos europeos. Y sin embargo, Certified Copy también ofrece algo más. A medias escondido dentro de la imagen de Kiarostami, hay un acertijo.

Aunque la pareja comienza como desconocidos corteses, el tono de su conversación pronto adquiere una tensión personal extraña. Afiladas discusiones y misteriosos destellos de emoción sugieren una historia secreta entre los dos estetas. Las actuaciones de Binoche y Shimell, como los únicos indicadores de los cambios caprichosos de la película, son fascinantes, sus expresiones fluyendo rápidamente entre cortesía, humor y repentina melancolía o irritación.

A lo largo de estas carreteras bordeadas de cipreses, yace un camino hacia una realidad oculta. Los dos desconocidos (¿o son amantes, o antiguos amantes ...?) flotan entre diferentes

versiones de sí mismos, todas las cuales parecen -paradójicamente- tanto inescrutables como auténticas. ¿Cuáles de estas identidades son reales y cuáles son falsas? ¿Y vale la pena hacer esa pregunta?

No espere respuestas fáciles. En su lugar, encontrará una tesis única y reveladora, una nueva forma de percibir el mundo. El placer de esta película radica en su misterio; en la inconstancia con la que nuestras percepciones de culturas y relaciones pueden cambiar; en la facilidad con que la autenticidad o la verdad pueden reducirse a una irrelevancia. Ven por el paisaje, quédate por el rompecabezas.
