HM Cloud: hands in the cloud from Holdem Manager

Holdem Manager announced the launch of

the HM Cloud service, which is "the first of its kind in the cloud with an integrated heads-up display."

HM Cloud benefits

Thanks to the new service, users will not have to

download databases to their computers - all hands will be stored in the cloud. The launch of such a service is a rather bold step that can significantly change the world of modern poker.

If your computer slows down while running Holdem Manager or other software, the situation can be significantly improved by using HM Cloud. The official announcement says: "HM Cloud does not require your computer resources to perform single calculations and search statistics for a player or his opponents. The local HM Cloud client is installed on the computer and has two main functions: (1) sends new hand histories to HM Cloud; (2) gets updated HUD data from HM Cloud and displays it at your table."

Requirements for installing HM Cloud

The requirements for installing HM Cloud

are minimal - the software installation process is quite simple. In addition, you do not in any way clog the computer memory and do not overload it with additional options.

HM Cloud can be accessed from any device connected to the Internet. That is, from a practical point of view, you can sit at any computer and still be able to use all the stats in the usual format.

HM Cloud works right in the browser, so it is kind of

standardized for various OSs, including Windows and Linux. That is, no matter what computer you use and how perfect it is, HM Cloud will always be at your fingertips. The

official announcement also says: "HM Cloud HUD for Mac users is scheduled to launch in the near future. Since all processes, statistics generation and hand history storage are performed on the HM Cloud servers, a minimum of memory and processor resources of the user's local computer is used, even when playing at several tables."

Holdem Manager

is currently launching HM Cloud for alpha testing. The service is available only at cash tables at PokerStars and only for users of the Google Chrome browser. By the time HM Cloud hits the market in a full version, the service compatibility will be more extensive.

The data stored in the cloud service will be private and inaccessible to the general public. In addition, HM Cloud can be used from a mobile device.

At the moment,

the cost of using the HM Cloud service is not disclosed. On this occasion, Holdem Manager representatives noted: "As HM Cloud develops as a full-fledged product, we will be able to more adequately assess its cost. When making these kinds of decisions, we will certainly take into account the existing HM2 users."

In one experiment, Pluribus played 10,000 hands of poker against five human players selected randomly from the pool. Pluribus's win rate was estimated to be about 5 big blinds per 100 hands (5 bb/100), which is considered a very strong victory over its elite human opponents (profitable with a p-value of 0.021).

It's primarily a skill game, although luck plays a huge role. In any single given hand, luck is the predominant factor in who will win or lose. However, poker players don't play a single hand. They play hand after hand after hand & and overall, skill dominates.

Enhance your home with a beautiful glass bowl\n\n Those that are supplied with a rose are designed for holding flowers. Simply use the spaces in the metal net to position individual stems, cutting the stem so that it is long enough to reach the water in the bottom of the Glass Bowl.

Celadon City Slot Tip\n\n All of the slot machines have different odds, which change every time. To win big, play each machine 4 times, and if it hits 2 or more, then stick with that one, because it's probably hot.

Aventura emocionante y cómica de la famosa familia "Spy x Family" en la gran pantalla

Después de exitosa adaptación televisiva, los queridos personajes del bestseller de manga Spy x Family están listos para sus primeros planos en la pantalla grande. Dirigida por Takashi Katagiri con una historia original, esta película altamente entretenida conserva la ingeniosa mezcla de

aventuras de espionaje y payasadas de la vida cotidiana que han convertido a la serie en un éxito, todo mientras expande sus secuencias a una escala más espectacular.

Conseguir un equilibrio delicado entre comedia, suspenso y emociones fuertes no es tarea fácil, y por lo general, la película logra esta misión con éxito.

La encantadora familia Forger se adentra en una nueva aventura

La divertida triada Forger del espía papá Loid, la mamá asesina Yor y la hija telepática Anya, se presentan rápidamente; esta "familia" falsa emprende una hilarante aventura que involucra un postre escurridizo, negativos robados y un coronel villano. Unida por una asignación secreta de alto nivel, los Forgers deben ocultar sus poderes especiales entre sí, un rompecabezas aún más cómico gracias a la inclusión de su perro de peluche Bond, un labrador que puede ver el futuro. Aunque los conflictos de la Guerra Fría sirven de inspiración, cualquier connotación política es meramente un MacGuffin, agregando un toque de pastiche al universo de la película. Desde la partitura de jazz hasta los aparatos y disfraces elegantes, los detalles tangibles son un cambio bienvenido en comparación con otras películas que priorizan la acción sobre la sofisticación. *Spy x Family Code: White* no always gets the balance right; comparing with the first half which, like the TV series, sees child-rearing as its own kind of mission impossible, some of the later scenes are bogged down by lengthy showdowns between the Forgers and their foes. The wacky humour, however, re-emerges in a surreal, gorgeously animated daydream dedicated to the god of poop. It is this full-throated commitment to silliness that makes this film, and *Spy x Family* as a whole, a singularly delightful experience.
