Zentaurus Slot Machine

The creatures from Greek mythology were known as savage beasts with an upper body of a human extending 5 into a lower body of a horse. These mighty centaurs are unleashed on the reels of this slot addition to 5 the Colossal Payouts™ series by Merkur Gaming, doubling as wild symbols and win multipliers.

Merkur Gaming is

one of the veterans 5 in the entertainment industry, having celebrated its 60th anniversary in 2024. Throughout its history, the developer remained at the forefront 5 of producing innovative gaming concepts – initially for brick-and-mortar casinos and in the past decade for online gaming. Merkur Gaming 5 slots are known for their high volatility with massive win potential. Games such as Eye of Horus or 221B Baker 5 Street have achieved legendary status among the slot-playing community.

The Beast in Numbers

and Stats

Merkur is yet another provider that hides 5 the potential of its games behind rather simplistic yet modern designs. That should not fool anyone, as the high variance 5 of these games is not for the faint-hearted. Plus, crisp graphics and seamless animations underscore the high quality of Merkur 5 games.

Zentaurus fits exactly into the

above category, with a Greek-themed game window and sky-high line pays for a five of 5 a kind. Those brave enough to take the game for a spin will do so on five reels, three rows, 5 and 20 fixed paylines. A generous RTP of 95.96% will ensure that balances do not vanish at high speed. Bet 5 sizes starting at 0.20 credits will be welcomed by low rollers, while the maximum 40 credits keep the risk in 5 check.

All low-value pay symbols

from 9 through to A can appear semi-stacked on any spin. Medium-paying symbols do not appear 5 stacked and comprise a Greek fruit basket, an ancient amphora, a harp, and a tile with a mountain scene. The 5 top and wild symbol is Zentaurus himself, appearing in different sizes covering one- to three-reel positions. Pays for a single 5 five of a kind start at 4x the bet and peak at a staggering 5,000x your stake. Scatters are an 5 ancient gold coin, with a minimum of three required to trigger the free spins. Merkur has limited the maximum win 5 from one spin or bonus round to 250,000 coins or 10,000x your stake, whichever value is reached first.

Wild Win Multipliers 5 and Colossal

Payouts™

Watch in awe as a seemingly smallish win transforms into a big or even mega win when combined 5 with wild symbols. Any winning combination with a minimum of one wild symbol will be sweetened with an increasing multiplier. 5 One wild symbol applies a x2 multiplier, two wilds will see that growing to x4, while three increase the number 5 to x8. The top multiplier is x16 and this is achieved when four wild symbols complete a winning combo.

Taking the 5 highest character symbol, which normally pays 200x your stake for five of a kind, will see the win go up 5 to 400x the stake, all the way to a massive 3,200x the stake. Even the lowest-paying symbol will deliver big 5 wins from 8x to 64x your bet.

Free Spins With a Streak

Experience a bonus round with a twist on Zentaurus

when 5 at least three scatters land anywhere on the reels in one spin. 10 free spins are awarded, which can be 5 indefinitely retriggered. While there are no extra multipliers awarded during the feature, there's a surprising feature which could make a 5 big difference to the result of the bonus round.

This is the Streak feature, which is

triggered on every free spin 5 when a winning combo lands on the reels. The symbols from the combo are locked in place and the game 5 starts a respin. Any further occurrences will also be locked and another respin is awarded until no further matching symbols 5 land on the reels. Wins are then evaluated and paid accordingly. This can potentially lead to big multi-line wins. At 5 the end of each Streak, the symbols are unlocked for the next free spin.

More Greek Mythology

The Greek mythology theme has 5 proven very popular with gaming enthusiasts, subsequently finding its way onto countless slot reels. Virtually every game provider has at 5 least one such slot in their portfolio. So play with the gods on their mighty reels in Zeus III and 5 Zeus 1000 from WMS, or go for jackpots that are out of this world in Divine Fortune from NetEnt. Want 5 to see super-expanding reels? Then try Hercules High & Mighty from Barcrest.

Want even higher

multipliers? Sure, why not? Give 300 5 Shields from NextGen Gaming a spin to experience a massive x300 win multiplier on the final level of the free 5 spins round. Or go for the quirky Donuts slot from Big Time Gaming, where a separate reel set will award 5 multipliers for the bonus round, occasionally going well over x100.

An Ordinary Final

Verdict

This slot sees us, ordinary mortals, against the 5 gods and their beastly creatures. That just about sums up Zentaurus from Merkur Gaming. It will be a mighty challenge 5 to spin the reels on this high-variance game, but the rewards can be heavenly. Hitting several multiplier wilds or the 5 top pay for five-of-a-kind Zentaurus symbols will be an exhilarating moment time and again. Please keep in mind the high 5 volatility of this slot, though, as while it can reward handsomely, on occasion it can also quickly drain your balance.
