American Roulette is a classic casino game (the word roulette

means 'little wheel' in French).The principle of this game is easy: the Dealer spins a ball around the rim of a revolving wheel which is divided into 37 equal compartments

clearly numbered 0 to 36. Each number is either red or black except zero which is usually green. The ball eventually comes to rest in one of the compartments and that compartment is the winning number. The Dealer will show this on the layout by placing a 'dolly' on the winning number.

As mentioned, the house edge and odds for European Roulette are better for the player, compared to American Roulette. The house edge is a lot lower at 2.7%, and the odds of winning by betting on specific numbers is 1 in 37.

There is one main difference between European roulette and American roulette. The latter has 38 pockets and two zeros 0 and 00 whereas in European roulette, the wheel has 37 pockets and just one zero. The sequence of the numbers on a European roulette wheel is also different.

What is American roulette? The American roulette wheel has some key differences to the standard wheel you see throughout casinos in Europe and the UK, with 38 numbers (1 to 36 plus 0 and 00). Numbers from 1 to 36 are alternately coloured red and black, while the single zero and the double zero are marked in green.

In addition to our popular American-style Roulette game with 36 numbered slots, a 0 and a 00, we also offer our European Roulette, which has a single 0 along with the standard 36 numbers, and is a favorite among our international customers.
